The GIS systems have already assisted response teams as they go door to door to deliver water supplies to residents. Each team is armed with an iPad that feeds information into the GIS system. The online application uploads home data in real time, noting whether there are children in the household and which ones have been provided with bottled water, a water test kit, a water filter and replacement cartridges. The information has also helped identify the number of inhabited homes in a city affected by blight. Old data may show a street full of residents, when some houses are actually vacant.

For more information the GIS project, contact James Tchorzynski, at 517-230-5568. Additional information is available at www.michigan.gov/flintwater, by calling 211 or 844-875-9211, or visiting www.helpforflint.com

FOR IMMEDIATE RELEASE
Friday, Jan. 29, 2016

EDITOR'S NOTE: Infographic detailing the $28 million supplemental available here.

Gov. Rick Snyder secures $28 million in immediate aid to Flint residents

Governor renews call for federal support for Flint

LANSING, Mich. – Governor Snyder today signed legislation bringing $28 million to immediately help families in Flint with lead testing, treatment and other emergency services. The funding was part of a multi-point relief package the governor outlined last week during his state of the state address to the Michigan Legislature.

Speaking before the editors and publishers of the Michigan Press Association, the Governor also renewed his call for additional federal funding and assistance. To date, the federal government has only earmarked $5 million in assistance for Flint.

"This was a failure of government at every level - federal, state and local. I have apologized for the state's portion of this failure, accepted the resignation of top DEQ officials and suspended two pending a civil service investigation. I pledged to be accountable and those are not idle words - they are being put into action every day," Snyder said.

This is the second emergency supplemental funding bill allocated to assist the city of Flint this

fiscal year. A previous $9.3 million package was approved in October 2015 to reconnect Flint to the Detroit Water and Sewerage Department, provide filters and water testing to residents, aid in follow-up health services for children and assist with plumbing inspections at schools and health facilities.

"I thank the Legislature for their quick action to make this additional $28 million a reality. It is a necessary next-step in ongoing recovery efforts for the city. We know that more money will be needed to address long-term concerns and I want to reassure the families of Flint that I remain dedicated to fixing this problem," Snyder said.

House Bill 5220, sponsored by state Rep. Phil Phelps and approved unanimously in both the House and Senate will help ensure Flint residents have access to safe, clean drinking water while helping to do the following:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
- Provide additional community education opportunities within the Genesee County Health Department;
- Compensate the Michigan National Guard's work to support water distribution;
- Assist with home lead abatement costs;
- Help the City of Flint with utility issues;
- Provide operational funding for the Flint Interagency Advisory Committee.

The funding bill totals $28 million with $22.6 million from the general fund. The remaining $5.4 million comes from a combination of federal and restricted funds. It is now Public Act 3 of 2016.

Snyder will propose a long-term funding solution to address the ongoing needs of Flint in his Feb. 10 formal budget recommendation.

Gov. Snyder was in Flint on Tuesday, Wednesday and Thursday this week, meeting with Mayor Karen Weaver, holding a roundtable with local pastors and also convening the first meeting of the Flint Water Interagency Coordinating Committee, which brings together community leaders and independent experts including Dr. Mona Hanna-Attisha and Marc Edwards of Virginia Tech University. The governor also met with the Rev. Jesse Jackson, NAACP President Cornell William Brooks and visited local fire stations to thank members of the National Guard and Red Cross volunteers for their door-to-door efforts.

#

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. Hi Tiff,

Would you be able to work in the Flint JIC on Feb 10 and 11? We're short staffed both days and I think I need to be at the Director's meeting on Feb 10 so we'll really be down bodies.

I think we will still have the office covered those two days too, but I'm copying in Nicole and Sierra in case I'm not aware of something.

Also, for Sierra, wondering if you should have a pass day on Friday, Feb 12 since you are working the weekend before and after that? You would also have Monday, Feb 15 off for President's Day. Thoughts?

Please let me know. Thanks.

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Water Resource Sites Open Daily from 9 a.m. – 9 p.m.
Audio Available from Governor Snyder's Tele-Town Hall

FOR IMMEDIATE RELEASE
January 28, 2016
Release #: 21

Flint, Mich. – As efforts continue to ensure Flint residents have safe drinking water, Governor Snyder last night held a live tele-town hall where he and other state officials fielded questions from residents on the state's actions. A recording of the conversation can be heard here.

One of the most visible aspects of the response continues to be the distribution of bottled water, filters, water replacement cartridges and water testing kits by National Guard members at five of the city's fire stations.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 207,055 cases of water
- 97,342 water filters
- 30,801 water testing kits

Water response teams also continued door-to-door delivery efforts. Today, 125 American Red Cross and other volunteers visited 1,768 homes providing free bottled water, filters, water replacement cartridges and water testing kits.

Earlier this afternoon, a coalition of public-private partners announced Flint's coordinated recycling program for empty water bottles and used water filter cartridges. Residents can learn more here.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Flint Water Daily Update
Updated Jan. 28

Current Issues Talking Points

Michigan Legislature approves immediate supplemental funds for Flint

- The Michigan Legislature has unanimously approved Gov. Rick Snyder's $28 million supplemental proposal for Flint.
- This emergency funding is in addition to the $9.35 million allocated back in October to switch the water source back to Detroit's water system, purchase filters and screen for abnormal blood lead levels.
    - The state is working on longer-term funding to be included in the Governor's budget request in February.
- The $28 million will be used to help Flint's utilities, treating Flint children with high blood lead levels and the replacement of plumbing fixtures in schools, child care centers, foster care and nursing homes.
- This supplemental funding is just one part of the solution for healing Flint.
    - The immediate needs will be met, but so will the long-term needs of residents with regard to public health, infrastructure replacement and community support.

Flint emergency declaration extended to April 14

- Today Gov. Rick Snyder issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.
- The Michigan House and Senate approved the request, extending the emergency until April 14, 2016.
    - This extension coincides with the current Presidential Emergency Declaration.
- Extending this emergency will help us continue providing immediate assistance to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

Federal funds

- In an interview today, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.
- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.
- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

Comprehensive Plan for Flint

- Yesterday, the Governor held a press conference in Flint to outline next steps for the city, including infrastructure needs and clean water.
- Later in the day, Dr. Mark Edwards, who is part of the Governor's newly appointed Flint Water Interagency Coordinating Committee, echoed Governor Snyder's sentiments on how to fix the water issue and how to deal with the pipes.

Medicaid/Federal Asks

- On Jan. 26, Governor Snyder announced that a request will be sent to the federal government that asks for all Flint residents under age 21 to receive additional healthcare services to address potential problems brought on from exposure to lead.
- We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts.
- Request will include:
    - Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level.
    - Lead-abatement programs to help minimize and/or prevent any long term adverse health problems associated with lead exposure.
    - Additional, community-based resources to ensure all children, regardless of health insurance coverage, have access to comprehensive medical treatment.

FOR IMMEDIATE RELEASE
Thursday, Jan. 28, 2016

Gov. Rick Snyder: Flint emergency declaration extended to April 14

LANSING, Mich. – Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.

"The emergency response in the city of Flint has been critical to ensure every Flint family has access to bottled water, filters, and testing kits. While these efforts have a big impact in the short term, there is still much more work to be done.

"Extending this emergency will help us continue these efforts while working on long-term solutions to help Flint recover from this tragedy."

The Michigan House and Senate approved the request today, extending the emergency until April 14, 2016. The extension coincides with the current Presidential Emergency Declaration.

FOR IMMEDIATE RELEASE
Thursday, January 28, 2016

$28 million in immediate supplemental funds for Flint approved by Michigan House, Senate

Funding passed unanimously in both chambers

LANSING, Mich. – Twenty-eight million in direct funding will aid with recovery efforts in Flint, after the Michigan House and Senate unanimously voted to pass a supplemental bill package today.

"Thanks to the swift action of the Legislature, this $28 million will provide the immediate resources needed in Flint," Snyder said. "I want the residents of Flint to know this supplemental funding is just one part of the solution for healing the city. The immediate needs will be met, but so will the long-term needs of residents with regard to public health, infrastructure replacement and community support.

"The quick approval of this funding shows how all of Michigan can pull together in times of crisis, and further shows what working together can accomplish."

The supplemental will allocate funding to:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares and nursing homes;
- Provide for an infrastructure study using independent experts;

- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
- Help the city of Flint relieve residents of water bill payments.

Gov. Snyder asked for the $28 million during his State of the State address on Jan. 19. Further recommendations on long-term budget resources for Flint will come during his annual budget presentation on Feb. 10.

Fellow PIOs,

The Flint Joint Information Center (JIC) is still looking for staffing for the next two weeks. To all of the state departments and agencies who have provided staffing, thank you for your commitment in making this operation happen.

We are asking everyone to please providing staffing availability by 2 p.m. today (Thursday, Jan. 28). The latest staffing roster has been attached.

The Flint JIC provides excellent crisis communication training. We have a great team and are willing to train individuals in different roles.

No previous experience is required. Hotel rooms are provided upon request. Lunch and dinner are provided.

Please reach out if you have any questions.

Sincerely,

Ron

United States Department of Agriculture

Food and Nutrition Service

Midwest Region

77 W. Jackson Blvd.
20th Floor
Chicago, IL
60604-3591

January 29, 2016

Stan Bien, Director
Michigan WIC Program
Michigan Department of Health & Human Services
320 South Walnut Street-6th Floor
Lansing, Michigan 48913

Dear Mr. Bien:

This is in response to your letter dated January 27, 2016, which requested Food and Nutrition Service (FNS) approval to increase the access and availability of WIC benefits and services to children from 5 through 10 years of age. Your letter states you are requesting this exception based on the Flint Water Emergency and to fight lead with nutrition.

FNS is committed to assisting the State of Michigan in addressing the water crisis in Flint, particularly as it impacts children; one of our nation's most vulnerable populations. The Special Supplemental Nutrition Program for Women, Infants and Children (WIC) is considered one of the most critical, cost-effective, and important nutrition intervention programs in the country.

While we understand the State's desire to extend this important program to children up to 10 years of age, the federal statute governing WIC limits eligibility to children up to age five. More specifically, under section 17(b)(2) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)(2)), "children" means persons who have had their first birthday but have not yet attained their fifth birthday. Thus, due to limitations established by statute, we are unable to approve your request. Any changes to WIC eligibility requirements would require Congressional action.

FNS is dedicated to supporting the nutrition of Flint's older children through other existing federal programs which include the National School Lunch Program, The Emergency Food Assistance Program and The Child and Adult Care Food Program.

FNS is working with the Michigan Department of Education to respond to the needs of children in Flint. I encourage you to connect with staff at the Michigan Department of Education in order to refer families with children over age five to existing nutrition programs in the community.

We have also evaluated your request to increase the number of Lactation Consultants in effort to increase the number of breastfeeding mothers. It is anticipated that fiscal year 2016 breastfeeding peer counseling funds will be allocated to WIC State agencies, including Michigan, by mid-March. In addition, Michigan's existing WIC nutrition services and administrative grant provides the ability to expand the number of Lactation Consultants. We encourage you to work with our Regional funding staff to review your anticipated need and funding level.

USDA IS AN EQUAL OPPORTUNITY PROVIDER AND EMPLOYER

I appreciate the Michigan Department of Health and Human Services continuing to work with FNS to help ensure the delivery of essential nutritional services as you strive to address the adverse effects of lead contamination in the Flint community. We are confident that collaboratively we can continue to make a positive and meaningful contribution toward improving the health and nutrition of residents in Flint and throughout Michigan.

Sincerely,

Tim English

Updated Jan. 29

<u>Current Issues Talking Points</u>

Governor and DEQ encourage home water testing

- The health and safety of Flint residents remains a top priority. Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- It is essential that all Flint residents have the water in their homes tested as soon as possible.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Until water is declared safe, continue to follow established safety protocols.

Governor secures emergency supplemental to immediately aid Flint residents

- <u>Snyder signs $28M Flint bill, hopes for safe water soon</u> (Detroit News)
- The $28 million in funding will help address immediate needs for the people and families of Flint. It is a necessary next step in ongoing recovery efforts for the city.
- The Governor signed the legislation at the first possible opportunity, following its unanimous approval in both the House and Senate.
- The Flint water crisis was a failure of government at all levels – city, state and local. The governor has apologized and taken responsibility for the state's role in this failure.
    - Accepted the resignation of top DEQ officials and suspended two pending a civil service investigation.
    - Approved two emergency funding bills to support Flint residents (This $28 million and a previous $9.3 million in Oct. 2015).
    - Declared and extended a state of emergency for the city and activated the National Guard.
- To date, the Governor and Legislature have approved a total of $37.3 million in emergency funding for Flint while the federal government has earmarked only $5 million in assistance.
    - The Governor will continue to call on the federal government and our Congressional partners to secure additional funding to help address the long-term needs of the city.
- This $28 million in emergency aid will help:
    - Supply free bottled water, faucet filters, and testing kits for Flint residents;
    - Put nine nurses in local schools to monitor student health and well-being;
    - Provide better nutrition for students and infants through WIC and in-school nutrition programs;
    - Replace fixtures in schools, daycares, nursing homes and hospitals;
    - Provide for an infrastructure study using independent experts;
    - Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
    - Provide additional community education opportunities within the Genesee County Health Department;
    - Compensate the Michigan National Guard's work to support water distribution;
    - Assist with home lead abatement costs;
    - Help the City of Flint with utility issues;
    - Provide operational funding for the Flint Interagency Advisory Committee.

- This funding package is just one step of many. Additional long-term resources will be needed as we work together to strengthen the city of Flint moving forward.

Fresh water in State of Michigan Flint office building was for all

- Amid denials state workers in Flint got clean water (Detroit Free Press)
- Fresh water in Flint State building was for all (ABC News)
- In January 2015, as a customer of Flint water, DTMB received a notification that the water system in Flint's state office building was found to be in violation of a drinking water standard.
- DTMB made the decision to provide an alternative drinking option for both building employees and public visitors.
    - Health of visitors was a top priority.
    - Approximately 500 visitors sign into the Flint office building every day. Many of which enter the building for access to DHHS services.
    - Those with an increased risk included people with severely compromised immune systems, infants, or the elderly. A large number of the clients using the DHHS services fall within those demographics.
- After receiving information from the city, verbally, in July 2015 that the water system issue had been addressed, the water coolers were removed.
- It wasn't until late Sept/Oct 2015 when the presence of lead in the water was confirmed that the water coolers were replaced.

Flint Water Daily Update
Updated Jan. 28

Current Issues Talking Points

Michigan Legislature approves immediate supplemental funds for Flint

- The Michigan Legislature has unanimously approved Gov. Rick Snyder's $28 million supplemental proposal for Flint.
- This emergency funding is in addition to the $9.35 million allocated back in October to switch the water source back to Detroit's water system, purchase filters and screen for abnormal blood lead levels.
    - The state is working on longer-term funding to be included in the Governor's budget request in February.
- The $28 million will be used to help Flint's utilities, treating Flint children with high blood lead levels and the replacement of plumbing fixtures in schools, child care centers, foster care and nursing homes.
- This supplemental funding is just one part of the solution for healing Flint.
    - The immediate needs will be met, but so will the long-term needs of residents with regard to public health, infrastructure replacement and community support.

Flint emergency declaration extended to April 14

- Today Gov. Rick Snyder issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.
- The Michigan House and Senate approved the request, extending the emergency until April 14, 2016.
    - This extension coincides with the current Presidential Emergency Declaration.
- Extending this emergency will help us continue providing immediate assistance to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

Federal funds

- In an interview today, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.
- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.
- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

Comprehensive Plan for Flint

- Yesterday, the Governor held a press conference in Flint to outline next steps for the city, including infrastructure needs and clean water.
- Later in the day, Dr. Mark Edwards, who is part of the Governor's newly appointed Flint Water Interagency Coordinating Committee, echoed Governor Snyder's sentiments on how to fix the water issue and how to deal with the pipes.

Medicaid/Federal Asks

- On Jan. 26, Governor Snyder announced that a request will be sent to the federal government that asks for all Flint residents under age 21 to receive additional healthcare services to address potential problems brought on from exposure to lead.
- We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts.
- Request will include:
    - Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level.

- Lead-abatement programs to help minimize and/or prevent any long term adverse health problems associated with lead exposure.
- Additional, community-based resources to ensure all children, regardless of health insurance coverage, have access to comprehensive medical treatment.

STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
January 28, 2016
Release #: 21

Water Resource Sites Open Daily from 9 a.m. – 9 p.m.

Audio Available from Governor Snyder's Tele-Town Hall

Flint, Mich. – As efforts continue to ensure Flint residents have safe drinking water, Governor Snyder last night held a live tele-town hall where he and other state officials fielded questions from residents on the state's actions. A recording of the conversation can be heard here.

One of the most visible aspects of the response continues to be the distribution of bottled water, filters, water replacement cartridges and water testing kits by National Guard members at five of the city's fire stations.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 207,055 cases of water
- 97,342 water filters
- 30,801 water testing kits

Water response teams also continued door-to-door delivery efforts. Today, 125 American Red Cross and other volunteers visited 1,768 homes providing free bottled water, filters, water replacement cartridges and water testing kits.

Earlier this afternoon, a coalition of public-private partners announced Flint's coordinated recycling program for empty water bottles and used water filter cartridges. Residents can learn more here.

MORE

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

***Release #:* 22**

State Using Technology to Identify Lead Pipes and Track Water Resource Distribution in Flint

Flint, Mich. – In an effort to help identify the location of lead pipes and other components of Flint's water infrastructure, GIS experts from the City of Flint, State of Michigan, the University of Michigan – Flint, and FEMA have translated hundreds of hand-drawn plat maps from the 1980s and hand-written notes on thousands of cards about updates to home plumbing systems into digitized maps. These maps are helping with the response and determine where safe water is needed.

"Mapping infrastructure to this depth of detail is highly unusual," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police, Emergency Management and Homeland Security Division. "Since most of the water system infrastructure is underground, we can't just walk out and survey it, so GIS mapping is a critical component of the state's coordinated response."

Once the maps are in digital format, they are synched with 2015 parcel data. The maps can then be overlaid with Census information and infrastructure information, allowing analysts to pinpoint which homes have lead service lines.

"The state is making progress in organizing, cataloging, and converting water service line information from paper to searchable databases and digitized maps," said Scott Bailey, a GIS data analyst with FEMA helping with the mapping project. "This is going to be a success story because prior to this event, this type of information was not available in a GIS environment."

The GIS systems have already assisted response teams as they go door to door to deliver water supplies to residents. Each team is armed with an iPad that feeds information into the GIS system. The online application uploads home data in real time, noting whether there are children in the household and which ones have been provided with bottled water, a water test kit, a water filter and replacement cartridges. The information has also helped identify the number of inhabited homes in a city affected by blight. Old data may show a street full of residents, when some houses are actually vacant.

For more information the GIS project, contact James Tchorzynski, at 517-230-5568. Additional information is available at www.michigan.gov/flintwater, by calling 211 or 844-875-9211, or visiting www.helpforflint.com

PHOTO/VIDEO OPPORTUNITY TODAY

Community Coalition kicks off water bottle recycling program

Who: A coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:

- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What: Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When: Thursday, January 28, 2016
11:30 a.m.

Where: Fire Station #1
310 E. 5th St., Flint

- The press conference will take place behind the fire station near the water distribution station

Details: Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

Subject: SEOC Update 2/6/16 - Flint Water - Limited Distribution

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.

- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.

- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.

- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.

- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.

- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Sent: Saturday, February 06, 2016 4:03 PM
To: Lisabeth, Nicole (MSP)
Subject: Saturday, Feb. 6 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

U.S. Small Business Administration approves Governor Snyder's request

The approval provides low-interest disaster loans for small businesses in Flint and Genesee County. These loans will help small business owners and nonprofits in Flint recover from any damages as a result of the Flint water crisis. Business owners seeking these loans must apply by Nov. 7, 2016.

Former head of DEQ water quality unit removed

Putting the well-being of Michiganders first needs to be the top priority for all state employees. Anything less than that is unacceptable.

After a departmental review of circumstances during the time period leading to the Flint water crisis, the former head of the Michigan Department of Environmental Quality's Drinking Water and Municipal Assistance unit was officially terminated from state employment yesterday afternoon.

State encourages food establishments to take advantage of free water safety inspections

In an effort to support Flint food-based businesses, Lt. Gov. Brian Calley and others provided a behind-the-scenes look at how the Michigan Department of Agriculture and Rural Development and Genesee County Health Department are working with local restaurants to conduct free water assessments and ensure food safety precautions are in place.

Reminder: Children in Flint should be tested for lead

The 9,000 children in Flint under age 6 should have their blood tested for potential lead poisoning after some water tests showed lead levels in the city's water may exceed the capacity of faucet filters. Primary care doctors in Flint and the Genesee County Health Department offer lead testing of children's blood. For more information, dial United Way 2-1-1 or visit www.mi.gov/FlintWater.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 281,019 cases of bottled water
- 103,886 water filters

- 209,439 replacement cartridges
- 34,829 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Subject: Staffing for Feb. 8 to Feb 12

Fellow PIOs,

I've attached the latest Flint Joint Information Center staffing sheet that covers from Feb. 8 to Feb. 14.

For those coming to the Flint JIC, the key information you need to know is listed below. Please let me know if you have any questions.

Thanks,

Ron

==========

JIC Location:

State of Michigan Office Building
125 E. Union Street
5th Floor (Next to the East Lobby)
Flint, MI 48502
https://goo.gl/maps/ZpiVMNys3u52

Free parking is available in the parking structure directly across the street from the main entrance to the State of Michigan Office Building.

Use the parking garage entrance on Harrison Street. You may park in spots designated as "Flint Water Team" on Level 4 (Yellow Cones) or anywhere on the roof (Level 5). There will be a security guard at the gate on Level 3 to let you into the State of Michigan parking area.

JIC Hours:

Please try to be at the JIC by 8 a.m. as some briefings start as early at 8:30 a.m. The media hotline opens at 9 a.m. We are always in need of staff who can stay until 8 p.m.

Hotel Information:

PIOs who need to stay in Flint (at no charge to them), can reserve a room by calling the Holiday Inn, using the below information:

Holiday Inn - Flint
5353 Gateway Centre Dr.
Flint
Phone: 810-232-5300

Please use the following account code in order to ensure the room is charged to State Police:

If you reserve a room, we need to you to report it to JICManager@michigan.gov so it can be shared with Finance. If you have any problems or find the hotel to be booked, please email JICManager@michigan.gov.

Misc.

There are laptops here in the JIC; however, most PIOs have found working on their own laptops seems to work better. If you have a laptop, the recommendation is to bring it.

Flint Water Daily Update
Updated Feb. 5

Current Issues Talking Points

U.S. Small Business Administration disaster declaration request approved

- Coordination across all levels is necessary to assist Flint along its road to recovery. This disaster has impacted many families both at home and through their businesses.
- In an effort to secure all available resources to ensure the safety and well-being of Flint residents, the Governor requested a disaster declaration from the Small Business Administration yesterday, Feb. 4.
- The disaster declaration request was granted today, allowing Flint businesses, small agriculture cooperatives, and most private, nonprofit organizations who may have been affected by lead-impacted water to qualify for financial assistance in the form of federal Economic Injury Disaster loans.
- The SBA tailors loan repayment to each individual borrower's financial ability. Business owners seeking these loans must apply by Nov. 7, 2016.
- The approval will help support comprehensive recovery efforts in the city from health and infrastructure to economic development.

Former head of DEQ water quality unit removed

- The Governor remains committed to building a DEQ culture of trust and responsibility with residents well-being as a top priority.
- After a departmental review of circumstances and actions leading up to the Flint water crisis, the former head of the MDEQ Drinking Water and Municipal Assistance unit was officially terminated today.
- The former supervisor was dismissed following a disciplinary conference regarding performance.

Governor invited to testify at Congressional Hearing

- The Governor received an invitation to testify at the Democratic Steering and Policy Committee hearing in Washington D.C. next week.
- At this point in time, the Executive Office is reviewing the request.

Task Force Coordination/Communication Concerns

- Gov. Snyder has promised full cooperation with the Flint Water Task Force and any other authority investigating the Flint water crisis.
- The situation Dr. Reynolds described at the FWICC meeting today is exactly the frustration the Governor has spoken about regarding the culture in some state departments that was a problem and needed to be changed.
- The Governor is actively taking steps to rectify the situation, and ensure that authorities get the information they need when they need it.
- We are glad that Dr. Reynolds raised the issue directly with us today. We will not tolerate any departments withholding information from the task force.

FOR IMMEDIATE RELEASE
Friday, Feb. 5, 2016

Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans

SBA approved Snyder's Thursday request

LANSING, Mich. – The Small Business Administration today approved Gov. Rick Snyder's request for low-interest disaster loans for businesses in Genesee County and the city of Flint.

"Approval of economic injury disaster loans will help business owners and nonprofits in Flint recover from any damages as a result of the water crisis," Snyder said. "We will continue to seek resources from all levels of government to help the people of Flint and appreciate the SBA's partnership in our efforts."

The approval provides access to federal Economic Injury Disaster Loans, which are working capital loans to small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations that meet

their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster. Business owners seeking these loans must apply by Nov. 7, 2016.

Repayment of disaster loans is tailored by the SBA to the borrower's financial capacity.

More information and criteria for SBA disaster loans is available atwww.sba.gov/disaster. Eligible Flint business owners can apply online via SBA's website at https://disasterloan.sba.gov/ela.

State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
Local and State Leaders Showcase Water Assessments Done at Flint Food Establishments

FOR IMMEDIATE RELEASE
February 5, 2016
Release #: 31

Flint, Mich. – In an effort to support Flint food-based businesses, Lt. Gov. Brian Calley, along with local and state food regulators and business development officials, provided a behind-the-scenes look at how the Michigan Department of Agriculture and Rural Development (MDARD) and Genesee County Health Department are working with local food establishments to conduct water assessments and ensure food safety precautions are in place.

"Flint has hundreds of restaurants, retail food markets and food processors committed to serving its residents safely," Calley said. "These establishments can now receive free assessments from MDARD and the Genesee County Health Department to ensure food safety precautions are in place."

"In response to this emergency and the need to assess lead levels in water being used at Flint food establishments, MDARD has mobilized 14 food inspectors, working full-time to conduct risk-based compliance assessments and verify adherence to current water source requirements," said MDARD Director Jamie Clover Adams. "MDARD inspectors are assisting the Genesee County Health Department in conducting the sampling and inspections, allowing the health department to focus its efforts on checking other priority facilities in its jurisdiction, including childcare facilities."

Food establishments must take extra precautions to protect food safety during the Flint water emergency. These precautions include having the water tested by an accredited laboratory to prove it is safe to use; installing approved water filters, as needed; flushing unfiltered faucets and hard-plumbed equipment on a daily basis; or using commercially bottled water for all cooking, cleaning/washing and drinking.

"Flint's restaurants and other food establishments are demonstrating they are taking the necessary precautions to reduce potential food safety risks associated with Flint water," said Mark Valacak, Health Officer, Genesee County Health Department. "Safe food preparation and handling is the cornerstone of any food business's success, and we are dedicated to working cooperatively with MDARD and the food service establishments we regulate to ensure the safety of our food supply."

The State of Michigan is covering the cost of water sample testing for food establishments on the City of Flint water supply.

"The restaurants, bars, cafes and other food businesses, like the Flint Farmers' Market, in Flint are the backbone of the city's culture and economic success, and help define who we are as a community," said George Wilkinson, Group Vice President, Flint & Genesee Chamber of Commerce. "Whether a relative new-comer or a well-established dining institution, we need to do whatever we can to support Flint food businesses and ensure their success."

Flint has a total of 633 licensed food businesses, including restaurants, food processors and retail grocery stores. Assessments have been prioritized according to risk, with those in known high-lead areas taking first priority, and by request from food establishments. Food businesses who have not yet had an assessment or free water sample testing can call MDARD's Call Center at 800-292-3939 to schedule an appointment.

As of Feb. 4, MDARD has completed approximately 225 initial assessments of food businesses and has begun doing follow-up assessments. If the businesses are taking the required precautions, they are determined to be in compliance with state and federal food regulations. A list of food businesses determined to be in compliance with current water use regulations is available at www.michigan.gov/flintwater. The list is updated regularly.

Flint food businesses not included on the list are not necessarily out of compliance with Michigan food regulations. Some businesses have not yet received a compliance assessment from food inspectors.

Initial water samples taken at the facilities were "first-draw" samples, taken when the water had not been in use for at least six hours. If first-draw samples showed any lead levels, follow-up samples are being taken. MDARD will continue to work with businesses to make sure they are in compliance with water use requirements and assist them in getting water test sample results below detectable levels.

For more information, or to schedule a food establishment water assessment, contact MDARD at 800-292-3939.

FLINT WATER RESPONSE TEAM

UPDATE | FRIDAY, FEBRUARY 5, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

LIVE at 10 AM: Gov. Rick Snyder will offer remarks at the Flint Water Interagency Coordinating Committee meeting

The Flint Water Interagency Coordinating Committee was established on January 11, 2016 to facilitate the collaboration and communication between state department, local governments and subject matter experts necessary to effectively coordinate a response and recovery effort to ensure safe drinking water for Flint residents. Tune in live at 10 am today to watch Governor Snyder offer remarks at the FWICC meeting.

Senate approves Governor Snyder's request of $30 million for Flint's water bills

The proposal announced Wednesday by Gov. Rick Snyder to aid the city of Flint with credits to be applied to the portion of residents' water and sewer bills for water used for drinking, bathing and cooking is one step closer to enactment after the state Senate voted unanimously yesterday for passage of the $30 million dollar funding request.

If approved by both chambers and signed into law, the Consumption and Consumer Use Credit would aid the city of Flint in applying these credits to residents' water portion of their water and sewer bills

until state and federal officials certify the water is safe to consume.

Learn more about the $30 million request for Flint water bills.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 272,017 cases of bottled water
- 103,402 water filters
- 208,576 replacement cartridges
- 34,456 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3

Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Thursday, February 4, 2016

Gov. Rick Snyder requests disaster declaration from Small Business Administration

SBA declaration would provide low-interest loans for small businesses in Flint

LANSING, Mich. – Gov. Rick Snyder today requested an Economic Disaster Declaration for Genesee County and the City of Flint, from the U.S. Small Business Administration (SBA). A disaster declaration from SBA would pave the way for financial assistance for Flint residents and business owners impacted by lead-contaminated water in the City of Flint.

"While we continue to coordinate resources from all levels to ensure the health and welfare of Flint residents, we must also recognize that some Flint-area businesses have been impacted by this water emergency," Gov. Snyder said. "An SBA disaster declaration can help ensure that those businesses have access to federally subsidized loans."

If approved, the SBA disaster assistance program provides low-interest loans for small businesses and private, nonprofit organizations that "suffered substantial economic injury as a direct result of the contaminated public water supply," according to the Governor's request. The SBA tailors the repayment of each disaster loan to the borrower's financial capability.

Gov. Snyder declared a state of emergency on Jan. 5 for Genesee County. The declaration makes available all state resources in cooperation with local response and recovery efforts in the county as outlined in the Michigan Emergency Management Plan. On Jan. 28, the state of emergency was extended until April 14, 2016.

More information about SBA loans can be found here.

Flint Water Daily Update
Updated Feb. 4

Current Issues Talking Points

State Senate takes up and approves Governor's $30 million proposal to assist Flint with water bill payments.

- No family or resident should be required to pay for water that is or was unfit for consumption.
- Yesterday, the Governor announced a plan to request $30 million to assist the city of Flint with water bill payments. The funding would come in the form of a supplemental from the Fiscal Year 2016 budget.
- The proposal calls for a Consumption and Use Credit the city could use to relieve families of a portion of their water bills from April 2014 through April 2016.
    - A typical Flint resident's billing statement includes charges for water and sewer.
    - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
    - Residents would still be responsible for the remaining balance of the water portion of a bill accounting for water used in ways that do not qualify as consumption.
    - Residents would be responsible for covering all sewer costs.
- The official request was to be part of the Governor's formal budget presentation next week on Feb. 10, the Senate took up the proposal and passed it unanimously today.
- If approved in the House, total supplemental emergency funding for Flint will total $67.3 million this fiscal year.

Legionnaires Disease

- As the Governor has said repeatedly, he was not briefed on this issue until January 2016. He took action promptly and released the information publicly.
- When Harvey Hollins received the March email, he requested the DEQ look into the concerns, check with its experts, and get the facts. If the concerns were determined to be credible, the director was to bring the issue to the attention of the Governor.
- The issue was not brought to the Governor's attention until January of this year.

- Gov. Snyder has made changes at the department to address these concerns and change the culture to best protect the well-being of Michiganders.

Republican and Democratic Presidential Debates coming to Flint

- It was confirmed today that both a Republican (Detroit) and Democratic (Flint) Presidential debate will take place in Michigan in early March.
- To date the Federal Government has provided only $5 million in funding to assist residents in Flint while the State has allocated $37.3 million in emergency funding to support Flint families.
    - The Governor also proposed a plan to dedicate an additional $30 million as part of his upcoming formal budget presentation to assist Flint residents with water bill payments.
- What will help Flint more than a presidential debate is working together to implement concrete solutions that will aid the city along its road to recovery now and into the future.
- It is important we draw on all available resources to help meet both the immediate and long-term needs of Flint residents.

STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 4, 2016
Release #: 30

State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts

New Recycling Site Open Friday from Noon to 4 p.m.

Flint, Mich. – Student athletes from Michigan State University are partnering with Schupan Recycling, Republic Services and the Michigan Community Service Commission (MCSC) to help with recycling and water distribution efforts in Flint on Friday, Feb. 5, including collection of empty water bottles and distribution of recycling bags and bins.

"We are excited to have students from MSU volunteer their time to help the residents of Flint," said Ginna Holmes, executive director of the MCSC. "The state is thankful to Schupan and Republic for stepping up to help recycle all the water bottles. We're also looking forward to engaging other volunteers in the future to assist with these recycling efforts."

Recycling collection and water distribution will take place Friday from Noon to 4 p.m. in the parking lot of the Northwest Shopping Center, 2629 West Pierson Road, Flint, MI 48504 (corner of Clio Road and W. Pierson Road).

Residents are asked to bring their empty water bottles to this location. Schupan Recycling will be collecting the bottles to process for turning into new products.

Residents also will be able to pick up a blue recycling bin from Republic Services.

Media is invited.

Thanks for the quick approval. Photos of the new SEOC would be great, but I currently don't have any. Is this something Trevor can provide today? We would want photos of people working in the SEOC, not just the room. If not for this article, we can use them in future publications, including the internal newsletter going out next week.

Thanks!

MSP Assists with Flint Water Response Efforts

The MSP is actively involved in the state's ongoing response to the health and safety issues caused by lead in the city of Flint's drinking water.

On January 5, Governor Rick Snyder declared a state of emergency for Genesee County, making available all state resources to ensure Flint residents have access to safe water. As part of this effort, Governor Snyder activated the State Emergency Operations Center (SEOC), which is overseen by the MSP Emergency Management & Homeland Security Division.

The SEOC continues to be activated and is responsible for coordinating response and recovery efforts by state, local and federal agencies. The SEOC is staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in Michigan. The state's Joint Information Center (JIC) is also operational to help coordinate public information.

In addition to working in the activated emergency facilities, members of the MSP also helped distribute water resources to Flint residents, including many department members who volunteered their time during the Martin Luther King, Jr. Day holiday weekend.

Edible Flint Works to Address Water Emergency through Urban Gardening
Urban Agriculture Organization Makes a Positive Impact in Flint Communities

FOR IMMEDIATE RELEASE
February 4, 2016
Release #: 29

Flint, Mich. – Since 2009, Edible Flint has been working with individuals and institutional partners to support Flint residents in growing and accessing healthy food in order to reconnect with the land and each other. As a part of their continuing outreach to Flint's residents, Edible Flint is gearing up to ensure a bumper crop of lead fighting vegetables and address concerns over urban gardening in Flint.

Edible Flint supports more than 300 community and individual gardens in the city through its Garden Starters program. This program provides gardening classes, technical expertise, resources and supplies. In response to the recent Flint water emergency, the organization has plans to expand their programs as they prepare for the upcoming gardening season.

Not only are they looking to support additional food gardeners through their Garden Starters program, they are currently reviewing the selection of seeds and transplants being distributed this year to ensure vegetables that fight lead exposure are included. In addition, Edible Flint, which tests approximately 50 new gardens each year, will be increasing the number soil tests (including lead screening) for Flint's food gardens. They also intend to provide hose filters for garden irrigation for program participants.

"Edible Flint is committed to supporting Flint residents by providing access to resources to grow nutritious fresh food," said Terry McLean, Michigan State University Extension (MSUE) Educator, and Edible Flint Leadership Board Member. "Through our urban gardening program we hope to provide a catalyst for recovery and community engagement."

McLean added, Edible Flint has been working with MSUE partners to reassure gardeners of the safety of eating and growing vegetables grown in Flint's community gardens.

For more information on Edible Flint, visit http://www.edibleflint.org.

Subject: SEOC Update 2/3/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/2/16 – 29th Day (28th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Continue to work on SBA application.
- Obtain additional information from the City of Flint and Genesee County for appeal.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. MDDHS Director's Sit Rep: Reference blood lead testing results.
2. Sit Rep #28

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Wednesday, February 3, 2016
- Apartment complexes will be targeted tomorrow.
- We anticipate providing a cleaner way to view the numbers at a glance starting tomorrow.
- **Work with the Chamber of Commerce and MEDC to get more businesses for the SBA declaration. Found that we only have a gross revenue loss of 24% when it needs to exceed 40%. Will follow up first thing with SBA to double check this. Chamber of Commerce was to provide the top 5 businesses with losses.**

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Completed Section 8 housing list. 10 remaining franchise customers.
- SEOC Logistics worked with DTMB to secure additional warehouse location for donated water.
- JIC partnered with the Michigan Association of Broadcasters (MAB) to record two PSAs in Spanish. The PSAs were shared with MAB member stations.
- SEOC Finance met with State Budget Office to discuss and develop collaborative cost reporting for all state agencies.
- SEOC Planning finalized Small Business Administration request for economic injury.
- *Information reported to the JIC:*
    - As of 2/2/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 2/2/16*
30,770	37,844	12,406	530

*There were issues with the app in the field on February 2, 2016. Outstanding data will be included tomorrow night.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	255,457
b. Filters	102,498
c. Filter cartridges	206,642
d. Test kits	33,243*

*Adjusted due to test kits were not assembled at POD 1 yesterday and sent back to warehouse. Those kits were included as distributed and should not have been.

3. Resources purchased:
    a. Cases of water 2,715,324 Liters (additional 1,209,675 Liters donated)
    b. Filters 266,312*
    c. Filter Cartridges 584,957*
    d. Test kits 62,701

    *Includes back data, not previously accounted for, from MDHHS purchases on January 12-16, 2016 so there is a jump in the amounts.
4. *Teams going out tomorrow:*

a. 10 American Red Cross Teams scheduled for Wednesday, February 3, 2016.

Standing Information Requirements

1. **Number of homes visited each day:**
   a. 2/2/16, as of 5 pm, 530 homes were visited today
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: 12,406
3. **Total number of National Guard on the ground:**
   a. 53
4. **Total Number of Volunteers each day:**
   a. 27 volunteers on 2/2/16, per ARC.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,277
Active residential water subscribers	26,673	22,491

6. **Number of Water filters distributed (each day and to date):**
   a. 587 (172 FWRT + 415 PODs [1700 2/1 to 1600 2/2]) were distributed since this report yesterday and total distributed to date is 102,498.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 10,524 (444 FWRT +10,080 cases or 120,960 liters PODs [1700 2/1 to 1600 2/2]) were distributed since this report yesterday and the total distributed to date is 255,457 cases or 3,065,484 Liters.
8. **Number of testing kits distributed (each day and to date):**
   a. 491 (56 FWRT +435 PODs [1700 2/1 to 1600 2/2]) were distributed since this report yesterday and the total distributed to date is 33,243.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. See attached MDHHS Sit Rep, pages 1 and 3 – this is a new format from DHHS but we are working to pull it into an easier format.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. See attached MDHHS Sit Rep, pages 1 and 3 -- this is a new format from DHHS but we are working to pull it into an easier format.
11. **Number of homes with safe drinking water:**
    a. Drinking water (Analyzed 9/3/15 to 2/2/16)
       i. 5516 out of 5906 (93%) at or below 15 ppb (390 tests above)
       ii. <5 ppb: 4853 (82%)
       iii. 5-15 ppb: 663 (11%)
       iv. > 15 ppb: 390 (7%)
       v. >30 ppb: 214 (4%)
       vi. >150 ppb: 50 (0.8%) (DEQ and DHHS are working to get a plan in place to ensure these homes are visited).

    *Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Coordinating distribution of appropriate supplies to Flint water system franchise customers outside the City of Flint.
- Coordinating with owner of new warehouse site for access to the site, and operations at the facility.

- Addressing various public concerns, including availability of supplies to residents in apartment complexes.
- Attended meeting with UM-Flint to discuss student volunteer opportunities and potential communications support.
- Attended VOAD meeting to discuss volunteer engagement, volunteer management, and distribution management.
- Coordinating replacement for Team Rubicon after their demobilization for rapid response deliveries.

Subject: SEOC Update 2/1/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/1/16 – 28th Day (27th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Finalize new Incident Action Plan (IAP) for Operational Period 2/2/16 to 2/9/16.
- Sync up with the UCG to ensure lines of communication and operation are clear.
- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Continue to work on SBA application – pends status of Declaration of Emergency appeal.
- Obtain additional information from the City of Flint and Genesee County for appeal.

Status on Governor's request letter to the President:

- *Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.*
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. IHP is an Individual Assistance program.

Attached:

1. SitRep 27
2. Flint Water Timeline (DRAFT) – This is a running record I keep so I have it for future reference. This is draft but thought some of you may want it at this time.

3. State Agency Weekly Activities – It was mentioned on the morning call to have a weekly activities sheet. I am certain there are other events to be added but this is from the SEOC personnel.
4. Day to Day POD Comparison Data – Internal for EMHSD and FEMA

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Tuesday, February 2, 2016
- Franchise Customers continue to be targeted for visits with additional to be determined.

Items to Note

- The question came up as to the difference between active residential customers and residential parcels. Customers are on the Flint water system according to what the City of Flint provides us. Residential parcels are those not on the system for numerous reasons to include them having a well or just not connected to the system. We are aware some not on the system have gotten filters. I also do not have a lot of faith in the records provided to us by the city water department. We just received an updated franchise list which had more customers.from the city that is different from the one we were given earlier.
- Received approval to obtain a former Kroger store near Statoin 6 POD. This will greatly alleviate donation management issues. Office space is available at this location if needed.
- 10 ARC Flint Water Response Teams to the field today.
- GIS was not able to develop maps with today's data due to issues with the software. They will be providing maps first thing tomorrow.
- Recovery Branch coordinated meeting with Michigan Community Service Commission (MCSC), Local EOC, and ARC regarding volunteer coordination and reporting.
- JIC is working to set up a legislative and congressional briefing call this week.
- Information reported to the JIC:
    - As of 2/1/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	ARC Paper Data* 1/31/16	Targeted Canvassing Mission 2/1/16
30,770	37,844	11,876	1,135	1,164

*Data from last night that was not available.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	244,933
b. Filters	101,911
c. Filter cartridges	205,820
d. Test kits	33,561

3. Resources purchased:
    a. Cases of water 2,637,324 Liters (additional 1,127,171 Liters donated)
    b. Filters 165,048
    c. Filter Cartridges 389,357
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 American Red Cross Teams scheduled for Tuesday, February 2, 2016.

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/31/16, ARC Data, 1,135 homes were visited yesterday. Data was not included in yesterday's report.
    b. 2/1/16, as of 5 pm, 1,164 homes were visited today
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 11,876
3. **Total number of National Guard on the ground:**
    a. 53
4. **Total Number of Volunteers each day:**
    a. 50 volunteers on 2/1/16, per ARC.
5. ***Number of homes with filters:**

	Total Number	Number with filters*
Residential parcels	38,831	28,167
Active residential water subscribers	26,673	22,400

*Number does not include franchise customers, will be updated tomorrow morning.

6. **Number of Water filters distributed (each day and to date):**
    a. 1,318 (1,001 FWRT + 317 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and total distributed to date is 101,911.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 10,443 (1,218 FWRT +9,225 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and the total distributed to date is 244,933.
8. **Number of testing kits distributed (each day and to date):**
    a. 1,091 (293 FWRT +798 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and the total distributed to date is 33,184.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
        *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

    *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**
    a. Drinking water (9/3/15 to 2/1/16)*
        i. 5227 out of 5590 (94%) at or below 15ppb (363 tests above)
        ii. <5 ppb: 4594 (82%)
        iii. 5-15 ppb: 633 (11%)
        iv. > 15 ppb: 363 (6%)
        v. > 150 ppb: 48 (0.9%) – DEQ was tasked with getting better information on this as to how many are residences, what steps have been taken with them, how many have been "cleared," and how many are new. They will be working on it first thing tomorrow. Based on sheets I was provided this evening, since the report on Friday:
            1. Saturday there were 4 additional results >150 ppb
            2. Sunday there were 5 additional results >150 ppb
            3. Monday there were 6 additional results >150 ppb
        vi. > 30 ppb: 199 (4%)

        *Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Coordination of rapid response deliveries to homebound residents and special locations.

- Finalized rapid response delivery plan with ARC, Team Rubicon, Michigan Community Service Commission and SEOC.
- IC/Genesee County EMC attended county commission meeting, briefed commission on response efforts, and addressed questions and concerns.
- Addressing public concerns, including rumors of availability of FEMA relocation assistance.
- Coordinating with charter schools outside the city of Flint/Flint water system for supply of water resources to students that are Flint residents.
- Attended conference call with Dow Chemical to discuss potential donation of filter systems. Will provide spec sheets to SEOC Logistics.

Subject: SEOC Update 1/31/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/31/16 – 27th Day (26th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Finalize SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- **10 American Red Cross Teams scheduled for Monday, February 1, 2016**
- **City Sections Scheduled Tomorrow***: Franchise Customers, Additional to be determined.

*City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.

- Information reported to the JIC:
  - As of 1/31/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

    1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/31/2016
30,770	37,844	9,577	551*

*Due to an issue with the iPads in the field not all numbers were captured for today's outreach. The additional residences will be entered tonight by ARC and will be included in the data for tomorrow, per Recovery Branch.

    2. *Distributed:*

Commodity	Total to Date
a. Number of cases of water	234,490
b. Filters	100,593
c. Filter cartridges	204,736
d. Test kits	32,093

    3. Resources purchased:
       a. *Cases of water* 2,637,324 Liters (additional 996,080 Liters donated)
       b. Filters 165,048
       c. Filter Cartridges 383,282
       d. Test kits 62,701
    4. Teams going out tomorrow:
       a. 10 American Red Cross Teams scheduled for Monday, February 1, 2016.

New Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/31/16, as of 5 pm, 551* homes were visited today
      i. *The numbers are low due to an issue with the iPad input, the additional residences will be inputted tonight and included in tomorrow numbers.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: 9,577
3. **Total number of National Guard on the ground:**
   a. 53
4. **Total Number of Volunteers each day:**
   a. 236 volunteers on 1/31/2016, per ARC.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,081
Active residential water subscribers	26,673	22,334

6. **Number of Water filters distributed (each day and to date):**
   a. 624 (299 FWRT + 325 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and total distributed to date is 100,593.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,302 (426 FWRT +6876 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 234,490.
8. **Number of testing kits distributed (each day and to date):**

a. 581 (251 FWRT +330 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 32,093.

9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
      *This data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
   a. Per CHECC: These numbers are only updated bi-weekly
      i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
      ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
      iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
      *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**
   a. 5,020 water samples out of 5,356 sampled through **January 31, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Addressing various public concerns, including concerns regarding filter efficiency.
- Establishing procedures for receiving incoming donations of loose water at overflow locations.
- Established rapid response delivery plan with ARC and Team Rubicon.
- Coordinated rapid response deliveries to homebound residents and special locations.
- Coordinated with VRC for door-to-door distribution of recycling information and supplies.
- Genesee County Board of Commissioners meeting scheduled for 02/01/2016.

Flint Water Daily Update

Updated Feb. 3

Current Issues Talking Points

Governor proposes $30M to cover Flint water bills

- The Governor announced a proposed plan to request $30 million as part of the Fiscal year 2017 budget proposal to cover Flint residents' water bills because he believes they should not pay for water that wasn't suitable for consumption.
- The proposal calls for a Consumption and Use Credit the city could use to relieve families of a portion of their water bills from April 2014-April 2016.
- Under the plan, the funding would cover water used for drinking, cooking and bathing which is approximately 65 percent of a resident's water bill.
- Residents would still be responsible for covering sewer costs as well as water not used for consumption (i.e. water heaters, outside water use, etc.).
- The Governor's proposal would allow Flint to relieve residents of their water bills or provide payment credits for future use.
- The request will be part of the Governor's official budget presentation next week on Feb. 10.
- The $30 million recommendation builds on the previous $37.3 million in emergency funding already allocated to Flint by the state.
- The recommendation must go through the formal state budget process and be approved by both the House and Senate.

Congressional Hearing

- A Congressional hearing on Flint water took place today in Washington D.C.
- Interim DEQ Director Keith Creagh and Virginia Tech Professor of Environmental and Water Resources Engineering Marc Edwards testified in the hearing of the Reform and Oversight Committee.
- To date, the Governor has not been invited to testify before Congress.
- The Governor remains focused on fixing the problem in Flint. He is committed to establishing both a short and long-term solution to ensure clean, safe drinking water for Flint families.
- He was in Flint today meeting with local community leaders and discussing the Consumption and Use Credit $30 million budget proposal with local media outlets.

Democratic Presidential Debate coming to Flint

- It was confirmed today that a Democratic Presidential debate will take place in Flint in early March.
- To date the Federal Government has provided only $5 million in funding to assist residents in Flint while the State has allocated $37.3 million in emergency funding to support Flint families.
- The Governor also proposed a plan to dedicate an additional $30 million as part of his upcoming formal budget presentation to assist Flint residents with water bill payments.
- What will help Flint more than a presidential debate is working together to implement concrete solutions that will aid the city along its road to recovery now and into the future.
- It is important we draw on all available resources to help meet both the immediate and long-term needs of Flint residents.

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at *www.mi.gov/flintwater*. ***Click here to watch the video.***

Plan Advanced by State to Monitor Skin Conditions in Flint

FOR IMMEDIATE RELEASE
February 3, 2016
Release #: 28

FLINT, Mich. – Health officials in Michigan are moving forward on the investigation of rashes possibly associated with Flint water.

The Michigan Department of Health and Human Services (MDHHS) is developing a plan to better understand rashes that are being reported by members of the public. In recent weeks, MDHHS and the United Way 211 Information Line have received some calls with questions or concerns about rashes possibly associated with Flint water. While rashes are very common in the general population and there are numerous known causes, an important public health function involves being able to identify and rapidly respond to new causes of illness as they emerge.

MDHHS has been actively monitoring trends in rash illnesses to emergency departments in Genesee County and has not seen evidence of increases compared with prior years. However, in an effort to proactively respond to reported rashes, MDHHS is developing a plan to conduct structured interviews with members of the public who report current rashes that may be related to exposure to Flint water in their homes. The Centers for Disease Control and Prevention, Agency for Toxic Substances and Disease Registry (CDC/ATSDR), and the Environmental Protection Agency (EPA) are providing technical assistance to MDHHS in this effort.

"Flint residents are understandably worried about the effects of skin exposure to water in their homes, and it's absolutely necessary we follow up directly on their concerns," said Dr. Eden Wells, chief medical executive with the MDHHS. "While the science currently tells us children and adults can bathe in the water, we are committed to identifying any potential health risks so we can provide information to and protect families in Flint."

MDHHS will begin asking health care providers to report cases of current rash possibly associated with Flint water exposure. These individuals will be contacted and interviewed by MDHHS personnel, and investigations will also involve testing home water samples of those with active rashes. This testing will be different from other routine water sampling and testing being conducted by the Michigan Department of Environmental Quality or the EPA throughout Flint as it will focus on testing for concentrations of metals and other water quality factors that may be associated with the reported rashes.

While finalizing plans and materials for this investigation, MDHHS is already actively responding to these rash reports. Last week, Flint residents who recently reported rashes were interviewed at their homes by a team

from MDHHS and water samples were collected for analysis. While it is too early in the investigation to draw any conclusions about how many people might be experiencing rashes or what might be causing them, MDHHS is responding with urgency to these reported health complaints with assistance from federal partners.

Members of the public who have concerns about rashes are encouraged to visit their primary care physician. Information reported by health care providers is an important part of creating a better understanding of the characteristics of these rashes. Individuals with questions may also call United Way 211 to be connected with health information specialists to answer their specific concerns.

For additional information related to the response in Flint, visit www.michigan.gov/flintwater.

FLINT WATER RESPONSE TEAM

UPDATE | WEDNESDAY, FEBRUARY 3, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Governor Snyder proposes $30 million for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the $30 million budget recommendation.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 244,933 cases of bottled water

- 101,911 water filters
- 205,820 replacement cartridges
- 33,561 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Michigan National Guard Continue Efforts at Water Resource Sites

FOR IMMEDIATE RELEASE
February 2, 2016
Release #: 27

FLINT, Mich. Approximately 70 Michigan National Guard Soldiers continue to assist with the distribution of bottled water, water filters, replacement cartridges and water testing kits at the water resource sites located at five of the city's fires stations.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts.

It is important to note that photo identification is not required and no resident will be denied resources.

Learn more about the Michigan National Guards efforts by viewing this video.

Flint residents can pick up water test kits, water filters, filter cartridges, and cases of bottled water. Also, residents can return filled water test kits at any one of the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle and filter cartridge recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle and filter cartridge recycling site)
3402 Western Road

Fire Station #6
716 West Pierson Road

Fire Station #8 (also a water bottle and filter cartridge recycling site)
202 East Atherton Road

All water filters distributed at the water resource sites are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by visiting www.helpforflint.com or by calling 211.

Flint Water Daily Update
Updated Feb. 2

Current Issues Talking Points

Flint Mayor calls for immediate replacement of Flint pipes

- In a press conference today, Flint Mayor Karen Weaver called for immediate replacement of Flint's water infrastructure.
- Immediately removing pipes could potentially add to the infrastructure problem and result in higher costs for the city.
- Both Senate Minority Leader Jim Ananich and Virginia Tech water treatment expert Marc Edwards advise first mapping the city's pipes to determine the location of lead infrastructure.
- Edwards also says the state is taking the correct actions to make Flint's water safe again. Adding phosphate to the water to coat the pipes is a necessary first step toward ensuring safe drinking water for Flint residents.
    - Flint's damaged pipes spark debate on fix (Detroit Free Press)
    - Prof. Marc Edwards discusses pipes in Flint (video)
- The Governor continues to work with Edwards and the Flint Water Interagency Coordinating Committee to identify and implement a successful long-term solution for Flint families.

Senate Minority Leader sends Governor Flint action letter

- The Governor's senior staff has been in close communication with state Sen. Jim Ananich and have met with him frequently to provide updates, answer questions and get feedback.
- The Governor remains committed to providing Flint residents with the resources needed to implement both short and long-term solutions and will continue to work closely with Ananich.
- The Governor will announce a long-term funding proposal in his formal budget presentation next week to further address Flint water.

DPS Emergency Manager Darnell Earley resigns

- Today, Detroit Public Schools Emergency Manager Darnell Earley resigned, effective February 29.
- The Governor will appoint a transition leader before the end of the month to help guide DPS through a plan that will help address the district's academics and finances giving students and teachers the learning environment they deserve.
- The Governor is encouraging the Legislature to pass a bill package that will help address the $515 million debt faced by DPS. With that support the district should be better able to manage its business and educational goals.

Governor continues to stress importance of home water testing

- A video with instructions on how to properly test home water is available to share: https://www.youtube.com/watch?v=QTER-DiK64o
- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.
- While water filters will eliminate lead in most homes, those with levels above 150 parts per billion will need to take extra precaution.
- If levels are above 150 ppb, residents should not drink water from the filtered faucet and use bottled water only.
- DEQ and DHHS will visit homes found to have lead levels over 150 ppb for additional testing.
- To date, less than one percent of Flint homes have been identified as having lead levels of this amount. Results showing lower levels indicate residents should continue following established protocols.
- Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Anyone who is unable to get to a Fire Station to pick up a free testing kit should call United Way 2-1-1 for assistance.

Subject: SEOC Update 2/1/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/1/16 – 28th Day (27th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Finalize new Incident Action Plan (IAP) for Operational Period 2/2/16 to 2/9/16.
- Sync up with the UCG to ensure lines of communication and operation are clear.
- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Continue to work on SBA application – pends status of Declaration of Emergency appeal.
- Obtain additional information from the City of Flint and Genesee County for appeal.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. IHP is an Individual Assistance program.

Attached:

1. SitRep 27
2. Flint Water Timeline (DRAFT) – This is a running record I keep so I have it for future reference. This is draft but thought some of you may want it at this time.
3. State Agency Weekly Activities – It was mentioned on the morning call to have a weekly activities sheet. I am certain there are other events to be added but this is from the SEOC personnel.

4. *Day to Day POD Comparison Data – Internal for EMHSD and FEMA*

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Tuesday, February 2, 2016
- Franchise Customers continue to be targeted for visits with additional to be determined.

Items to Note

- The question came up as to the difference between active residential customers and residential parcels. Customers are on the Flint water system according to what the City of Flint provides us. Residential parcels are those not on the system for numerous reasons to include them having a well or just not connected to the system. We are aware *some not on the system have gotten filters.* I also do not have a lot of faith in the records provided to us by the city water department. We just received an updated franchise list which had more customers.from the city that is different from the one we were given earlier.
- Received approval to obtain a former Kroger store near Statoin 6 POD. This will greatly alleviate donation management issues. Office space is available at this location if needed.
- *10 ARC Flint Water Response Teams to the field today.*
- GIS was not able to develop maps with today's data due to issues with the software. They will be providing maps first thing tomorrow.
- Recovery Branch coordinated meeting with Michigan Community Service Commission (MCSC), Local EOC, and ARC regarding volunteer coordination and reporting.
- *JIC is working to set up a legislative and congressional briefing call this week.*
- Information reported to the JIC:
    - As of 2/1/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	ARC Paper Data* 1/31/16	Targeted Canvassing Mission 2/1/16
30,770	37,844	11,876	1,135	1,164

*Data from last night that was not available.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	244,933
b. Filters	101,911
c. Filter cartridges	205,820
d. Test kits	33,561

3. *Resources purchased:*
    a. Cases of water 2,637,324 Liters (additional 1,127,171 Liters donated)
    b. Filters 165,048
    c. Filter Cartridges 389,357
    d. Test kits 62,701
4. *Teams going out tomorrow:*
    a. 10 American Red Cross Teams scheduled for Tuesday, February 2, 2016.

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/31/16, ARC Data, 1,135 homes were visited yesterday. Data was not included in yesterday's report.
    b. 2/1/16, as of 5 pm, 1,164 homes were visited today
2. **Total number of homes visited:**

a. Targeted Canvassing Mission: 11,876

3. **Total number of National Guard on the ground:**
   a. 53
4. **Total Number of Volunteers each day:**
   a. 50 volunteers on 2/1/16, per ARC.
5. ***Number of homes with filters:**

	Total Number	Number with filters*
Residential parcels	38,831	28,167
Active residential water subscribers	26,673	22,400

*Number does not include franchise customers, will be updated tomorrow morning.

6. **Number of Water filters distributed (each day and to date):**
   a. 1,318 (1,001 FWRT + 317 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and total distributed to date is 101,911.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 10,443 (1,218 FWRT +9,225 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and the total distributed to date is 244,933.
8. **Number of testing kits distributed (each day and to date):**
   a. 1,091 (293 FWRT +798 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and the total distributed to date is 33,184.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
      *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

       *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**
    a. Drinking water (9/3/15 to 2/1/16)*
       i. 5227 out of 5590 (94%) at or below 15ppb (363 tests above)
       ii. <5 ppb: 4594 (82%)
       iii. 5-15 ppb: 633 (11%)
       iv. > 15 ppb: 363 (6%)
       v. > 150 ppb: 48 (0.9%) – DEQ was tasked with getting better information on this as to how many are residences, what steps have been taken with them, how many have been "cleared," and how many are new. They will be working on it first thing tomorrow. Based on sheets I was provided this evening, since the report on Friday:
          1. Saturday there were 4 additional results >150 ppb
          2. Sunday there were 5 additional results >150 ppb
          3. Monday there were 6 additional results >150 ppb
       vi. > 30 ppb: 199 (4%)

       *Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Coordination of rapid response deliveries to homebound residents and special locations.
- Finalized rapid response delivery plan with ARC, Team Rubicon, Michigan Community Service Commission and SEOC.
- IC/Genesee County EMC attended county commission meeting, briefed commission on response efforts, and addressed questions and concerns.
- Addressing public concerns, including rumors of availability of FEMA relocation assistance.
- Coordinating with charter schools outside the city of Flint/Flint water system for supply of water resources to students that are Flint residents.

- Attended conference call with Dow Chemical to discuss potential donation of filter systems. Will provide spec sheets to SEOC Logistics.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/31/2016
30,770	37,844	9,577	551*

*Due to an issue with the iPads in the field not all numbers were captured for today's outreach. The additional residences will be entered tonight by ARC and will be included in the data for tomorrow, per Recovery Branch.

    2. Distributed:

Commodity	Total to Date
a. Number of cases of water	234,490
b. Filters	100,593
c. Filter cartridges	204,736
d. Test kits	32,093

3. Resources purchased:
    a. Cases of water 2,637,324 Liters (additional 996,080 Liters donated)
    b. Filters 165,048
    c. Filter Cartridges 383,282
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 American Red Cross Teams scheduled for Monday, February 1, 2016.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/31/16, as of 5 pm, 551* homes were visited today
        i. *The numbers are low due to an issue with the iPad input, the additional residences will be inputted tonight and included in tomorrow numbers.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 9,577
3. **Total number of National Guard on the ground:**
    a. 53
4. **Total Number of Volunteers each day:**
    a. 236 volunteers on 1/31/2016, per ARC.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,081
Active residential water subscribers	26,673	22,334

6. **Number of Water filters distributed (each day and to date):**
    a. 624 (299 FWRT + 325 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and total distributed to date is 100,593.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,302 (426 FWRT +6876 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 234,490.
8. **Number of testing kits distributed (each day and to date):**
    a. 581 (251 FWRT +330 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 32,093.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
        *This data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 μg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 μg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 μg/dl since 10/1/2015: 22
    *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**

a. 5,020 water samples out of 5,356 sampled through **January 31, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Addressing various public concerns, including concerns regarding filter efficiency.
- Establishing procedures for receiving incoming donations of loose water at overflow locations.
- Established rapid response delivery plan with ARC and Team Rubicon.
- Coordinated rapid response deliveries to homebound residents and special locations.
- Coordinated with VRC for door-to-door distribution of recycling information and supplies.
- Genesee County Board of Commissioners meeting scheduled for 02/01/2016.

Subject: Monday, Feb. 1 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

EPA and DEQ continue interagency cooperation discussions on Flint water

Michigan DEQ Director Keith Creagh met with the EPA as part of ongoing interagency cooperation to address the Flint water crisis. The EPA and DEQ have meet regularly since a state of emergency was declared in Flint in early January.

Click here to learn more about the interagency cooperation.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 234,490 cases of bottled water
- 100,593 water filters
- 204,736 replacement cartridges

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

FOR IMMEDIATE RELEASE
February 1, 2016
Release #: 26

FLINT, Mich. – Michigan Department of Environmental Quality Director Keith Creagh met today with Interim Regional Administrator Robert Kaplan from the U.S. Environmental Protection Agency as part of ongoing interagency cooperation to address the Flint water crisis. The EPA and DEQ have met regularly since a state of emergency was declared in Flint in early January.

"These conversations with the EPA are a critical part of our shared response to the emergency in Flint," said Creagh. "We know that moving forward will require all levels of government – along with partners in the business and nonprofit communities and the community of Flint – to work together with the sense of urgency this crisis demands."

Creagh and the EPA regional administrator have weekly phone calls. In addition, program staff from the DEQ and EPA remain in daily contact to coordinate response. At today's meeting, Creagh and Kaplan along with technical staff from both agencies discussed working together to maximize the data that is being collected to make sure the agencies are closely aligned in their work.

The DEQ is also working in conjunction with the EPA to plan and review the 200 sentinel test sites, enabling both entities to capture the information needed across the entire spectrum of data so we have a better overall analysis of the distribution system.

"We want to have systems and structures in place that will lead us to better conclusions for the people of Flint," Creagh said. "We appreciate the partnership with EPA and other government and non-government agencies."

The discussion included a five-part strategy the DEQ implemented to establish a baseline of data to determine when the water in Flint is safe to drink.

The strategy includes:

- Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

- School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.
- Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.
- Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.
- Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection. Sentinel sites are homes that will be used as representative samples to determine the effectiveness of corrosion controls in reducing lead levels.

"Our ongoing conversations with the EPA will help us solidify this plan so we can have confidence in the outcomes," Creagh said.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater. Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

Flint Water Daily Update
Updated Feb. 1

Current Issues Talking Points

Governor and DEQ stress importance of home water testing

- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.
- While water filters will eliminate lead in most homes, those with levels above 150 parts per billion will need to take extra precaution.
- If levels are above 150 ppb, residents should not drink water from the filtered faucet and use bottled water only.
- DEQ and DHHS will visit homes found to have lead levels over 150 ppb for additional testing.
- To date, less than one percent of Flint homes have been identified as having lead levels of this amount. Results showing lower levels indicate residents should continue following established protocols.
- Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Anyone who is unable to get to a Fire Station to pick up a free testing kit should call United Way 2-1-1 for assistance.

Federal denial of WIC expansion for Flint children

- On Saturday, the federal government denied the Governor's request to use supplemental nutrition funding for Flint children up to 10 years of age who may have been exposed to high lead levels in the water.
- The governor has continually stated that the Flint water issue is the result of government failure at all levels. All levels of government should be committed to supporting Flint's families along their road to recovery.

- It is understood that WIC funding is generally meant for children five years old and younger, however this disaster calls for a waiver of this rule. Expanded nutritional support for children under 10 is essential to their long-term well-being.
- The Governor is urging the federal government to re-evaluate their denial of this funding.
- The state has provided more than $28 million for a short-term solution in Flint, but additional funding and collaboration is necessary to implement a successful long-term solution.

State outlines initiatives to determine safe drinking levels and to provide long-term assistance to Flint children

FOR IMMEDIATE RELEASE
January 31, 2016
Release: #25

Flint, Mich. – Strategies to determine when Flint's water is safe to drink and to ensure that the city's children have access to comprehensive health care are key to the state's long-term solutions in the Flint water crisis.

Short-term, Gov. Rick Snyder is urging every Flint resident to get a water test kit.

"Almost 5,000 homes submitted water tests, but we want to encourage everyone to submit a water test. Please pick up a free water test kit at one of the Flint fire stations and return the sample to the same location," Snyder said. "We want to ensure that all homes are getting the proper immediate attention and the home water tests will help in that process. If you need assistance, please call United Way 2-1-1 for help."

In addition to the federal emergency declaration, which was granted on Jan. 16, Snyder has requested more federal help for Flint: "While the USDA denied my request to expand WIC nutrition support for Flint children ages 5-10, I'm asking that agency to reconsider. I'm also encouraging the federal government to grant my requests to extend Medicaid eligibility to all Flint residents ages 21 and under, provide long-term health care services for children and help with lead abatement."

On Friday, Snyder signed legislation that will allocate $28 million for more water resources and expanded health care initiatives, including more school nurses, diagnostic tests and community education through the Genesee County Health Department. He also plans to include additional long-term aid for Flint in his FY 2017 budget proposal to be unveiled early this month.

Here's what key Michigan departments are doing to help with the Flint water emergency:

Michigan Department of Environmental Quality

The Michigan Department of Environmental Quality (DEQ) has embarked on a five-part strategy to establish a baseline of data to determine when the water is safe to drink.

The strategy includes:

•Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

To date, of 4,924 total residential water samples, tests show that 93.7 percent of homes are below the actionable level of *15 parts per billion (ppb) for lead:*

4,616 samples at 15 ppb or less for lead (93.7%);
4,179 samples at 5 ppb or less for lead (84.9%);
308 samples over 15 ppb for lead (6.3%);
37 samples over 150 ppb for lead (0.75%); and
26 samples over 1,300 ppb for copper (0.5%).

Water samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. To process these samples as efficiently as possible, the Michigan Department DEQ lab is

operating seven days per week and is capable of processing 1,000 tests per day. Residents can access these reports online at www.mi.gov/FlintWater. Results are mailed to each residence tested.

•School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.

•Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.

•Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

•Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection.

Michigan DEQ is working with the EPA on trend analysis and data sets that will be reviewed by the Flint Water Interagency Coordinating Committee, which includes water quality experts to help local, state and federal officials provide a consensus conclusion on water quality and safety.

Michigan Department of Health and Human Services

In response to the elevated blood lead levels found in some Flint children, the MDHHS has worked closely with partners at the state and local level to reach and educate families and providers about what they can do to help protect the health of Flint residents.

These actions include funding to Genesee County Health Department for nurses to work with families when an elevated blood lead level has been detected. During follow-up visits, nurses coordinate with environmental health investigators to meet with families in their homes to identify lead exposures, answer questions and provide water filters.

As part of the effort to test Flint residents, the following data includes all children and adults tested since Oct. 1, 2015:

•67 of 3,351 Flint residents tested showed an elevated blood lead level;
•38 of 1,505 children under the age of 6 showed an elevated blood lead level;
•Seven of 963 children between 6 and 17 years of age showed an elevated blood lead level; and
•22 of 883 adults over the age of 18 showed an elevated blood lead level.

Because lead stays in the blood for only a few weeks after exposure, these numbers do not provide a comprehensive picture of how many people may have been exposed. MDHHS continues to focus on ensuring that all children in Flint have access to additional behavioral, educational, nutritional and healthcare supports, as well as encouraging every resident to get tested for elevated blood lead levels.

Emergency Management Response

Today, water response teams comprised of city, county and state personnel, American Red Cross and volunteers continued door-to-door delivery efforts. These teams are canvassing neighborhoods providing free bottled water, filters, water replacement cartridges and water testing kits to City of Flint water system consumers not yet identified as having a water filter. These door-to-door efforts also include the 266 homes outside of the city limits on the municipal water system.

Additionally, homebound residents who need supplies should call United Way 2-1-1 or 810-257-3600. The United Way 2-1-1 is collecting a list of individuals needing home delivery and is providing that information to the Genesee County Sheriff's Department.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

•234,490 cases of water
•100,593 water filters
•32,093 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater.

Due to an overwhelming response from individuals who want to donate, please direct inquiries to FlintDonations@michigan.gov or 517-420-4162. You can also donate online at www.helpforflint.com.

Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/02/2016 08:00:00
Operational Period End:	02/09/2016 08:00:00
Situation Report No.	32
SEOC Status:	Full
SEOC Hours of Operation Begin:	*02/06/2016 08:00:00*
SEOC Hours of Operation End:	02/06/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 6, 2016):

The SEOC continues to provide:
- *Situational awareness.*
- Common operating picture/objectives.
- Coordination with city/county.
- *Potential coordination with federal agencies.*
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Followed up on request for equipment/supplies from ALANaid for new warehouse.
- Reviewed and modified Adventist Community Service Agreement.
- Working to secure space in Kroger for SBA office, additional information needed from SBA.
- Working on getting the supplies and equipment needed to make the second warehouse functional.
- Clarified roles at both warehouses.
- Worked with DOC to coordinate staffing for warehouse #2 to determine needed meals.

JIC:
- Monitored media and social media for inaccuracies.
- *Posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.*
- Posted the 211 video on the MSP Facebook accounts and EMHSD twitter account.
- The number of filters and cases of bottled water distributed to date will be shared via social media tomorrow morning.

Recovery Branch:
- Attended Local Brief, SEOC State Agency Briefing Meetings, and Distribution Process Meetings.
- *Completed plan for ARC to visit zero contact list.*
- Worked with GIS to obtain a follow-up visits list for ARC teams to visit homes with few visits by our teams, focusing especially on those without a filter.
- Team Priority Visited Today: *Zero contacts from previous sweeps list.*
- Team Priority Scheduled Tomorrow: Zero contacts from previous sweeps list; follow-up visits list.
- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- Data is for 2/6/16 as of 5:00 pm:

o Total homes visited:
- 16,561 (round 3 total).
- 1,034 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 115,908 liters or 9,659 cases (round 3 total).
- 4,368 liters or 364 cases (today).

o Replacement cartridges:
- 3,332 (round 3 total).
- 265 (today).

o Faucet filters:
- 7,093 (round 3 total).
- 81 (today).

Planning Section:
- Published Sit Rep # 32.
- Updated water projections to included long term donated water.
- Developed procedures for each planning section position.
- Participated in daily meetings, local EOC, state agency briefing, and distribution process meeting.

Operations Section:
o Facilitated daily local EOC and SEOC state agency briefings.
o Responded to requests from the Governor's office for information or service and assisted State agencies in fulfilling those tasks.
o 225 total volunteers (23 ARC and 202 event based) were active on the FWRTs today.

o Warehouse Numbers as of 1800:
❑ Water (liters):
• 647,462 liters or 53,955 cases.
❑ Filters (faucet):
• 50,096.
❑ *Replacement cartridges:*
• 379,562.
❑ Test Kits (prepped):
• *29,070.*
o PODs (1700 2/5 – 1600 2/6):
❑ Water (cases):
• 83,268 liters or 6,939 cases.
❑ Filters (faucet):
• 121.
❑ Replacement Cartridges:
• 388.
❑ Test kits:
• 256.

Finance Section:
• Updated spending plan with actual costs.
• Updated financial contact list *for all agencies.*
• Created PCA for Flint Water Inter-Agency Coordination Committee.
• Reviewed activity code usage for payroll tracking.

GIS Branch Updates:
• Geocoded and cleansed addresses for food establishments in the Flint Metro Area.
• Digitized water service lines coded by pressure from paper map onto digital map.
• Provided standard daily maps and reports.
• Faith Based Facilities Map.
• Water Test Kit Map Update.

DTMB:
• Continue to provide DTMB management with daily updates and resource requests received.
• Looking to secure office space for SBA Disaster Loan Outreach Center *within the City of Flint.*
• Provided DNR calendar access for incident management team and VPN access for two employees.
• Confirmed DTMB trucks/drivers to assist in supply delivery at the Clio Road warehouse and Eastern Michigan Food Bank for the next two weeks.

DHHS-CH:
• A *team from the CDC arrived* yesterday to work with MDHHS Bureau of Epidemiology.
• Contacted MDARD EMC to follow-up on an inquiry that the CHECC received from CDC personnel in the UCG, regarding pets and animals in Flint. MDARD was able to connect with CDC staff in Flint to discuss and collaborate on efforts.
• Inquired with the CHECC regarding GCHD participating in home visits for residences for which test results were greater than 150 PPB. DEQ provided SEOC with a list of the homes visited and it appeared that only home that was listed included a visit by GCHD staff.

DEQ:
• One team comprised of DEQ and DHHS staff continued with contacting residents and providing services. The team contacted 13 residents on February 4, 2016. All those agreed to participate in sentinel sampling and further assessments.
• Access to the Flint Water website was gained to provide for the ability of department staff to upload EPA reports.
• Finalized sentinel sampling plan to commence activities beginning *February 10th, 2016.*
• Continued to establish and clarify protocol for sampling teams and developed mobile data collection software application ("Collector").

State Voluntary Agency Liaison (VAL):
• Working on the Category B and Individuals and Households appeal.

Unified Coordination Group (UCG):
• Attended 3 matrix review meetings, taskforce leads give status updates on the original requests/asks sent from the State to Federal government.
• UCG POC will update the objectives with current status once completed by the information cell.
• EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
• Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
• Multiple Hispanic events are taking place in the community and will be attended by federal staff.
• CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC:
• Completed DEQ outreach at homes with water lead levels above 150 ppb.
• Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
• Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
• Potentially following up on initial outreach at homes with *water lead levels of 100 to 149 ppb. 10 strike teams for evaluation of pluming* system, water sampling, etc. starting Wednesday.
• Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
• *Awaiting clarification regarding effectiveness of filter systems for removal of copper.*

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

11. *Ensure accurate tracking and accounting of all donations.*
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.

8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) operated from the SEOC on Saturday Feb 6 from 8 a.m. to 5 p.m.

Tasks accomplished:

- Monitored media and social media for inaccuracies.
- Posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- Posted the 211 video on the MSP Facebook accounts and EMHSD twitter account.
- The number of filters and cases of bottled water distributed to date will be shared via social media tomorrow morning.

Agriculture and Rural Development (MDARD)

MDARD issues for Sat. Feb 6
Someone from CDC provide a Q & A document related to lead and pets; MDARD staff will review and then coordinate with the JIC.
We received an inquiry from the Genesee County Emergency Management Manager that contained misinformation about the coordination and response to possible lead exposure in pets and we provided correct information.
MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
Director Clover Adams visited the SEOC today.
MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.

American Red Cross (ARC)

The American Red Cross deployed 10 Water Response Teams on Saturday, 2/6/16, to attempt contact at those residences where no one had yet answered the door. Additionally, teams of event-based volunteers were sent out to deliver water door-to-door.

The Volunteer Reception Center (VRC) was in operation today, from 9am to 5pm. The VRC will operate on the same schedule tomorrow.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Reviewed media coverage of Michigan Civil Rights Commission press release on forthcoming public hearings; forwarded to staff past media coverage concerning Genesee County Incinerator.

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.

A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.

Contacted with MDARD EMC to follow-up on an inquiry that the CHECC received from CDC personnel in the UCG, regarding pets and animals in Flint. MDARD was able to connect with CDC staff in Flint to discuss and collaborate on efforts.

Inquired with the CHECC regarding GCHD participating in home visits for residences for which test results were greater than 150 PPB. DEQ provided SEOC with a list of the homes visited and it appeared that only home that was listed included a visit by GCHD staff. The CHECC will be contacting the GCHD on Sunday to verify with the local Environmental Health POC, who is off today.

Received responses from MDHHS Epidemiology pertaining to the Tele-town Hall questions that the SEOC Operations Chief had requested answers to from a health perspective.

Corrections (MDOC)

MDOC continued operations at both warehouses and all PODs were well supplied during the entire operational period.

MDOC continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

223 water samples were collected and delivered to the DEQ Lab in Lansing. 223 Residential and zero MI Department of Agriculture and Rural Development (MDARD) (as they don't take weekend samples).

MDOC had 19 employees and two SAI work crews (10 trainees total) on the ground in Flint today.

In an effort to reduce overtime costs we are working on completing a critical staff review. All dedicated resources will be reviewed to determine if it is feasible to reduce staffing in lieu of volunteers wherever possible.

We are working with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week.

Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

Education (MDE)

1. Donations Management Group asked MDE for information regarding which schools in Flint have drinkable water and which schools do not. This request was in response to schools turning down bottled water. Donations management wants verification of what schools need water. MDE is following-up with impacted schools. MDE will update the Donations Management Group when further information is received.
2. MDE participated in a conference call, Friday (15:00) being coordinated by MDARD and related to school testing
3. As a result of conference call, MDE tasked with providing LARA a listing of all educational programs (Non Public) that are within impacted zip codes that are not registered with MDE as a school/entity (Non Publics are not required to register with MDE).
4. MDE is working to provide a spreadsheet to DHHS with the names and addresses of all Flint kids enrolled in Early Head Start/Head Start under age 6. The information will be compared to the list of children who have had lead testing.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Participation in Unified Coordination Group

Developed detail task list for SEOC DEQ desk

223 samples received at the laboratory

Human Services (MDHS)

Looking into filtration system for a child care institute, possibly through donation.

Passing on resource request for staff to assist with donation management mission.

Licensing and Regulatory Affairs (LARA)

Participated in daily briefings and updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

LARA completed mapping in the dormitory, (Michigan School for the Deaf) and completed a materials list for the main school building.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 0612002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: 1LT Roland, John G. Cell: (517) 582-4816 Email: john.g.roland2.mil@mail.mil

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 65 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 65 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Traffic signs are in place at all stations. Flint City Engineering with the aid of National Guard Soldiers, have placed signs in accordance with city code.

b. POD 5 has received additional generator lighting from MDOT. All PODs now have sufficient lighting.

c. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, will be seeking approval from CPT Bowles and Dana and/or Kim at the purchasing office for laminating.

d. Last 24hrs operation.

1.) MSU Athletics showed up to the PODs unannounced in order to promote recycling. The original plan was to have the athletes

promote recycling from the Warehouse 2 location. All efforts went without any incidents, even with the lack of planning and coordinating.

8. PERSONNEL: 65 Soldiers are currently assigned to the POD operations. 58 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: No Force Protection intelligence at this time.

10. LOGISTICS: In support of TF Flint

a. In support of recycle project sponsored by Schupon, the special purpose recycle bags have not been distributed to POD operations.

1.) Logistics is expecting the recycle bags to be on the PODs for distribution within the next 48hrs. In addition the instruction cards will be attached to the recycle bags.

b. Hotel issues have been resolved.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• OUT (last 24 hours)
Bottled water-4507 Water (Gallons)-40 Lead Testing Kits-214
Pitcher (23 cup)-0 Brita Faucet Filter-206 Brita Replacement Cartridge-303
Pur Filter-62 Pur Replacement Filter-280

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

11:38 a.m. MSP Operations received NRC Report# 1139847 reporting a spill into the Flint River that occurred July 1, 2015. This information was forwarded the EMHSD Duty Officer Tonya Nobach and EMHSD 3rd District Coordinator Lt. B.J. Roach.
****Mardella Horhn - SEOC OPS Public Safety MSP - HorhnM@michigan.gov at 12:20:29 on 2/5/2016****

11:17 a.m. - Brent Travelbee from DOC called Operations to request a trooper to respond to the Clio Road Warehouse to take an accident report for one of his drivers. Genesee County Dispatch was contacted at 11:28 to dispatch a trooper for the report.
****Mardella Horhn - SEOC OPS Public Safety MSP - HorhnM@michigan.gov at 12:15:54 on 2/5/2016****

Request received from SEOCLGC to find out Customs procedure for Canadian carrier company interested in arranging efforts to have truckloads of water brought across the border. These shipments require an importer of record and must be entered through US Customs and FDA. Spoke with officer at CBP and sent an email that will be forwarded through their chain of command. Will contact us with an answer.
****Valencia Jones - SEOC OPS Public Safety MSP - jonesv4@michigan.gov at 17:54:28 on 2/5/2016***

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

Looking to secure office space for SBA Disaster Loan Outreach Center within the City of Flint.
Provided laptop, iPhone and MIFI for use at the Pierson Rd. Warehouse.
Provided access for multiple employees to DTMB-managed buildings.
Coordinating armed security for the second warehouse from 7p to 7a, 7 days a week.
Procured additional supplies for the Pierson Rd. Warehouse.
Assisting in rental of (2) electric pallet jacks for Pierson Rd. Warehouse.

Transportation (MDOT)

Providing 2 portable light tower generators to Fire Station #5 on Western Rd.

Facilitated with the City of Flint Public Works to deploy signs and barricades at Fire Station #1, #5, and #8 to assist with traffic flow through parking lots.

Providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 (3' x 5') standard signs fabricated and set up to replace 4 portable changeable message boards (2 each site)
-100 grabber traffic cones (narrow reflective cones) (50 each site).

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Flint Water Daily Update
Updated Feb. 4

Current Issues Talking Points

State Senate takes up and approves Governor's $30 million proposal to assist Flint with water bill payments.

- No family or resident should be required to pay for water that is or was unfit for consumption.
- Yesterday, the Governor announced a plan to request $30 million to assist the city of Flint with water bill payments. The funding would come in the form of a supplemental from the Fiscal Year 2016 budget.
- The proposal calls for a Consumption and Use Credit the city could use to relieve families of a portion of their water bills from April 2014 through April 2016.
    - A typical Flint resident's billing statement includes charges for water and sewer.
    - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
    - Residents would still be responsible for the remaining balance of the water portion of a bill accounting for water used in ways that do not qualify as consumption.
    - *Residents would be responsible for covering all sewer costs.*
- The official request was to be part of the Governor's formal budget presentation next week on Feb. 10, the Senate took up the proposal and passed it unanimously today.
- If approved in the House, total supplemental emergency funding for Flint will total $67.3 million this fiscal year.

Legionnaires Disease

- As the Governor has said repeatedly, he was not briefed on this issue until January 2016. He took action promptly and released the information publicly.
- When Harvey Hollins received the March email, he requested the DEQ look into the concerns, check with its experts, and get the facts. If the concerns were determined to be credible, the director was to bring the issue to the attention of the Governor.
- The issue was not brought to the Governor's attention until January of this year.
- Gov. Snyder has made changes at the department to address these concerns and change the culture to best protect the well-being of Michiganders.

Republican and Democratic Presidential Debates coming to Flint

- It was confirmed today that both a Republican (Detroit) and Democratic (Flint) Presidential debate will take place in Michigan in early March.
- To date the Federal Government has provided only $5 million in funding to assist residents in Flint while the State has allocated $37.3 million in emergency funding to support Flint families.
    - *The Governor also proposed a plan to dedicate an additional $30 million as part of his* upcoming formal budget presentation to assist Flint residents with water bill payments.
- What will help Flint more than a presidential debate is working together to implement concrete solutions that will aid the city along its road to recovery now and into the future.
- *It is important we draw on all available resources to help meet both the immediate and long-term needs of Flint residents.*

Flint Water Daily Update
Updated Feb. 5

Current Issues Talking Points

U.S. Small Business Administration disaster declaration request approved

- Coordination across all levels is necessary to assist Flint along its road to recovery. This disaster has impacted many families both at home and through their businesses.
- In an effort to secure all available resources to ensure the safety and well-being of Flint residents, the Governor requested a disaster declaration from the Small Business Administration yesterday, Feb. 4.
- The disaster declaration request was granted today, allowing Flint businesses, small agriculture cooperatives, and most private, nonprofit organizations who may have been affected by lead-impacted water to qualify for financial assistance in the form of federal Economic Injury Disaster loans.
- The SBA tailors loan repayment to each individual borrower's financial ability. Business owners seeking these loans must apply by Nov. 7, 2016.
- The approval will help support comprehensive recovery efforts in the city from health and infrastructure to economic development.

Former head of DEQ water quality unit removed

- The Governor remains committed to building a DEQ culture of trust and responsibility with residents well-being as a top priority.
- After a departmental review of circumstances and actions leading up to the Flint water crisis, the former head of the MDEQ Drinking Water and Municipal Assistance unit was officially terminated today.
- The former supervisor was dismissed following a disciplinary conference regarding performance.

Governor invited to testify at Congressional Hearing

- The Governor received an invitation to testify at the Democratic Steering and Policy Committee hearing in Washington D.C. next week.
- At this point in time, the Executive Office is reviewing the request.

Task Force Coordination/Communication Concerns

- Gov. Snyder has promised full cooperation with the Flint Water Task Force and any other authority investigating the Flint water crisis.
- The situation Dr. Reynolds described at the FWIACC meeting today is exactly the frustration the Governor has spoken about regarding the culture in some state departments that was a problem and needed to be changed.
- The Governor is actively taking steps to rectify the situation, and ensure that authorities get the information they need when they need it.
- We are glad that Dr. Reynolds raised the issue directly with us today. We will not tolerate any departments withholding information from the task force.

State Agency Weekly Activities
Events for the Week of February 1, 2016

Monday, February 1, 2016:

- Recovery Branch: Met with Volunteer Reception Center and Donations Management Program.
- EMHSD Liaison: Unified Coordination Group Planning Meetings at 1100 and 1400.
- MDHHS: Attended the Board of Commissioners meeting in Flint.
- MDHHS: Participated in Mission Flint meeting.
- MDHHS: Participated in MARC meeting with federal partners.
- MDEQ: Met with EPA to discuss sampling protocols on Monday.
- Local EOC: Genesee County Board of Commissioners Meeting. Briefed commissioners, addressed questions and concerns.
- Local EOC: Dow Chemical Meeting; discussed potential donation of filter systems.
- Local EOC: Rapid Response Delivery Plan Meeting; finalized plan with ARC, Team Rubicon, and MCSC.
- Local EOC: Plumbers and Pipefitters Union Meeting; discussed filter installation and faucet replacement program.
- Local EOC: Congresswoman Brenda Lawrence brief; EOC tour and briefed on response efforts

Tuesday, February 2, 2016:

- SEOC Volunteer Agency Liaison: Flint Water Operations Plan "Task Force" at 0930 hours.
- SEOC Finance – Meeting with State Budget Office at 1100 hours to discuss collection and reporting of all state agency costs related to the emergency.
- EMHSD Liaison- Meeting with U of M Flint Communications Director at 1430 hours.
- SEOC State Director: Congressional/Legislative Briefing at 1530 hours.
- Local EOC: VOAD meeting to discuss volunteer engagement at 0930 hours.
- MDCR: Community Relations Division Arab American Liaison Charles Schoder will attend a convening by the Genesee Health System to discuss Flint water issues.
- MDHHS- Community Resilience Group Meeting to discuss disaster behavior health with Genesee Health System and SAMHSA, time and location TBD.

Wednesday, February 3, 2016:

- MDEQ: Director giving Congressional Testimony in Washington, D.C.
- EMHSD Liaison: Unified Coordination Group Planning meetings at 1100 and 1400.
- MDHHS: Chief Medical Executive, Dr. Wells, will begin her series of weekly webinars for health professionals in Genesee County at 1200.
- MDCR: The Hispanic/Latino Commission of Michigan will host its business meeting from 12:30-14:45 hours at the Hispanic Center of Western Michigan, in Grand Rapids.
    - LARA Director Zimmer will attend the meeting and discuss possible ways they can be of assistance (Note: This is due to EO2016-3 transferring the three ethnic commissions from MDCR to LARA).

Thursday, February 4, 2016:

- SEOC Volunteer Agency Liaison: Community Partners, facilitated by American Red Cross, 1500 location TBD.
- MDHHS: CDC Crisis Emergency Risk Communication (CERC) Distance Learning Training for Genesee County Health Department staff and volunteers, location and time TBD.

- MDEQ: Follow up meeting with EPA regarding sampling protocols, location and time TBD.
- Local EOC: Community Recycling Coalition Meeting to discuss implementation of recycling plan, short-term and long-term recycling strategy, 1100 hours at Genesee County Administration Building.

Friday, February 5, 2016:

- MDARD (Tentative Event): Possible media event with the Genesee County Chamber at a restaurant highlighting the steps they are taking to protect their customers and that "Flint is open for business." Governor's Communications Director is aware and has the rough draft agenda/talking points.
- EMHSD Liaison- Unified Coordination Group Planning meetings at 1100 and 1400.
- MDEQ: Weekly meeting with City officials, location and time TBD.
- EMHSD: Capt. Kelenske at FWICC and Mission Flint meeting in Flint.

Flint Water Daily Update
Updated Feb. 1

Current Issues Talking Points

Governor and DEQ stress importance of home water testing

- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.
- While water filters will eliminate lead in most homes, those with levels above 150 parts per billion will need to take extra precaution.
- If levels are above 150 ppb, residents should not drink water from the filtered faucet and use bottled water only.
- DEQ and DHHS will visit homes found to have lead levels over 150 ppb for additional testing.
- To date, less than one percent of Flint homes have been identified as having lead levels of this amount. Results showing lower levels indicate residents should continue following established protocols.
- Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Anyone who is unable to get to a Fire Station to pick up a free testing kit should call United Way 2-1-1 for assistance.

Federal denial of WIC expansion for Flint children

- On Saturday, the federal government denied the Governor's request to use supplemental nutrition funding for Flint children up to 10 years of age who may have been exposed to high lead levels in the water.
- The governor has continually stated that the Flint water issue is the result of government failure at all levels. All levels of government should be committed to supporting Flint's families along their road to recovery.
- It is understood that WIC funding is generally meant for children five years old and younger, however this disaster calls for a waiver of this rule. Expanded nutritional support for children under 10 is essential to their long-term well-being.
- The Governor is urging the federal government to re-evaluate their denial of this funding.
- The state has provided more than $28 million for a short-term solution in Flint, but additional funding and collaboration is necessary to implement a successful long-term solution.

FEMA

FEMA 3375 EM – Contaminated Water in Flint, Michigan

Joint State-Federal Operational Update #4 for Congressional/Legislative Staff

The MSP EMHSD and FEMA invite you to call into a joint operational update briefing for Congressional and State Legislative staff. Representatives from relevant agencies will be on the line to provide information and answer any questions that you may have.

Date: February 2, 2016

Time: 2:30 pm EST

Dial in: **1-800-320-4330**, pin **732829#**

Please share this information with any other staff that may be interested.

Questions may be sent in advance to:

Dan Shulman
External Affairs Specialist
DHS-FEMA
Dan.shulman@fema.dhs.gov
312-206-8480

Flint Water Daily Update
Updated Feb. 2

Current Issues Talking Points

Flint Mayor calls for immediate replacement of Flint pipes

- In a press conference today, Flint Mayor Karen Weaver called for immediate replacement of Flint's water infrastructure.
- Immediately removing pipes could potentially add to the infrastructure problem and result in higher costs for the city.
- Both Senate Minority Leader Jim Ananich and Virginia Tech water treatment expert Marc Edwards advise first mapping the city's pipes to determine the location of lead infrastructure.
- Edwards also says the state is taking the correct actions to make Flint's water safe again. Adding phosphate to the water to coat the pipes is a necessary first step toward ensuring safe drinking water for Flint residents.
    - Flint's damaged pipes spark debate on fix (Detroit Free Press)
    - Prof. Marc Edwards discusses pipes in Flint (video)
- The Governor continues to work with Edwards and the Flint Water Interagency Coordinating Committee to identify and implement a successful long-term solution for Flint families.

Senate Minority Leader sends Governor Flint action letter

- The Governor's senior staff has been in close communication with state Sen. Jim Ananich and have met with him frequently to provide updates, answer questions and get feedback.
- The Governor remains committed to providing Flint residents with the resources needed to implement both short and long-term solutions and will continue to work closely with Ananich.
- The Governor will announce a long-term funding proposal in his formal budget presentation next week to further address Flint water.

DPS Emergency Manager Darnell Earley resigns

- Today, Detroit Public Schools Emergency Manager Darnell Earley resigned, effective February 29.
- The Governor will appoint a transition leader before the end of the month to help guide DPS through a plan that will help address the district's academics and finances giving students and teachers the learning environment they deserve.
- The Governor is encouraging the Legislature to pass a bill package that will help address the $515 million debt faced by DPS. With that support the district should be better able to manage its business and educational goals.

Governor continues to stress importance of home water testing

- A video with instructions on how to properly test home water is available to share: https://www.youtube.com/watch?v=QTER-DiK64o
- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.
- While water filters will eliminate lead in most homes, those with levels above 150 parts per billion will need to take extra precaution.
- If levels are above 150 ppb, residents should not drink water from the filtered faucet and use bottled water only.

- DEQ and DHHS will visit homes found to have lead levels over 150 ppb for additional testing.
- To date, less than one percent of Flint homes have been identified as having lead levels of this amount. Results showing lower levels indicate residents should continue following established protocols.
- Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Anyone who is unable to get to a Fire Station to pick up a free testing kit should call United Way 2-1-1 for assistance.

State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts

New Recycling Site Open Friday from Noon to 4 p.m.

Flint, Mich. – Student athletes from Michigan State University are partnering with Schupan Recycling, Republic Services and the Michigan Community Service Commission (MCSC) to help with recycling and water distribution efforts in Flint on Friday, Feb. 5, including collection of empty water bottles and distribution of recycling bags and bins.

"We are excited to have students from MSU volunteer their time to help the residents of Flint," said Ginna Holmes, executive director of the MCSC. "The state is thankful to Schupan and Republic for stepping up to help recycle all the water bottles. We're also looking forward to engaging other volunteers in the future to assist with these recycling efforts."

Recycling collection and water distribution will take place Friday from Noon to 4 p.m. in the parking lot of the Northwest Shopping Center, 2629 West Pierson Road, Flint, MI 48504 (corner of Clio Road and W. Pierson Road).

Residents are asked to bring their empty water bottles to this location. Schupan Recycling will be collecting the bottles to process for turning into new products.

Residents also will be able to pick up a blue recycling bin from Republic Services.

Media is invited.

State Encourages Food Establishments to take Advantage of Free Water Safety Inspections

Local and State Leaders Showcase Water Assessments Done at Flint Food Establishments

Flint, Mich. – In an effort to support Flint food-based businesses, Lt. Gov. Brian Calley, along with local and state food regulators and business development officials, provided a behind-the-scenes look at how the Michigan Department of Agriculture and Rural Development (MDARD) and Genesee County Health Department are working with local food establishments to conduct water assessments and ensure food safety precautions are in place.

"Flint has hundreds of restaurants, retail food markets and food processors committed to serving its residents safely," Calley said. "These establishments can now receive free assessments from MDARD and the Genesee County Health Department to ensure food safety precautions are in place."

"In response to this emergency and the need to assess lead levels in water being used at Flint food establishments, MDARD has mobilized 14 food inspectors, working full-time to conduct risk-based compliance assessments and verify adherence to current water source requirements," said MDARD Director Jamie Clover Adams. "MDARD inspectors are assisting the Genesee County Health Department in conducting the sampling and inspections, allowing the health department to focus its efforts on checking other priority facilities in its jurisdiction, including childcare facilities."

Food establishments must take extra precautions to protect food safety during the Flint water emergency. These precautions include having the water tested by an accredited laboratory to prove it is safe to use; installing approved water filters, as needed; flushing unfiltered faucets and hard-plumbed equipment on a daily basis; or using commercially bottled water for all cooking, cleaning/washing and drinking.

"Flint's restaurants and other food establishments are demonstrating they are taking the necessary precautions to reduce potential food safety risks associated with Flint water," said Mark Valacak, Health Officer, Genesee County Health Department. "Safe food preparation and handling is the cornerstone of any food business's success, and we are

MORE

dedicated to working cooperatively with MDARD and the food service establishments we regulate to ensure the safety of our food supply."

The State of Michigan is covering the cost of water sample testing for food establishments on the City of Flint water supply.

"The restaurants, bars, cafes and other food businesses, like the Flint Farmers' Market, in Flint are the backbone of the city's culture and economic success, and help define who we are as a community," said George Wilkinson, Group Vice President, Flint & Genesee Chamber of Commerce. "Whether a relative new-comer or a well-established dining institution, we need to do whatever we can to support Flint food businesses and ensure their success."

Flint has a total of 633 licensed food businesses, including restaurants, food processors and retail grocery stores. Assessments have been prioritized according to risk, with those in known high-lead areas taking first priority, and by request from food establishments. Food businesses who have not yet had an assessment or free water sample testing can call MDARD's Call Center at 800-292-3939 to schedule an appointment.

As of Feb. 4, MDARD has completed approximately 225 initial assessments of food businesses and has begun doing follow-up assessments. If the businesses are taking the required precautions, they are determined to be in compliance with state and federal food regulations. A list of food businesses determined to be in compliance with current water use regulations is available at www.michigan.gov/flintwater. The list is updated regularly.

Flint food businesses not included on the list are not necessarily out of compliance with Michigan food regulations. Some businesses have not yet received a compliance assessment from food inspectors.

Initial water samples taken at the facilities were "first-draw" samples, taken when the water had not been in use for at least six hours. If first-draw samples showed any lead levels, follow-up samples are being taken. MDARD will continue to work with businesses to make sure they are in compliance with water use requirements and assist them in getting water test sample results below detectable levels.

For more information, or to schedule a food establishment water assessment, contact MDARD at 800-292-3939.

Edible Flint Works to Address Water Emergency through Urban Gardening

Urban Agriculture Organization Makes a Positive Impact in Flint Communities

Flint, Mich. – Since 2009, Edible Flint has been working with individuals and institutional partners to support Flint residents in growing and accessing healthy food in order to reconnect with the land and each other. As a part of their continuing outreach to Flint's residents, Edible Flint is gearing up to ensure a bumper crop of lead fighting vegetables and address concerns over urban gardening in Flint.

Edible Flint supports more than 300 community and individual gardens in the city through its Garden Starters program. This program provides gardening classes, technical expertise, resources and supplies. In response to the recent Flint water emergency, the organization has plans to expand their programs as they prepare for the upcoming gardening season.

Not only are they looking to support additional food gardeners through their Garden Starters program, they are currently reviewing the selection of seeds and transplants being distributed this year to ensure vegetables that fight lead exposure are included. In addition, Edible Flint, which tests approximately 50 new gardens each year, will be increasing the number soil tests (including lead screening) for Flint's food gardens. They also intend to provide hose filters for garden irrigation for program participants.

"Edible Flint is committed to supporting Flint residents by providing access to resources to grow nutritious fresh food," said Terry McLean, Michigan State University Extension (MSUE) Educator, and Edible Flint Leadership Board Member. "Through our urban gardening program we hope to provide a catalyst for recovery and community engagement."

McLean added, Edible Flint has been working with MSUE partners to reassure gardeners of the safety of eating and growing vegetables grown in Flint's community gardens.

For more information on Edible Flint, visit http://www.edibleflint.org.

Release #: 26

DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

FLINT, Mich. – Michigan Department of Environmental Quality Director Keith Creagh met today with Interim Regional Administrator Robert Kaplan from the U.S. Environmental Protection Agency as part of ongoing interagency cooperation to address the Flint water crisis. The EPA and DEQ have met regularly since a state of emergency was declared in Flint in early January.

"These conversations with the EPA are a critical part of our shared response to the emergency in Flint," said Creagh. "We know that moving forward will require all levels of government – along with partners in the business and nonprofit communities and the community of Flint – to work together with the sense of urgency this crisis demands."

Creagh and the EPA regional administrator have weekly phone calls. In addition, program staff from the DEQ and EPA remain in daily contact to coordinate response. At today's meeting, Creagh and Kaplan along with technical staff from both agencies discussed working together to maximize the data that is being collected to make sure the agencies are closely aligned in their work.

The DEQ is also working in conjunction with the EPA to plan and review the 200 sentinel test sites, enabling both entities to capture the information needed across the entire spectrum of data so we have a better overall analysis of the distribution system.

"We want to have systems and structures in place that will lead us to better conclusions for the people of Flint," Creagh said. "We appreciate the partnership with EPA and other government and non-government agencies."

The discussion included a five-part strategy the DEQ implemented to establish a baseline of data to determine when the water in Flint is safe to drink.

MORE

The strategy includes:

- Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

- School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.

- Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.

- Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection. Sentinel sites are homes that will be used as representative samples to determine the effectiveness of corrosion controls in reducing lead levels.

"Our ongoing conversations with the EPA will help us solidify this plan so we can have confidence in the outcomes," Creagh said.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater. Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

NEWS RELEASE

FOR IMMEDIATE RELEASE
January 31, 2016
Release: #25

State outlines initiatives to determine safe drinking levels and to provide long-term assistance to Flint children

Flint, Mich. – Strategies to determine when Flint's water is safe to drink and to ensure that the city's children have access to comprehensive health care are key to the state's long-term solutions in the Flint water crisis.

Short-term, Gov. Rick Snyder is urging every Flint resident to get a water test kit.

"Almost 5,000 homes submitted water tests, but we want to encourage everyone to submit a water test. Please pick up a free water test kit at one of the Flint fire stations and return the sample to the same location," Snyder said. "We want to ensure that all homes are getting the proper immediate attention and the home water tests will help in that process. If you need assistance, please call United Way 2-1-1 for help."

In addition to the federal emergency declaration, which was granted on Jan. 16, Snyder has requested more federal help for Flint: "While the USDA denied my request to expand WIC nutrition support for Flint children ages 5-10, I'm asking that agency to reconsider. I'm also encouraging the federal government to grant my requests to extend Medicaid eligibility to all Flint residents ages 21 and under, provide long-term health care services for children and help with lead abatement."

On Friday, Snyder signed legislation that will allocate $28 million for more water resources and expanded health care initiatives, including more school nurses, diagnostic tests and community education through the Genesee County Health Department. He also plans to include additional long-term aid for Flint in his FY 2017 budget proposal to be unveiled early this month.

Here's what key Michigan departments are doing to help with the Flint water emergency:

Michigan Department of Environmental Quality
The Michigan Department of Environmental Quality (DEQ) has embarked on a five-part strategy to establish a baseline of data to determine when the water is safe to drink.

The strategy includes:

- Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

MORE

To date, of 4,924 total residential water samples, tests show that 93.7 percent of homes are below the actionable level of 15 parts per billion (ppb) for lead:

- 4,616 samples at 15 ppb or less for lead (93.7%);
- 4,179 samples at 5 ppb or less for lead (84.9%);
- 308 samples over 15 ppb for lead (6.3%);
- 37 samples over 150 ppb for lead (0.75%); and
- 26 samples over 1,300 ppb for copper (0.5%).

Water samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. To process these samples as efficiently as possible, the Michigan Department DEQ lab is operating seven days per week and is capable of processing 1,000 tests per day. Residents can access these reports online at www.mi.gov/FlintWater. Results are mailed to each residence tested.

- School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.

- Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.

- Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection.

Michigan DEQ is working with the EPA on trend analysis and data sets that will be reviewed by the Flint Water Interagency Coordinating Committee, which includes water quality experts to help local, state and federal officials provide a consensus conclusion on water quality and safety.

Michigan Department of Health and Human Services

In response to the elevated blood lead levels found in some Flint children, the MDHHS has worked closely with partners at the state and local level to reach and educate families and providers about what they can do to help protect the health of Flint residents.

These actions include funding to Genesee County Health Department for nurses to work with families when an elevated blood lead level has been detected. During follow-up visits, nurses coordinate with environmental health investigators to meet with families in their homes to identify lead exposures, answer questions and provide water filters.

MORE

As part of the effort to test Flint residents, the following data includes all children and adults tested since Oct. 1, 2015:

- 67 of 3,351 Flint residents tested showed an elevated blood lead level;
- 38 of 1,505 children under the age of 6 showed an elevated blood lead level;
- Seven of 963 children between 6 and 17 years of age showed an elevated blood lead level; and
- 22 of 883 adults over the age of 18 showed an elevated blood lead level.

Because lead stays in the blood for only a few weeks after exposure, these numbers do not provide a comprehensive picture of how many people may have been exposed. MDHHS continues to focus on ensuring that all children in Flint have access to additional behavioral, educational, nutritional and healthcare supports, as well as encouraging every resident to get tested for elevated blood lead levels.

Emergency Management Response
Today, water response teams comprised of city, county and state personnel, American Red Cross and volunteers continued door-to-door delivery efforts. These teams are canvassing neighborhoods providing free bottled water, filters, water replacement cartridges and water testing kits to City of Flint water system consumers not yet identified as having a water filter. These door-to-door efforts also include the 266 homes outside of the city limits on the municipal water system.

Additionally, homebound residents who need supplies should call United Way 2-1-1 or 810-257-3600. The United Way 2-1-1 is collecting a list of individuals needing home delivery and is providing that information to the Genesee County Sheriff's Department.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 234,490 cases of water
- 100,593 water filters
- 32,093 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater.

Due to an overwhelming response from individuals who want to donate, please direct inquiries to FlintDonations@michigan.gov or 517-420-4162. You can also donate online at www.helpforflint.com.

Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 3, 2016
Release #: 28

Plan Advanced by State to Monitor Skin Conditions in Flint

FLINT, Mich. – Health officials in Michigan are moving forward on the investigation of rashes possibly associated with Flint water.

The Michigan Department of Health and Human Services (MDHHS) is developing a plan to better understand rashes that are being reported by members of the public. In recent weeks, MDHHS and the United Way 211 Information Line have received some calls with questions or concerns about rashes possibly associated with Flint water. While rashes are very common in the general population and there are numerous known causes, an important public health function involves being able to identify and rapidly respond to new causes of illness as they emerge.

MDHHS has been actively monitoring trends in rash illnesses to emergency departments in Genesee County and has not seen evidence of increases compared with prior years. However, in an effort to proactively respond to reported rashes, MDHHS is developing a plan to conduct structured interviews with members of the public who report current rashes that may be related to exposure to Flint water in their homes. The Centers for Disease Control and Prevention, Agency for Toxic Substances and Disease Registry (CDC/ATSDR), and the Environmental Protection Agency (EPA) are providing technical assistance to MDHHS in this effort.

"Flint residents are understandably worried about the effects of skin exposure to water in their homes, and it's absolutely necessary we follow up directly on their concerns," said Dr. Eden Wells, chief medical executive with the MDHHS. "While the science currently tells us children and adults can bathe in the water, we are committed to identifying any potential health risks so we can provide information to and protect families in Flint."

MDHHS will begin asking health care providers to report cases of current rash possibly associated with Flint water exposure. These individuals will be contacted and interviewed by MDHHS personnel, and investigations will also involve testing home water samples of those with active rashes. This testing will be different from other routine water sampling and testing being conducted by the Michigan Department of Environmental Quality or the EPA throughout Flint as it will focus on testing for concentrations of metals and other water quality factors that may be associated with the reported rashes.

MORE

While finalizing plans and materials for this investigation, MDHHS is already actively responding to these rash reports. Last week, Flint residents who recently reported rashes were interviewed at their homes by a team from MDHHS and water samples were collected for analysis. While it is too early in the investigation to draw any conclusions about how many people might be experiencing rashes or what might be causing them, MDHHS is responding with urgency to these reported health complaints with assistance from federal partners.

Members of the public who have concerns about rashes are encouraged to visit their primary care physician. Information reported by health care providers is an important part of creating a better understanding of the characteristics of these rashes. Individuals with questions may also call United Way 211 to be connected with health information specialists to answer their specific concerns.

For additional information related to the response in Flint, visit www.michigan.gov/flintwater.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/26/2016 08:00:00
Operational Period End:	02/02/2016 08:00:00
Situation Report No.	27
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/01/2016 08:00:00
SEOC Hours of Operation End:	02/01/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 1, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded rapid response requests.
- Fielded Governor's office requests.
- Facilitated distribution team calls.
- Coordinated warehouse deliveries for donated and purchased water.
- Continued to check the status of the Food Bank warehouse.

JIC:
- Updated internal talking points about the ongoing Flint water emergency.
- JIC is planning to issued a news release regarding a meeting between DEQ and EPA, and the continued interagency partnership.
- JIC is working to set up a legislative and congressional briefing call this week.

Recovery Branch:
- Attended local briefing, SEOC state agency briefing, and distribution process meetings.
- Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required" for Red Cross teams.
- Worked with GIS to map and analyze city of Flint apartment buildings to send out water response teams.
- Worked with GIS to develop a map and street addresses for franchise customers to send out to Red Cross water resource teams.
- Coordinated meeting with MCSC, local EOC, and ARC regarding volunteer coordination and reporting.
- Team priority visited today: franchise customers.
- City sections visited today: franchise customers, 22, 33, 4, 7, 1, 32, 13, 12, 15, 37.
- City sections scheduled tomorrow: franchise customers, additional to be determined.
- 10 American Red Cross teams scheduled for Tuesday, February 2, 2016.

o Data is for 2/1/16 as of 5:00 pm:
o Total homes visited:
- 11,876 (round 3 total).
- 1,686 (total 1/31).
- 1,164 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 87,792 liters or 7,316 cases (round 3 total).
- 13,932 liters or 1,161 cases (total 1/31).
- 5,796 liters or 483 cases (today).

o Replacement cartridges:
- 1,866 (round 3 total).
- 144 (total 1/31).
- 473 (today).

o Faucet filters:
- 6,228 (round 3 total).
- 407 (total 1/31).
- 437 (today).

Planning Section:
- Published Sit Rep #24
- Published IAP #8.
- Compiled a list of activities from all state agencies taking place this week for the Governor's office.
- Trained additional Planning Section staff.
- Participated in IAP development process to include tactics meeting and planning briefing.

Operations Section:
o Attended the unified command group meeting to determine tactics for the operational period.
o Facilitate daily local EOC and SEOC state agency briefings
o Participated in the development of the Incident Action Plan including the tactics and planning briefing.
o 20 ARC volunteers were active across the operation today.
o 30 event-based volunteers were active across the operation today.

o Warehouse Numbers as of 1800:
❑ Water (liters):
• 600,882.
❑ Filters (faucet):
• 49,016.
❑ Replacement cartridges:
• 373,190.
❑ Test Kits (prepped):
• 23,795.
o PODs (1700 1/31 – 1600 2/1):
❑ Water (cases):
• 110,700 liters or 9,225 cases.
❑ Filters (faucet):
• 317.
❑ Replacement Cartridges:
• 543.
❑ Test kits:
• 798.

Finance Section:
• Developed template for state agency costs to be reported on a weekly basis.
• Created document for Recovery Branch Chief outlining requirements for possibly using donations toward 25% match of federal funds.
• Reviewed state agency costs submitted to date.

GIS Branch Updates:
• Prepared for a possible TV interview about GIS.
• Completed and distributed daily maps.
• Updated parcels with newest franchise customers.
• Prepared maps for Captain Kelenske to use with Executive Council.
• Prepared report on maps for Governor's office.
• Created a map of apartments and assisted living centers.

DTMB:
• Provided translation of lead fact sheet and printing for water testing document.
• Provided four drivers to assist with transportation of supplies on Monday, three for the point of distribution sites and one at the food bank.
• Provided assistance to ensure www.helpforflint.com and www.flintvolunteer.com are not blocked by state network.

DHHS-CH:
• CHECC remains at a Level 2 activation and continues to staff the hotline for health related questions.
• MDHHS participated in the Unified Command Group (UCG) call this morning.
• Requested that MDHHS Environmental Health Director include EPA on the notification for homes in Flint that are testing for high lead levels.
• Worked with MDHHS PIO and DTMB on the translation of materials on the Flint Water website.

DEQ:
• 382 test kits delivered to lab.
• Coordinated with the EPA for participation on the High Lead Home Strike Force.
• Coordinated with EMHSD to post DEQ reports to the Flint water website.
• Finalized EPA tracking sheet and summary and worked on new tracking spreadsheet for EPA Flint Drinking Water Task Force and Safe Water drinking plan.
• Drinking water test results to date (9/3/15 to 2/1/16):
o 5,227 out of 5,590 (94%) are at or below 15ppb.

Local EOC Update:
• Coordination of rapid response deliveries to homebound residents and special locations.
• Finalized rapid response delivery plan with ARC, Team Rubicon, Michigan Community Service Commission and SEOC.
• IC/Genesee County EMC attended county commission meeting, briefed commission on response efforts, and addressed questions and concerns.
• Addressing public concerns, including rumors of availability of FEMA relocation assistance.
• Coordinating with charter schools outside the city of Flint/Flint water system for supply of water resources to students that are Flint residents.
• Attended conference call with Dow Chemical to discuss potential donation of filter systems. Will provide spec sheets to SEOC Logistics.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC

4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 1. The JIC was operational until 11 p.m. on January 31, 2016.

State agencies at the JIC included the Michigan State Police, Michigan Community Service Commission, Michigan Economic Development Corporation and Departments of Environmental Quality, Natural Resources, Transportation, Health and Human Services, and Military and Veterans Affairs. The Genesee County Sheriff's Office and the American Red Cross were also present. Tasks accomplished:

• Media hotline staff answered more than 20 emails and phone calls ranging from questions on a meeting between DEQ and EPA officials, pets and lead, and viewing water sample testing.

• Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with Michigan Radio, Lansing State Journal, Detroit Free Press, and WNEM TV 5.

• Updated internal talking points about the ongoing Flint water emergency.

• Continued routing public information materials for approval, including communications from MDHHS and MDARD.

• JIC is planning to issue a news release around 7 p.m. regarding a meeting between DEQ and EPA, and the continued interagency partnership. This news release will take the place of the nightly numbers release.

• Updated ICS-204 with new task accomplishments and update work requirements.

Agriculture and Rural Development (MDARD)

As of 2/1/16, MDARD completed water assessments at all 18 food businesses in the high risk area and 105 in the medium risk and 80 in other areas (numbers differ from those reported 1/29/16 due to risk reclassification of some businesses.) The overall assessment compliance rate is 69.8%. We also have collected 84 water samples to date, with more scheduled for this week.

MDARD Environmental Stewardship Division (ESD) Staff has been working with several local entities regarding urban ag/gardening questions related to the Flint Water issue. A conference call is schedule for 2/2/16 to better understand how we can coordinate efforts.

MDARD Animal Industry Division (AID) held a conference call 1/29/16 with 12 industry/academic/medical/federal partners. The call created situational awareness among partners and stakeholders interested in the pet issue related to Flint water. AID is partnering with MSU College of Veterinary Medicine (CVM) to address animal issues, developing information pieces for the public and for veterinarians (with JIC approval), testing and laboratory issues. Also, MSU CVM is working with local MSU staff to identify specific community needs. AID is working with individual veterinarians/pet owners in the area on an individual basis as needed.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Monday.
The Volunteer Reception Center (VRC) was in operation today. The VRC will operate from 9am to 5pm through Sunday.
Assembly of water test kits will resume when materials become available.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities.

Forwarded Metro Times assessment of Bill Signing event coving Flint Recovery to MSP-SEOCPIO in follow up to last week's discussion on same subject:
http://www.metrotimes.com/blogs/archives/2016/02/01/gov-snyders-flint-aid-bill-signing-a-pr-disaster

Reviewed coverage of Baltimore Pastor Dr. Jamal Bryant's mid-day "The Environmental Justice Rally" today
The assembled group has collected some 47,124 bottles of water. The collection of water will be distributed among six churches: *First Trinity M.B. Church, 1226 Beach Street; Cathedral of Faith Church of God in Christ 6031 DuPont Street, Christopher Martin,* Pastor; Quinn Chapel AME Church 2101 Lippincott Blvd, Rev. Gerald Cardwell, Pastor; United Outreach Ministries 1429 Roosevelt Ave., LeMarcus Keels, Pastor; and Kingdom of Heaven Ministries 2430 Dutcher Road. The rally was open to the public and Flint, MI Mayor, Karen Weaver was scheduled to give remarks. See more at: http://afro.com/baltimore-pastor-jamal-bryant-heads-to-flint-to-lead-environmental-justice-water-rally/#sthash.L6Ir1UiT.dpuf

Discussed Hispanic/Latino outreach with LARA and use/distribution of resource materials in Spanish; discussed grass-roots activity vs Water Resource Teams engagement

Discussed with MDE and DHHS data inquiry of individuals who may have left the respective Flint service areas for other Michigan or national points of service - may be a possible avenue for finding at-risk/high risk individuals exposed or entitled to services

Forwarded list of Departmental activities to Planning inquiry:

* Michigan Department of Civil Rights (MDCR) continues to try and track down information/materials that have been or are scheduled to be translated into foreign languages and American Sign Language (ASL). MDCR is also trying to confirm what has actually been distributed on the ground in Flint and to whom/which agency or entity. (We have been getting many questions from *various organizations related to these communities).*

* MDCR Community Relations Division Arab American Liaison Charles Schoder will attend a convening by the Genesee Health System to discuss Flint water issues on 02Feb16 in Flint

* The Hispanic/Latino Commission of Michigan will host its business meeting on Wednesday, 03 Feb from 12:30-14:45 at the Hispanic Center of Western Michigan, 1204 Grandville Ave. SW, Grand Rapids, 49503. LARA Director Zimmer will attend the

meeting and discuss possible ways they can be of assistance (Note: This is due to EO2016-3 transferring the three ethnic commissions from MDCR to LARA)

* MDCR Communications Director Vicki Levengood will be at the JIC 03 Feb and 04 Feb (Wednesday and Thursday)
* MDCR Communications Staff Lisa Collins will be at the JIC 02 Feb and 03 Feb (Tuesday and Wednesday)

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any health-related questions that 2-1-1 is unable to answer in order to support GCHD.

Contact information for the MDHHS Environmental Health Director was provided to the Paul Smith from the Governor's Office this afternoon at his request, to discuss blood lead level data for a dashboard that is in development.

Requested that MDHHS Environmental Health Director include EPA on the notification list for homes in Flint that are testing high for lead, at the request of DEQ. The notification is currently being provided to the GCHD. EPA would like to be notified at the same time if possible.

Worked MDHHS PIO and DTMB on the translation of materials on the Flint Water website, as well as updating outdated information that is currently on the website at the request of MDARD. Forwarded Aerator informational document from the JIC to DTMB for translation as well. Working with LARA to ensure all documents are translated in not only Spanish, but also Mandarin and Chinese.

Confirmed that Dr. Eden Wells will serve as the MDHHS representative for the FEMA-Congressional Call tomorrow. Coordinated with the MDHHS PIO to prepare Dr. Wells for that report.

Provided the Flint Blood Lead Count Report by zip code to the SEOC and the Lt. Governor's representative in the SEOC, who had requested the information previously.

Corrections (MDOC)

We continued operations at the warehouse and all PODs were well supplied.

We continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

382 Water Samples were collected and delivered to the DEQ Lab in Lansing.

We had 17 employees and an SAI work crew on the ground in Flint today. We continue to staff the SEOC from 0800-2000, 7 days/week.

The overhead bay door was damaged yesterday by one of our drivers (Rod Ridgeway). It was reported to the Local EOC and Lt. Russo completed an accident report as there was damage to the facility.

Education (MDE)

1. Michigan School for the Deaf. Report from MSD that two of the three new drinking fountains were installed this weekend (Jan 30-31). Landlord said he anticipates mid-week, this week, to install final new drinking fountain. Based on that, MSD contacted Joe Madziar, and he indicated next Friday (February 5) would be a tentative date for LARA to schedule Stevens Hall testing.
2. MDE completed request for listing of all Food Programs and Organizations within 16 zip code area. This spreadsheet has been uploaded to the Activity Log. Marla Moss included narrative that outlines efforts of MDE related to Food Programs that has been included in Activity Log for Education as well.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

382 samples were delivered to the lab this morning.

Coordinated with EPA for participation on High Lead Home Strike Force.

Coordinated with EMHSD for DEQ to obtain ability to upload DEQ reports to the Flint Water website.

Finalized EPA tracking sheet and summary and worked on new tracking spreadsheets for EPA Flint Drinking Water Task Force and Safe Drinking Water Plan.

All required postings made it to web by EPA timeline.

Human Services (MDHS)

Working with MDEQ on some information regarding water testing.
Went to Flint SOB, met with Chief Deputy & staff. Received direction to support them from the SEOC working with several other

state agencies already engaged.
CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team

LARA's Bureau of Services for Blind Persons has staff assigned to and living in Flint. They will be reaching out to these clients covered by BSBP.

LARA's Michigan Office of New Americans is processing translation requests for Arabic, Mandarin and Hmong.

LARA continues to monitor DEQ's test results for Health Care Facilities, Child Care Facilities, Adult Foster Care Homes and Schools.

Military and Veterans Affairs (DMVA)

1. DTG: 0113002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:Ssg Gazzeny, Darryl L. Cell: (517)582-4816 Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 53 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 53 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. SEOC has the POC with MDOT. Lt. Benke will be linking up with MDOT technician to do a visual reconnaissance.

1.) Workers from the City of Flint determined that they do not have the capabilities to support the road sign warnings. Local EOC was working through the Genesee County Road Commission and determined that they do not have the recourses to sustain our long term operations.

b. Flint City Electricians have assessed outside lighting issue at station 5 and 8. In addition, they will be fulfilling long requested work order for maintenance on all lighting at those stations. Station 8 work order to be initiated NLT 01FEB2016 0730.

8. PERSONNEL: 53 Soldiers are currently assigned to the POD operations. 46 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8. 12 Soldiers were released and conducted reverse RSOI. 12 new Soldiers will report 2JAN2016 in support of TF Flint.

9. INTELLIGENCE / FORCE PROTECTION: Michigan militia did establish a presence within the AO. The intentions were not harmful and in support of efforts made to resolving issues to residents of Flint.

10. LOGISTICS: In support of recycle project sponsored by Schupon, the special purpose recycle bags have not been distributed to POD operations.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• POD operations are still functioning well. We are trying to improve the efficiency, professional appearance, and long-term establishment of the POD's, but, overall the POD's operations are remaining successful.
• Recycling has been implemented at PODs 1, 5, and 8. Recycling is happening frequently but at a restriction due to the lack of supply of clear recycle bags given from schupan..
• Consolidated Station Report OUT (last 24 hours)
Bottled water-3523 Water (Gallons)-244 Lead Testing Kits-235
Pitcher (23 cup)-0 Brita Faucet Filter-136 Brita Replacement Cartridge-186
Pur Filter-162 Pur Replacement Filter-346

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

DTMB Print & Graphic Services to provide translation of Lead Fact sheet and printing for water testing document.
DTMB providing four drivers to assist with transportation of supplies on Monday, three for the point of distribution sites and one at the food bank.
Provided an AT&T conference line for the JIC to use to conduct media conference call.
Provided assistance to ensure www.helpforflint.com and www.flintwolunteer.com sites are not blocked by State network.
Provided building access and parking for employees and Federal partners in the SEOC and Flint State Office Building.
Provide Constitution Hall conference room until February 29 for DEQ to use

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Subject: Saturday, Feb. 13 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Lt. Governor Calley: It's important for Flint residents to test their water

It is critically important that we have every single home in Flint tested. Each home is unique-- each home has a unique service line, unique plumbing, and unique fixtures. We need the water testing information to ensure the family has safe drinking water.

To date, 8,952 homes have been tested.

82% of homes under 5 ppb

93% of homes under 15 ppb

7% of homes over 15 ppb

You can pick up a water testing kit from one of the Flint fire stations, and then you can return your test to a Flint fire station. If you need assistance, please visit www.mi.gov/FlintWater or call United Way 2-1-1.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters

- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Subject: SEOC Update 2/12/16 - Flint Water - Limited Distribution

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.

- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.

- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.

- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.

- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.

- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.

- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: Friday, Feb. 12 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Flint lifts boil water advisory

With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory today.

Affected residents no longer need to boil their filtered water because testing did not reveal any bacteria during or after the repair of the water main break.

Previously installed water filters are still safe to use since no bacteria was found, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents should still use filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and children under 6 years of age should continue to drink only bottled water.

Remember to flush your taps and clean your faucet's aerator

Residents and businesses should flush their water for between two to five minutes through all taps every day. This should be done first thing in the morning after the water system has been stagnant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet every week.

Governor Snyder answers questions from Flint residents

Governor Snyder answered Flint residents' questions about the water emergency during a tele-town hall yesterday afternoon. If you have a question, please visit www.mi.gov/FlintWater or call the Governor's office at 517-335-7858. **Click here to listen to the full telephone conversation.**

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd

Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 37

Boil Water Advisory Lifted by City of Flint No Bacteria Identified

FLINT, Mich. - With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory today.

Affected residents no longer need to boil their filtered water because testing did not reveal any bacteria during or after the repair of the water main break. The boil water advisory was issued as a precautionary measure because the loss of pressure in the water distribution system can make the system vulnerable to bacterial contamination.

Previously installed water filters are still safe to use given the absence of bacteria, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents are reminded to continue use of filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and children under 6 years of age should continue to drink only bottled water.

The U.S. Environmental Protection Agency and Michigan Department of Environmental Quality both encourage residents and businesses to flush their water for between two to five minutes through all taps every day. This will assist with flushing their individual pipes as well as rescaling the water system as a whole. This should be done first thing in the morning after the water system has been stagnant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet every week.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Road.

Fire Station #6
716 West Pierson Road.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Road.

All water filters distributed by the State of Michigan are certified by NSF International<http://www.nsf.org/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf/> for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website<http://www.nsf.org/>.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, by calling 211 or visiting www.helpforflint.com<http://www.helpforflint.com/>.

Governor Rick Snyder
REINVENTING MICHIGAN
Getting It Right. Getting It Done.

News Release

Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Friday, Feb. 12, 2016

Gov. Rick Snyder requests opportunity to testify before federal oversight committee

Gov. Rick Snyder today said he asked the chairman of the U.S. House Committee on Oversight and Government Reform for the opportunity to testify to explain how the local, state and federal governments combined to fail the people of Flint and the improvements he is recommending at the federal level as well as in Michigan to ensure a water quality crisis of this nature does not happen again.

The governor called Congressman Jason Chaffetz (R-UT) on Thursday and offered to travel to Washington, D.C. for a future hearing to explain mistakes made by water quality experts that led to the current crisis and detail the emergency response in place to help residents recover.

"The people of Flint have suffered because they were failed by all levels of government, and so it is understandable that there are questions at all levels of government," Snyder said. "In Michigan we are learning a great deal from this crisis and I am hopeful the federal government also will use this as an opportunity to examine health and safety protections in place, assess infrastructure needs, and avoid this type of crisis in the future."

Snyder was not invited to the first Flint water hearing held Feb. 3 by the U.S. House Committee on Oversight and Government Reform. Keith Creagh, interim director of the Department of Environmental Quality, represented the state at the hearing of the full committee.

Snyder last fall appointed an independent task force to identify where specific failures occurred within state government. Their report is expected in the coming weeks. The state Office of the Auditor General also examined events leading to the water crisis, and released a report that can

be found here.

Subject:	NEWS RELEASE: National Guard Soldier Distributing Water Saves Flint Resident's Life
Attachments:	JIC News Release #36 - National Guard Soldier Distributing Water Saves Flint Resident's Life - 2016.02.12.pdf

INTERVIEW OPPORUNITY: Spec. Colwell will be available for interviews at Fire Station #1 located at 210 E. 5th St. from 1-4 p.m. on Friday, Feb. 12.

National Guard Soldier Distributing Water Saves Flint Resident's Life

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 36

FLINT, Mich. –While helping to hand out water to the citizens of Flint, a National Guard soldier helped save a Flint resident's life.

"This is why I joined the military, to help people," said Spec. Charles D. Colwell, a medic with the Headquarters Company of the 125th Infantry Battalion attached to Alpha Company from Detroit, Mich. He is one of 65 soldiers helping distribute water resources after Gov. Rick Snyder activated the National Guard to help with the Flint water emergency.

Because of his actions on Feb. 1, Spec. Colwell is being recommended for the Michigan Lifesaving Medal by his immediate supervisor.

While on duty at Fire Station #1 in downtown Flint, Pfc. Zacharry R. Burrell greeted the resident who was there to return recyclables. Noticing that she was short of breath and struggling for her inhaler, Burrell ascertained the resident was clearly having a medical condition and needed immediate assistance.

"She stood there for a minute and it kind of looked like she was looking for something in her bag and then she bent down and put her hands on her knees and began coughing uncontrollably and I saw she had an inhaler in her hand," said Burrell.

Burrell brought Spec. Colwell out to the woman, who immediately started assessing her condition. She had been walking with some women to the firehouse. They told Colwell the woman had used her inhaler twice and it was nearly empty. He determined she was also suffering from severe bronchitis, so he called 911.

It wasn't until the next day the other soldiers realized how much he had done when she came back to the firehouse to thank Colwell for saving her life.

Colwell who has been a medic with the Michigan National Guard for the last two years is also a trained emergency medical technician on the civilian side in the city of Detroit.

"I do this so much every day and everyone else is kind of blowing it up," explained a humble Colwell, who doesn't understand why the other soldiers he is working with thinks he deserves the Michigan Lifesaving Medal.

"I couldn't be more proud of him," said his squad leader, Sgt. Brandon M. Lewis. "That's why I put him in for the highest award that I could possibly recommend for him for doing that."

Colwell went beyond his normal duties while in Flint and his actions made what could have been a bad situation a positive one.

"If it wasn't for him, one of us might have misjudged the situation and just thought she was sick," said Lewis. "Not only did he immediately seek her out, but he did everything he could to make her comfortable and by the time the EMTs and paramedics got here he already had an assessment to hand over to them so they were a few steps ahead."

The 125th Infantry Battalion includes soldiers from different companies from around the state who have volunteered to assist the citizens of Flint during this time. They are stationed at water resource sites at the five fire stations, handing out water, water filters and water testing kits.

Subject: NEWS RELEASE: Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis

Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Friday, Feb. 12, 2016

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis

LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents.

"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."

NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.

LEGAL NOTICE

- The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
- Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
- The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external

party.

Subject: FW: Flint, MI Social Listening Report 1/14/15 17:30 ET

FYI

Below please find a breakdown of the Flint, Michigan social media conversation. If you have any questions about this information please let me know.

Flint, MI Social Listening Report 1/14/15 17:30 ET

- Local organizers and advocates who previously campaigned for FEMA to be brought to Flint are now asking if enough is being done. They are questioning why more troops are not being sent, if the State is relying on water donations, and if Flint residents will be refunded for water bills.

- The majority of the FEMA conversation continues to be the sharing of news articles about FEMA and the Michigan National Guard stepping in to help. A small number of people however seem to not know or understand that we are already involved with the response (example 1, example 2). These people are questioning why we are not helping or why the Governor has not requested help yet.

- Congressman Dan Kildee sent a letter to President Obama stating that the people he represents in Flint "have lost any trust that the state can keep them safe and demand a federal response." In the letter he expresses frustration over the state's handling of the situation and requests experts from HHS, CDC and EPA be sent to Flint.

- There was an increase in protest activity and discussion today as residents continue to express their anger and discontent with state officials (example 1, example 2).

- The Genesee County Sheriff's office set up a number for Flint residents to call if they are unable to leave their homes to get water and filters.

Subject: Thursday, Feb. 11 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | THURSDAY, FEBRUARY 11, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Actions to take when the boil water advisory is over

TIPS FOR
FLINT RESIDENTS

To ensure water is safe for use, Flint residents should take these precautions after the city of Flint lifts the boil water advisory:

1) First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.

2) Second, residents should replace the cartridge in their water filter after a boil advisory. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter replacement instructions.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m at the sites listed below.

Click here for a list of FAQs about the boil water advisory.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Sentinel Site Teams to Discuss Process For Testing Water at Homes Across the City
402 Flint Households to Help Determine When City's Water Safe to Drink

FOR IMMEDIATE RELEASE
February 11, 2016

DATE:
Friday, Feb.12, 2016

TIME:
9 a.m.

WHERE:
Local Emergency Operations Center
Genesee County Administration Building
1101 Beach Street
Flint, MI 48502

WHO:
Sentinel site teams comprised of Michigan Department of Environmental Quality (DEQ) employees and licensed plumbers.

WHAT:
Yesterday, 10 sentinel site teams began visiting 402 identified Flint homes across the city to teach residents how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing. This in-depth level of data collection will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

To protect individuals' privacy, demonstrations will not be given at residences.

This is an opportunity for media to get photos and video of the information teams that will cover with homeowners.

Importance: High

Hi David,

Ron has some urgent projects he needs to complete back in his office next week. Would you be available to fill in for him for a two-day period in the Flint JIC (similar to what you did before)? It could be either Wednesday/Thursday or Thursday/Friday. We could also do Tuesday/Wednesday, but that's not my first preference.

Please let me know as soon as possible, as I'm trying to finalize the staffing today.

Thanks so much.

Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016**.

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016**.

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. *Until further notice, copies of all newly created records shall be forwarded to* MSP-FOIAProject@michigan.gov.

REMINDER: *Public records can only be disposed of consistent with an approved retention schedule.* As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Attachments: Staffing - 2016.02.11 - ABV.docx

Importance: High

Fellow PIOs,

Thank you for helping staff the Flint Joint Information Center (JIC) during the Flint water emergency. Without your help, we couldn't make this operation happen.

We are still trying to fill the following shifts (see attached document):

Feb. 16 – 1 person
Feb. 18 – 2 people
Feb. 19 – 1 person
Feb. 22 – 1 person
Feb. 23 – 1 person
Feb. 24 – 2 people
Feb. 25 – 2 people
Feb. 26 – 2 people

Please evaluate your staffing and let us know if you have someone available to work any of these shifts by 5 p.m. today. When possible, with the reduced staffing, we prefer PIOs who are already trained to work in the Flint JIC.

Thank you for your consideration. We can't make this operation happen without your partnership.

Best regards,

Ron

Subject:	NEWS RELEASE: Residents Reminded of Boil Water Advisory; Water Filter Cartridges Should be Replaced After Advisory is Lifted
Attachments:	Boil Water FAQs.pdf; JIC News Release #35 - Residents Reminded of Boil Water Advisory - 2016.02.10.pdf; Flint_Precautionary_Boil_Water_Notice.pdf; Flint_Map_Precautionary_Boil_Water_Advisory_.pdf

Residents Reminded of Boil Water Advisory
Water Filter Cartridges Should be Replaced After Advisory is Lifted
Free water filters, cartridges, bottled water, testing kits available at resource sites

FOR IMMEDIATE RELEASE
February 10, 2016
Release #: 35

FLINT, Mich. Flint residents are reminded to boil their water due to the drinking water warning issued by the city of Flint on Feb. 9. Until further notice, boiled filtered water or bottled water should be used for drinking, brushing teeth, washing dishes, preparing food and for pets.

The boil water advisory was issued in response to a water main break on Tuesday that caused a loss of pressure in the water distribution system. Whenever a water system loses pressure for a significant length of time, bacteria contamination can result. As a precautionary measure, residents are advised to boil their water to kill bacteria and other organisms in the water.

Once the City of Flint lifts the advisory, affected residents should be prepared to take a few precautions to ensure their water is safe for use.

First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.

Second, residents should replace the cartridge in their water filter after a boil advisory. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter manufacturer replacement instructions.

For other tips, see the attachment, "Boil Water FAQs."

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Subject: Wednesday, Feb. 10 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Governor Snyder's budget recommends an additional $195M for Flint families

Today, the Governor in his budget proposed an additional $195 million for Flint families to be used to help provide safe drinking water, good food and nutrition, and physical health, social well-being, and educational intervention.

These additional resources-- combined with previous investments-- increase total funding for Flint to more than $230 million.

Click here to learn more about the Governor's *recommended additional funding.*

Please be aware: Flint issued a boil water advisory

Due to a water main break, the city of Flint issued a boil water advisory. Flint residents should boil filtered water. Click here to learn more.

State launches new streamlined services for residents

A new process of addressing homes that test high for lead or copper in their water will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at www.michigan.gov/flintwater
- Test results greater than 150 ppb are emailed to MDHHS
- All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
- **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
  - Health and wellness information
  - Off-site blood test referral
  - Assists with transportation support for appointments, as necessary
  - Provides additional bottled water, filters and water sample kits
- **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
  - Water testing and sampling information
  - Water sample collection
  - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator clean out, filter check)
  - *Provides additional bottled water, filters and water sample kits*

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 299,273 cases of bottled water
- 104,500 water filters
- 211,255 replacement cartridges
- 35,756 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Flint Water Daily Update
Updated Feb. 10

Current Issues Talking Points

Budget Proposal – Supporting Flint Families

- *$195 million of the proposed budget will go toward helping Flint families by funding both short and long-term* solutions to the water crisis.
    - $37 million to help ensure clean, safe drinking water. This funding will assist with water testing, inspection and replacement of fixtures in schools and daycare facilities, and help the city stay connected to the Detroit Water and Sewerage Department through the end of 2016.
    - $15 million to support food and nutrition funding for families and children. This funding will support school meal programs, mobile food banks and food inspections at food establishments in the county.
    - $63 million for physical, social and educational well-being. This funding will support families with blood testing, early childhood development programs, educational support and home lead abatement.
    - $50 million will be kept on reserve to address the future needs of Flint residents.
    - The remaining $30 million pertains to the recent proposal to help the city of Flint assist residents with covering a portion of their water bill.
        - A typical Flint resident's billing statement includes charges for water and sewer.
        - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
        - *Residents would still be responsible for the remaining balance of the water portion of a bill* accounting for water used in ways that do not qualify as consumption.
        - Residents would be responsible for covering all sewer costs.
        - This $30 million has been approved in the Senate and awaits approval in the house before it goes to the Governor for his signature.
- If fully approved, the $195 million will be in addition to the previous $37.3 million in emergency funding already allocated to the city of Flint, totaling more than $230 million.
- An infographic detailing the above is available here.

Budget Proposal – Statewide Infrastructure

- In his FY 2017 Budget proposal presented today, the Governor called for the creation of a Michigan Infrastructure Fund to support statewide infrastructure needs.
- If approved, there will be a $165 million investment which will be allocated based on projects with the most immediate needs.
- In 2015, Michigan renewed a commitment to fix our roads and bridges, now it's time to focus on the rest of the state's infrastructure.
- Potential projects that could receive a portion of the $165 million include replacement of known high-risk lead and copper service lines, infrastructure upgrades while repairing roads or other utilities, and analysis of statewide infrastructure needs.
- An infographic detailing the above is available here.
- For a copy of the Governor's press release and additional materials visit www.michigan.gov/mibudget.

Wednesday, Feb. 10, 2016

Editor's note: Click here to see a map of the 402 sentinel sites

Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water

402 households to help determine when city's water is safe to drink

FLINT, Mich. – Gov. Rick Snyder is thanking 402 households from across Flint who will provide water test data to help determine when the city's water is safe to drink.

The "sentinel sites" will be visited by teams made up of Michigan Departments of Environmental Quality employees and licensed plumbers. They'll teach homeowners how to test their water in a scientifically accurate manner and submit samples on a regular basis for the state to test.

"I want to thank the homeowners participating in this sentinel site program," said Gov. Rick Snyder. "Their diligence in taking scientific samples from their home's water system is crucial in helping us decide the right time to declare when Flint neighborhoods have safe drinking water."

Also launching today is a more streamlined system of addressing homes that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services coordinated by the Michigan Department of Health and Human Services.

"We want to provide the quickest response possible when we see that a home's water tests high for lead or copper," Snyder said. "We've provided outreach in Flint since October and continue to improve our processes for getting residents the help they need. Streamlined coordination of services between the DHHS, DEQ, Genesee County Health Department and the Flint Local 370 Plumbers Union is yet another step in that direction."

Homes with higher lead levels will receive health and wellness information, blood test referrals, transportation to appointments if necessary and additional bottled water, filters and water sample kits. The homes will also be inspected for possible sources of lead in the water.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater, by calling United Way 211 or visiting www.helpforflint.com.

Cc: JICManager
Subject: Follow up from yesterday's conference call

All,

Here is some of the promised information from yesterday's call. Please let me know if there is additional information you'd like to get:

- As of Feb. 8, data being tracked by the state shows that 87.8 percent of City of Flint water customers have a water filter. That leaves approximately 12 percent or 3,323 customers whose filter status is unknown. Efforts to reach these homes continue in earnest.

- Five water resource sites at fire stations in the city, staffed by Michigan National Guard soldiers, remain operational daily from 9 a.m. to 9 p.m. to provide free bottled water, filters, replacement cartridges, and water testing kits.

- Since January 9, through the efforts of both door-to-door water response teams and water resource sites, a total of 299,273 cases of water; 104,500 water filters; and 35,756 water testing kit have been distributed.

- On February 5, the Small Business Administration approved Governor Snyder's request for low-interest disaster loans for businesses in Genesee County and the city of Flint. The approval provides access to federal Economic Injury Disaster Loans, which are working capital loans to small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations. Business owners have until Nov. 7, 2016, to apply. More information and criteria for SBA disaster loans is available at www.sba.gov/disaster. Eligible Flint business owners can apply online.

- This week the state secured a second warehouse that can accept bottled water that is not on pallets, filling a critical need, as many water drives are not palletized. The water donation guidelines on www.michigan.gov/flintwater and www.helpforflint.com have been updated to reflect this new option. To schedule a dock time for a delivery, call 517-420-3984 or email flintwarehouse2@michigan.gov.

State Launches New Streamlined Services for Residents
New Testing Sites Help Confirm Water Quality

FOR IMMEDIATE RELEASE
February 10, 2016
Release #: 34

FLINT, Mich. – This week the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (MDHHS) initiated new initiatives to engage residents in a more in-depth level of data collection that will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

Starting today, 10 Sentinel Site teams consisting of representatives from the DEQ, along with licensed plumbers, will begin to visit 402 identified residential sites across the city to teach homeowners how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing.

Geographically dispersed across all nine wards, these sites will be established for ongoing lead and copper monitoring and will be resampled periodically to help determine when the drinking water advisory may be discontinued. This testing regimen calls for resampling every two weeks for an additional four, two-week cycle.

"These Sentinel Sites are an important step in helping us achieve a higher level of data analytics on the quality of the water," said Keith Creagh, Director of the DEQ. "The data collected will help us determine when and where corrosion control treatment has been effective."

Also launching today is a more streamlined system of addressing residences that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

"As soon as we see that a household's water level tests high for lead or copper, this new automatic protocol kicks in, beginning a series of measures to get people the health-related services they need faster," said Dr. Eden Wells, chief medical executive with the MDHHS. "While many of these residents have had outreach from county and state agencies since last fall, this new system creates a timeline and multi-agency organizational structure so that services can be provided in a more cohesive manner."

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at www.michigan.gov/flintwater
- Test results greater than 150 ppb are emailed to MDHHS
- All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
- **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
    - Health and wellness information
    - Off-site blood test referral
    - Assists with transportation support for appointments, as necessary
    - Provides additional bottled water, filters and water sample kits
- **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
    - Water testing and sampling information
    - Water sample collection
    - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator cleanout, filter check)
    - Provides additional bottled water, filters and water sample kits

Unlike lead, there is a safe level of copper. Everyone comes into contact with it every day and copper is essential for good health, but for homes with elevated copper levels, individuals are being instructed to use bottled water for drinking and cooking.

People's bodies require copper for normal functioning, and at different amounts depending on age, and whether a women is pregnant or breastfeeding. Ingesting high levels of copper can cause nausea, vomiting and diarrhea.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater, by calling United Way 211 or visiting www.helpforflint.com.

Flint Water Daily Update
Updated Feb. 10

Current Issues Talking Points

Legionnaires Disease

- Recent comments in the media are inconsistent with the collaboration that has taken place between the Michigan Department of Health and Human Services and the Genesee County Health Department.
- MDHHS takes legionella concerns seriously and has released some of its earliest email conversations between its epidemiologists and the Genesee County Health Department regarding legionella cases.
- The MDHHS partnership with the Genesee County Health Department is central to providing Flint residents with the health resources they need to overcome obstacles in both the short and long terms. They have worked side by side to deliver health services, exchange data and ideas, and to be there for the Flint community.
- In the fall of 2014, the Michigan Department of Health and Human Services was aware of an increase in Legionnaires' disease cases in Genesee County and it was determined that additional support from the state was needed. The state stepped in to offer that support. Within a month, state epidemiologists were actively conducting interviews with cases and medical record reviews to make sure that Flint residents had the joint resources of local and state experts.
- MDHSS is continues to be engaged with environmental health officials on the local and national levels to proactively address the potential for future Legionnaires disease cases.

Budget Proposal today, Feb. 10

- The Governor will give the formal FY 2017-18 budget presentation today, Feb. 10 at 11 a.m.
- As part of the budget proposal, the Governor will outline long-term funding efforts to aide in Flint's recovery.
- To date, the state has allocated $37.3 million in emergency funding for Flint.
    - The Governor also proposed and the Senate has approved an additional $30 million the city could use to help relieve Flint residents of a portion of their water bill.
- The budget presentation is available via livestream at www.michigan.gov/snyderlive.
    - To limit the negative impact on state network speeds, DTMB advises employees to reserve a conference room and watch the presentation in teams rather than individually at their desks.

Flint Mayor calls for immediate replacement of Flint pipes

- In an announcement yesterday, Flint Mayor Karen Weaver called for immediate replacement of Flint's water infrastructure.
- Immediately removing pipes could potentially add to the infrastructure problem and result in higher costs for the city.
- Both Senate Minority Leader Jim Ananich and Virginia Tech water treatment expert Marc Edwards advise first mapping the city's pipes to determine the location of lead infrastructure.
- Edwards also says the state is taking the correct actions to make Flint's water safe again. Adding phosphate to the water to coat the pipes is a necessary first step toward ensuring safe drinking water for Flint residents.
    - Flint's damaged pipes spark debate on fix (Detroit Free Press)
    - Prof. Marc Edwards discusses pipes in Flint (video)
- The Governor continues to work with Edwards and the Flint Water Interagency Coordinating Committee to identify and implement a successful long-term solution for Flint families.

Subject: SEOC Update 2/9/16 - Flint Water - Limited Distribution

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- *10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.*

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- *Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution* planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.

- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.

- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.

2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD
9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD
4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field
3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field
5 personnel
One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field
1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - *Obtain additional information from the City of Flint and Genesee County for Declaration* of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food *establishments to take advantage free water safety inspections. The news release was picked up by* the Associated Press and other news media outlets.

- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
    - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.

- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
    - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - *Includes filter replacement strategies.*
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we *give liters of water and cases in the future*)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.

- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.

- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: ACTION: Flint JIC Staffing - Deadline: Noon on Thursday, Feb. 11
Attachments: Staffing - 2016.02.09 - ABV.docx

Fellow PIOs,

Thank you for your continued support of the Joint Information Center for the Flint water emergency. As operations enter the next phase of response, we are changing our staffing needs to scale back the number of PIOs needed each day.

Beginning Feb. 16, we will are requesting **TWO** non-lead agency PIOs each weekday to provide support for the media hotline and news email account, to assist with writing tasks and to help with media monitoring.

I ask that you please see the attached schedule for available spots and respond with staffing considerations by noon on Thursday, Feb. 11.

Hotel rooms can be provided upon request, if needed. Lunch and dinner will be served.

Thank you for your commitment to the Flint JIC.

Best regards,

Ron

Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources

FOR IMMEDIATE RELEASE
February 9, 2016
Release #: 33

Flint, Mich. – The Bureau of Services for Blind Persons (BSBP) is working to ensure Flint's blind community has access to all information and resources related to the Flint water emergency.

"We have made direct contact with all of the bureau's blind clients who live in Flint to ensure they have the resources they need and we will continue to provide assistance to any Flint resident who is blind or visually impaired," said BSBP Director Edward Rodgers.

Bureau staff contacted nearly 40 BSBP clients living in Flint by either home visit or phone to ensure they had access to all health-related water emergency information and to offer assistance in obtaining bottled water, filters, water replacement cartridges and water testing kits.

Information is available in braille by contacting the bureau. Flint residents who are blind or visually impaired and need further assistance or information should contact Sue Luzenski at the BSBP at Luzenskis@michigan.gov or 517-335-4265.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information about water response efforts is available at www.michigan.gov/flintwater, by calling United Way's 211 or visiting www.helpforflint.com.

For more information about the BSBP, visit www.michigan.gov/bsbp or call 1-800-292-4200, TTY 888-864-1212.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint

FOR IMMEDIATE RELEASE
February 9, 2016
Release #: 32

FLINT, Mich. – Since early January, over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency. Volunteers are coordinated through the Volunteer Reception Center, operated jointly by the American Red Cross and United Way of Genesee County. These volunteers have performed numerous tasks throughout the community from delivering water resources door-to-door to assembling water test kits.

"We have had volunteers of all ages from all different backgrounds come forward to help," stated Sarah Lewan, community volunteer manager. "We have processed more than 200 groups of varying sizes, including corporate groups, social groups and concerned citizens."

Volunteers are utilized at a variety of community organizations to provide assistance with water distribution, warehousing, data entry and assembly of water test kits. The volunteers give whatever time they can, whether it is a couple of hours or availability for several days.

There are opportunities for additional groups and individuals to volunteer. To learn more or sign-up to volunteer, visit www.flintvolunteer.com.
The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations.

Additional information about water response efforts is available at www.michigan.gov/flintwater, by calling United Way's 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

Sent: Monday, February 08, 2016 8:46 PM
To: Lisabeth, Nicole (MSP)
Subject: Monday, Feb. 8 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Michigan partners with Flint human service groups to hire 50 Flint residents to assist with water testing

Flint residents will be hired to assist with water testing under a new partnership forged Friday between the state and Flint human service groups. The partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents this month to fill jobs on teams helping conduct water tests across the city. Details on how to apply are available here.

CBS: Flint residents will be hired to help test water

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 293,809 cases of bottled water
- 104,256 water filters
- 210,596 replacement cartridges
- 35,499 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for

drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Flint Water Daily Update
Updated Feb. 8

Current Issues Talking Points

State partners with Flint human service groups to assist with water testing

- Water testing teams need extra hands to get the job done in a timely manner.
- The new partnership between the state and Flint area organizations - Orchards Children's Services and Flint YMCA's Safe Places Program – will hire and train 50 Flint residents this month to help conduct water tests for their fellow community member across the city.
    - More residents will be hired as more work is identified.
- The partnership is part of a comprehensive effort to help ensure Flint families benefit from both short-term and long-term opportunities created by relief efforts.
- Comprehensive water testing is a necessary step along Flint's road to recovery.
- The health, safety and well-being of Flint families remains a top priority as we work together to ensure progress in the city.
- Free water testing kits are also still available at Fire Stations 1,3,5,6, and 8. Water samples should be returned to the fire stations for testing.
- Until water is declared safe, people should continue to follow established safety protocols.

Governor invited to testify at Congressional Hearing

- The Governor received an invitation to testify at the Democratic Steering and Policy Committee hearing in Washington D.C. next week.
- The Governor has denied the invitation as he will be giving the formal FY 2017 budget presentation the same day in Lansing.
- As part of the budget proposal, the Governor will outline long-term funding efforts to aide in Flint's recovery.
- To date, the state has allocated $37.3 million in emergency funding for Flint.

- The Governor also proposed and the Senate has approved an additional $30 million the city could use to help relieve Flint residents of a portion of their water bill.
    - The $30 million recommendation must also be approved by the House before it going into effect.

FOR IMMEDIATE RELEASE
Monday, Feb. 8, 2016

Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing

Additional residents to be hired as more work is identified

FLINT, Mich. –Flint residents will be hired to assist with water testing under a new partnership forged Friday between the state and Flint human service groups, Gov. Rick Snyder announced today.

The partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents this month to fill jobs on teams helping conduct water tests across the city.

"The people of Flint deserve timely action on emergency efforts to help the city move toward recovery," Snyder said. "We realize our water testing teams need more manpower to get the job done. There is no one better suited to help the city bounce back than Flint residents themselves and we appreciate Orchards Children's Services and the YMCA for helping connect Flint talent with this important positions."

Snyder said this hiring is part of a larger and ongoing effort to ensure Flint residents benefit from

opportunities created by relief efforts in response to the water crisis.

"Orchards Children's Services and the YMCA are committed to serving children and families in Flint as we have done long before this crisis and will do long after," said Michael Williams, president of Orchards Children's Services. "The solution to this situation should involve the people of Flint and that is why we are partnering with the state to strengthen our community for the future."

Details on how to apply are available at http://www.orchards.org.

Updated: 2/9/2016 – ABV

Flint Water Daily Update
Updated Feb. 10

Current Issues Talking Points

Budget Proposal – Supporting Flint Families

- $195 million of the proposed budget will go toward helping Flint families by funding both short and long-term solutions to the water crisis.
    - $37 million to help ensure clean, safe drinking water. This funding will assist with water testing, inspection and replacement of fixtures in schools and daycare facilities, and help the city stay connected to the Detroit Water and Sewerage Department through the end of 2016.
    - $15 million to support food and nutrition funding for families and children. This funding will support school meal programs, mobile food banks and food inspections at food establishments in the county.
    - $63 million for physical, social and educational well-being. This funding will support families with blood testing, early childhood development programs, educational support and home lead abatement.
    - $50 million will be kept on reserve to address the future needs of Flint residents.
    - The remaining $30 million pertains to the recent proposal to help the city of Flint assist residents with covering a portion of their water bill.
        - A typical Flint resident's billing statement includes charges for water and sewer.
        - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
        - Residents would still be responsible for the remaining balance of the water portion of a bill accounting for water used in ways that do not qualify as consumption.
        - Residents would be responsible for covering all sewer costs.
        - This $30 million has been approved in the Senate and awaits approval in the house before it goes to the Governor for his signature.
- *If fully approved, the $195 million will be in addition to the previous $37.3 million in emergency* funding already allocated to the city of Flint, totaling more than $230 million.
- An infographic detailing the above is available here.

Budget Proposal – Statewide Infrastructure

- In his FY 2017 Budget proposal presented today, the Governor called for the creation of a Michigan Infrastructure Fund to support statewide infrastructure needs.
- If approved, there will be a $165 million investment which will be allocated based on projects with the most immediate needs.
- In 2015, Michigan renewed a commitment to fix our roads and bridges, now it's time to focus on the rest of the state's infrastructure.
- Potential projects that could receive a portion of the $165 million include replacement of known high-risk lead and copper service lines, infrastructure upgrades while repairing roads or other utilities, and analysis of statewide infrastructure needs.
- An infographic detailing the above is available here.
- For a copy of the Governor's press release and additional materials visit www.michigan.gov/mibudget.

Flint Water Daily Update
Updated Feb. 10

Current Issues Talking Points

Legionnaires Disease

- Recent comments in the media are inconsistent with the collaboration that has taken place between the Michigan Department of Health and Human Services and the Genesee County Health Department.
- MDHHS takes legionella concerns seriously and has released some of its earliest email conversations between its epidemiologists and the Genesee County Health Department regarding legionella cases.
- The MDHHS partnership with the Genesee County Health Department is central to providing Flint residents with the health resources they need to overcome obstacles in both the short and long terms. They have worked side by side to deliver health services, exchange data and ideas, and to be there for the Flint community.
- In the fall of 2014, the Michigan Department of Health and Human Services was aware of an increase in Legionnaires' disease cases in Genesee County and it was determined that additional support from the state was needed. The state stepped in to offer that support. Within a month, state epidemiologists were actively conducting interviews with cases and medical record reviews to make sure that Flint residents had the joint resources of local and state experts.
- MDHSS is continues to be engaged with environmental health officials on the local and national levels to proactively address the potential for future Legionnaires disease cases.

Budget Proposal today, Feb. 10

- The Governor will give the formal FY 2017-18 budget presentation today, Feb. 10 at 11 a.m.
- As part of the budget proposal, the Governor will outline long-term funding efforts to aide in Flint's recovery.
- To date, the state has allocated $37.3 million in emergency funding for Flint.
    - The Governor also proposed and the Senate has approved an additional $30 million the city could use to help relieve Flint residents of a portion of their water bill.
- The budget presentation is available via livestream at www.michigan.gov/snyderlive.
    - To limit the negative impact on state network speeds, DTMB advises employees to reserve a conference room and watch the presentation in teams rather than individually at their desks.

Flint Mayor calls for immediate replacement of Flint pipes

- In an announcement yesterday, Flint Mayor Karen Weaver called for immediate replacement of Flint's water infrastructure.
- Immediately removing pipes could potentially add to the infrastructure problem and result in higher costs for the city.
- Both Senate Minority Leader Jim Ananich and Virginia Tech water treatment expert Marc Edwards advise first mapping the city's pipes to determine the location of lead infrastructure.
- Edwards also says the state is taking the correct actions to make Flint's water safe again. Adding phosphate to the water to coat the pipes is a necessary first step toward ensuring safe drinking water for Flint residents.
    - Flint's damaged pipes spark debate on fix (Detroit Free Press)
    - Prof. Marc Edwards discusses pipes in Flint (video)
- The Governor continues to work with Edwards and the Flint Water Interagency Coordinating Committee to identify and implement a successful long-term solution for Flint families.

Boil Water Advisory
Frequently Asked Questions

1. Why do I have to boil my water?
A "Boil Water Advisory" has been issued by the City of Flint due to a drop in pressure in the City of Flint water supply. Due to this drop in pressure, bacterial contamination may have occurred in the water system.

Bacteria are not generally harmful and are common throughout our environment. Corrective measures are currently underway to remedy the situation.

2. Should I use bottled water?
Water from an alternative water source is the best option during a "Boil Water Advisory." When bottled water is available, it is a good alternative to boiling water.

3. What is the proper way to disinfect my water so it is safe to drink or prepare other drinks like baby bottles, drink mixes, tea, frozen juices, etc.?
The best method of treatment for those served by the City of Flint Water department is to first filter the water through an NSF-approved water filter. Then, the water must be boiled.

Boiling water kills harmful bacteria and parasites (freezing will not disinfect water). Bring water to a full rolling boil for at least 1 minute to kill most infectious organisms (germs).

For areas without power, disinfect tap water by adding 8 drops, about 1/8 teaspoon, of plain unscented household bleach to a gallon of water. Thoroughly mix the solution and allow the water to stand for 30 minutes.

4. Can I use my coffee maker, ice machine, water or soda dispenser?
Do not use if they are directly connected to your water supply. Use bottled water or water that has been boiled or disinfected for making coffee and ice.

Once you have been notified that the boil water advisory has been lifted, these devices should be cleaned, disinfected and flushed according to the operator's manual for the device.

5. Can I just use my filter instead of boiling water?
No. You must boil the water after you run it through the filter during the "Boil Water Advisory."

6. Can I use tap water to brush my teeth?
No. Do not use tap water to brush your teeth. Use bottled water or water that has been filtered and boiled or disinfected as you would for drinking.

7. How should I wash my hands during a boil water advisory?
Vigorous handwashing with soap and your tap water is safe for basic personal hygiene. However, if you are washing your hands to prepare food, you should use boiled (then cooled) water, disinfected or bottled water with handwashing soap.

8. Is potentially contaminated water safe for washing dishes or clothes?
Yes, if you thoroughly rinse hand washed dishes for a minute in a bleach solution (1 tablespoon bleach per gallon of filtered water). Allow dishes to completely air dry. Most household dishwashers don't reach the proper temperature to sanitize dishes. It is safe to wash clothes in tap water.

9. Is potentially contaminated water safe for bathing and shaving?
The water may be used for showering, baths, shaving and washing, if absolutely necessary, but don't swallow water or allow it to get in your eyes, nose or mouth. Children and disabled individuals should have their bath supervised to make sure water is not ingested. Minimize bathing time. Though the risk of illness is minimal, individuals who have recent surgical wounds, have compromised immune systems, or have a chronic illness may want to consider using bottled or boiled water for cleansing until the advisory is lifted.

10. How should I wash fruit, vegetables, and food preparation surfaces or make ice?
Wash fruit and vegetables with filtered and boiled (then cooled water) or bottled water or water sanitized with 8 drops (about 1/8 teaspoon) of unscented household bleach per gallon of filtered water. Also, use filtered and boiled water to wash surfaces where food is prepared. Ice should be made with filtered and boiled water, bottled water or disinfected water.

11. What do I do with food and drink prepared during the advisory?
Throw away uncooked food, beverages or ice cubes if made or prepared using tap water during the day of the advisory.

12. How does a "Boil Water Advisory" affect feeding my infant?
Mothers who are breastfeeding should continue to breastfeed their babies. Wash and sterilize all baby bottles and nipples before each use. If this is not possible, then single-serve, ready to feed bottles of formula must be used with a sterilized nipple. Always filter and boil water before mixing concentrated liquid or powdered formula. If unable to boil filtered water, water may be disinfected as described for drinking.

13. What if I have already consumed potentially contaminated water?
Even if someone has consumed potentially contaminated water before they were aware of the boil water advisory, the likelihood of becoming ill is low. Anyone experiencing symptoms such as diarrhea, nausea, vomiting, abdominal cramps, with or without fever, should contact their healthcare provider. Symptoms associated with waterborne illness are also associated with foodborne illness, or even the common cold.

14. What infectious organisms might be present in contaminated water?
Illnesses from contaminated water occur principally by ingesting water. The major organisms that produce illnesses are protozoa such as Giardia and Cryptosporidium, and bacteria, such as Shigella, E. coli, and viruses. These organisms primarily affect the gastrointestinal system, causing diarrhea, abdominal cramps, nausea, and vomiting with or without fever. Most of these illnesses are not usually serious or life-threatening except in the elderly, the very young or those with compromised immune systems.

15. Is potentially contaminated water safe for household pets?
The same precautions that are taken to protect humans should be applied to household pets. Fish and other animals living in water should not be exposed to potentially contaminated water. If the animal's water needs to be changed use filtered and boiled or bottled water.

16. What happens after the boil water advisory has ended?
You will be notified by the City of Flint when the boil water advisory has been lifted. Once the boil advisory has been lifted, you must change the cartridge in your water filter. The water filter can then be used with the new cartridge.

17. Where can I get additional information?
www.cdc.gov

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	35
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/09/2016 08:00:00
SEOC Hours of Operation End:	02/09/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 9, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Working with local EOC and found a suitable space for SBA.
- Attended long term recovery meeting.
- Coordinated security needs at Warehouse 2 with local EOC.

JIC:
- Issued a news release about the role of the American Red Cross and United Way in coordinating volunteers.
- Issued a news release about the state's outreach to blind residents to help ensure access to information and resources.
- Shared the updated resource guides for water donations and recycling with 211.
- Held a 2:30 p.m. legislative and congressional conference call involving updates from key state agencies to talk about ongoing operations and activities.

Recovery Branch:
- Attended Local Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings, and Tactics Meeting.
- Completed the Apartment list, finalizing all apartments receiving Flint City Water.
- Team Priority Visited Today: Active Water Subscribers without filters marked vacant.
- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant.
- 10 American Red Cross Teams scheduled for Wednesday, February 10.
- Data is for 2/9/16 as of 5:00 pm:

o Total homes visited:
- 18,529 (round 3 total).
- 440 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 129,012 liters or 10,751 cases (round 3 total).
- 2,676 liters or 223 cases (today).

o Replacement cartridges:
- 3,950 (round 3 total).
- 165 (today).

o Faucet filters:
- 7,283 (round 3 total).
- 57 (today).

Planning Section:
- Published Sit Rep #35.
- Worked with Governor's rep to redevelop Governor's data sheet.
- Updated commodities daily totals.
- Participated in daily meetings, local EOC, state agency briefing, and distribution process meeting.

Operations Section:
- Planning section revising the statistics for an accurate reflection of parcels visited, confirmed, volunteered for testing.
- Long Term Recovery Planning.
- Ensuring State agencies to stay connected with Emergency Coordination Centers.
- Ensuring State workers in the local EOC know their role.
- Participated in Local agency briefing.
- Participated in State Agency Conference call.
- Participated in Distribution Process meeting.

• SEOC State Agency Briefing
• Warehouse Numbers as of 1800:
❑ Water (liters):
• 652,382 liters or 54,365 cases.
❑ Filters (faucet):
• 49,148.
❑ Replacement cartridges:
• 378,410.
❑ Test Kits (prepped):
• 18,642.
• PODs (1700 2/7 – 1600 2/9):
❑ Water (cases):
• 48,984 liters or 4,082 cases.
❑ Filters (faucet):
• 123.
❑ Replacement Cartridges:
• 293.
❑ Test kits:
• 114.

Finance Section:
• Continued to research organizations accepting monetary donations for City of Flint Water emergency and how the funds are utilized
• Continued to develop spreadsheet to track lodging being billed directly to EMHSD for state agency approval of individuals being billed and for accuracy in payment.
• Update weekly financial status reports as data becomes available from state agencies.
GIS Branch Updates:
• Updated Water Test Results.
• Provided food establishment spreadsheet to MDARD.
• Provided filter status vs. contacts made spreadsheets to recovery.
• Coordinated with DNR regarding Sentinel App.
• Provided Filter Status vs. Water Testing Map for SEOC Command.
• Began work on low income map for SEOC Command.
• Published final layers for Team Activity and POD Activity to ArcGIS Online for V1 through V3 Data.

DTMB:
• Continued to provide DTMB management with daily updates and resource requests received.
Contacted DTMB Risk Management regarding injuries at warehouses.
Coordinating equipment delivery for Pierson Road warehouse.

DHHS-CH:
• Discussed concerns from LEOC regarding MDHHS staff accompanying DEQ on home visits. The CHECC contacted the LEOC and confirmed that MDHHS will send one staff member per day (more are available if requested) to serve on the DEQ "Initial Assessment Teams," visiting homes with high levels of lead and/or copper. A pool of MDHHS staff were trained today for this purpose.
• Provided CHECC leadership with information regarding USDA VIP visit from the Food, Nutrition and Consumer Services Deputy, under Secretary Dr. Katie Wilson, who will be visiting Flint tomorrow, to include a stop at a local WIC clinic.
• Confirmed with DEQ that the DEQ laboratory will be open, operational, and able to process Coliform lab analysis from the EPA from Friday through Monday, since the GCHD laboratory will be closed for a furlough, the weekend, and the holiday.

DEQ:
• Continued coordination of Sentinel Sampling Team resources with partner agencies, to begin data collection tomorrow.
• Worked with DEQ lab to assure they are prepared, if necessary, to receive water samples for bacteria testing due to water main break.
• Updated tracking sheet of requested data by Congressional Committee of Energy and Commerce.
• Reviewed upcoming deadlines from EPA Order tracking spreadsheet.
• Coordinated putting together sentinel site teams.

State Voluntary Agency Liaison (VAL):
• Met with FEMA, county and city to develop distribution transition plan.

Unified Coordination Group (UCG):
• Approved IAP #8.
• EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
• MDEQ: Visited every home adjacent to high lead lines.
Visited all homes higher than 15 ppb.
• HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
• HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC:
• Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
• Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
• Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
• Updating IAP to include current work assignments.
• Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and Lead-water levels.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.

8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 9. The JIC was operational until 9 p.m. on Feb. 8.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, Health and Human Services, and Natural Resources. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
• Media hotline staff answered less than 10 emails and phone calls, ranging from inquiries about state costs incurred due to the Flint water emergency to testing dogs for lead toxicity. Media inquiries have continued to decline.
• Created a morning and afternoon media monitoring report.
• Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
• Issued a news release about the role of the American Red Cross and United Way in coordinating volunteers.
• Issue a news release about the state's outreach to blind residents to help ensure access to information and resources.
• Shared the updated resource guides for water donations and recycling with 211.
• Continued updating and revising internal and general talking points to better reflect ongoing information.
• Continued routing public information materials for approval, including a newsletter article from the Michigan Department of Corrections and a Lead Toxicity fact sheet from MDARD.
• Continued discussions on drafting a news release to announce high-lead and copper teams that are beginning operations this week.
• Continued to post information on the www.michigan.gov/flintwater website, especially facts sheets and fliers in Spanish, Arabic, Mandarin Chinese and other languages.
• Held a 2:30 p.m. legislative and congressional conference call involving updates from key state agencies to talk about ongoing operations and activities.
• Revised staffing needs for next two-week period to reduce number of PIOs needed. Working to have staffing for February 16 – 26 by Thursday.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/9/16 included:
• 2 food establishment assessments conducted (both follow-up) and 2 in use water samples collected
• 5 water sample requests/appointments were scheduled
NOTE: There was a break in the water main at the Flint Water plant, so staff were unable to collect the majority of planned water samples today.

As of 2/8/16, MDARD has completed a total of 331 food establishment assessments (263 initial/68 follow-up). 231 establishments are verified to be in compliance (70%). All high and medium risk firms have had an initial assessment. 196 water samples have been collected and 137 are currently scheduled. Data is now being auto-calculated, resulting in reduction in total assessments reported on 2/5/16, but is now a more accurate count of total assessments.

The food establishment list with assessment, sampling and test results has been combined and mapping activities are underway.

MDARD has a conference call on February 10th at 8:30 am with stakeholder groups, including MSU, MDHHS and Genesee County to provide an update on current lead testing plans for dogs and to explore funding options and other assistance to provide additional testing.

The keep your pet safe from lead poster was posted on the FlintWater website (attached). A veterinarian guidance document was finalized today and will be posted as soon as possible.

American Red Cross (ARC)

The American Red Cross deployed 10 Water Response Teams on Tuesday, 2/9/16, to attempt contact at those residences where no one had yet answered the door.

The Volunteer Reception Center (VRC) was in operation today, from 9am to 5pm. The VRC will be operating from 9-5 again on Wednesday.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Reviewed foreign languages documentation.

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

Discussed concerns from LEOC regarding MDHHS staff accompanying DEQ on home visits. The CHECC contacted the LEOC and confirmed that MDHHS will send one staff member per day (more are available if requested) to serve on the DEQ "Initial Assessment Teams," visiting homes with high levels of lead and/or copper. A pool of MDHHS staff were trained today for this purpose.

Provided CHECC leadership with information regarding USDA VIP visit from the Food, Nutrition and Consumer Services Deputy

Under Secretary Dr. Katie Wilson, who will be visiting Flint tomorrow, to include a stop at a local WIC clinic.

MDHHS held a conference call with the Michigan Pharmacist Association and other community pharmacy members to discuss the potential role of pharmacies in the Flint response efforts. Options will be explored in regards to blood lead testing, communications, and nutritional counseling.

Confirmed with DEQ that the DEQ laboratory will be open, operational, and able to process Coliform lab analysis from the EPA from Friday through Monday, since the GCHD laboratory will be closed for a furlough, the weekend, and the holiday.

Corrections (MDOC)

MDOC continued operations at both warehouses with warehouse 2 opening as scheduled. All PODs were well supplied during the entire operational period.

MDOC continues to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

MDOC had 14 employees on the ground in Flint today.

In an effort to reduce overtime costs we are working on completing a critical staff review. All dedicated resources will be reviewed to determine if it is feasible to reduce staffing in lieu of volunteers wherever possible.

We are working with Finance and MDOC assets to capture total employee payroll information and expenditures.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued coordination of Sentinel Sampling Team resources with partner agencies, to begin data collection tomorrow

Worked with DEQ *lab to assure they are prepared, if necessary, to receive water samples for bacteria testing due to water main* break.

Updated tracking sheet of requested data by Congressional Committee of Energy and Commerce.

Reviewed upcoming deadlines from EPA Order tracking spreadsheet.

Coordinated putting together sentinel site teams .

Briefed updated Incident Objectives to reflect activities for the upcoming week.

Human Services (MDHS)

Looking into filtration system for a child care institute, possibly through donation.

Donation details being entering into MI CIMS.

211 reporting that the number of calls related to Flint was down to 10.5% for Feb 1 - Feb 7.

Daily update conference call with MDHHS Budget & Field Operations.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team
LARA completed mapping at the International Academy of Flint and created a materials list.
LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
Translation services for various documents continue to be provided as needed.
Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 0913002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:Ssg Gazzeny, Darryl L. Cell: (517) 582-4816 Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 65 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 65 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. POD 5 has two generator lighting units from MDOT. All PODs now have sufficient lighting.

1. Fuel cans and the utilization of station 5 fuel pump is being requested through city of Flint liaison.

b. 4 Detroit Piston players will be purchasing food and visiting the POD Soldiers in appreciation of their assistance to Flint.

b. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, will be seeking approval from CPT Bowles and Dana and/or Kim at the purchasing office for laminating.

8. PERSONNEL: 65 Soldiers are currently assigned to the POD operations.58 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Water main at Dort highway near I475 has broke causing massive flooding. Water has been shutoff in respected areas therefore increasing water request at POD locations.

10. LOGISTICS: In support of TF Flint

a. The order for a pallet of rock salt from the state purchasing office should arrive at warehouse COB 09Feb2016.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• OUT (last 24 hours)
Bottled water-6422 Water (Gallons)1160 Lead Testing Kits-250
Pitcher (23 cup)-0 Brita Faucet Filter-134 Brita Replacement Cartridge-190
Pur Filter-52 Pur Replacement Filter-255

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

DEQ contacted MSP reference providing telephone numbers for approx. 400 residences in Flint for Sentinel site sampling efforts. DEQ was advised MSP is unable to provide information.
****Valencia Jones - SEOC OPS Public Safety MSP - jonesv4@michigan.gov at 14:58:30 on 2/8/2016****

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

Contacted DTMB Risk Management regarding injuries at warehouses.
Coordinating equipment delivery for Pierson Road warehouse.

Transportation (MDOT)

Providing staff to Pierson Rd. warehouse.

Providing 2 portable light tower generators to Fire Station #5 on Western Rd.

Providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 (3' x 5') standard signs (2 each site)
-100 grabber traffic cones (narrow reflective cones) (50 each site).

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

SEOC Hours of Operation End:	02/09/2016 20:00:00

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on *December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.*

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the *distribution system and reduce the leaching of lead into the water supply.*

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.

9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 9. The JIC was operational until 9 p.m. on Feb. 8.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, Health and Human Services, and Natural Resources. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
• Media hotline staff answered less than 10 emails and phone calls, ranging from inquiries about state costs incurred due to the Flint water emergency to testing dogs for lead toxicity. Media inquiries have continued to decline.
• Created a morning and afternoon media monitoring report.
• Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
• Issued a news release about the role of the American Red Cross and United Way in coordinating volunteers.
• Issue a news release about the state's outreach to blind residents to help ensure access to information and resources.
• Shared the updated resource guides for water donations and recycling with 211.
• Continued updating and revising internal and general talking points to better reflect ongoing information.
• Continued routing public information materials for approval, including a newsletter article from the Michigan Department of Corrections and a Lead Toxicity fact sheet from MDARD.
• Continued discussions on drafting a news release to announce high-lead and copper teams that are beginning operations this week.
• Continued to post information on the www.michigan.gov/flintwater website, especially facts sheets and fliers in Spanish, Arabic, Mandarin Chinese and other languages.
• Held a 2:30 p.m. legislative and congressional conference call involving updates from key state agencies to talk about ongoing operations and activities.
• Revised staffing needs for next two-week period to reduce number of PIOs needed. Working to have staffing for Feb. 16 – 26 by Thursday.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/9/16 included:
• 2 food establishment assessments conducted (both follow-up) and 2 in use water samples collected
• 5 water sample requests/appointments were scheduled
NOTE: There was a break in the water main at the Flint Water plant, so staff were unable to collect the majority of planned water samples today.

As of 2/8/16, MDARD has completed a total of 331 food establishment assessments (263 initial/68 follow-up). 231 establishments are verified to be in compliance (70%). All high and medium risk firms have had an initial assessment. 196 water samples have been collected and 137 are currently scheduled. Data is now being auto-calculated, resulting in reduction in total assessments reported on 2/5/16, but is now a more accurate count of total assessments.

The food establishment list with assessment, sampling and test results has been combined and mapping activities are underway.

MDARD has a conference call on February 10th at 8:30 am with stakeholder groups, including MSU, MDHHS and Genesee County to provide an update on current lead testing plans for dogs and to explore funding options and other assistance to provide additional testing.

The keep your pet safe from lead poster was posted on the FlintWater website (attached). A veterinarian guidance document was finalized today and will be posted as soon as possible.

American Red Cross (ARC)

The American Red Cross deployed 10 Water Response Teams on Tuesday, 2/9/16, to attempt contact at those residences where no one had yet answered the door.

The Volunteer Reception Center (VRC) was in operation today, from 9am to 5pm. The VRC will be operating from 9-5 again on Wednesday.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. *Maintaining media awareness regarding situation and community activities. Reviewed foreign languages documentation.*

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

Discussed concerns from LEOC regarding MDHHS staff accompanying DEQ on home visits. The CHECC contacted the LEOC and confirmed that MDHHS will send one staff member per day (more are available if requested) to serve on the DEQ "Initial Assessment Teams," visiting homes with high levels of lead and/or copper. A pool of MDHHS staff were trained today for this purpose.

Provided CHECC leadership with information regarding USDA VIP visit from the Food, Nutrition and Consumer Services Deputy Under Secretary Dr. Katie Wilson, who will be visiting Flint tomorrow, to include a stop at a local WIC clinic.

MDHHS held a conference call with the Michigan Pharmacist Association and other community pharmacy members to discuss the potential role of pharmacies in the Flint response efforts. Options will be explored in regards to blood lead testing, communications, and nutritional counseling.

Confirmed with DEQ that the DEQ laboratory will be open, operational, and able to process Coliform lab analysis from the EPA from Friday through Monday, since the GCHD laboratory will be closed for a furlough, the weekend, and the holiday.

Corrections (MDOC)

MDOC continued operations at both warehouses with warehouse 2 opening as scheduled. All PODs were well supplied during the entire operational period.

MDOC continues to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

MDOC had 14 employees on the ground in Flint today.

In an effort to reduce overtime costs we are working on completing a critical staff review. All dedicated resources will be reviewed to determine if it is feasible to reduce staffing in lieu of volunteers wherever possible.

We are working with Finance and MDOC assets to capture total employee payroll information and expenditures.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued coordination of Sentinel Sampling Team resources with partner agencies, to begin data collection tomorrow

Worked with DEQ lab to assure they are prepared, if necessary, to receive water samples for bacteria testing due to water main break.

Updated tracking sheet of requested data by Congressional Committee of Energy and Commerce.

Reviewed upcoming deadlines from EPA Order tracking spreadsheet.

Coordinated putting together sentinel site teams .

Briefed updated Incident Objectives to reflect activities for the upcoming week.

Human Services (MDHS)

Looking into filtration system for a child care institute, possibly through donation.

Donation details being entering into MI CIMS.

211 reporting that the number of calls related to Flint was down to 10.5% for Feb 1 - Feb 7.

Daily update conference call with MDHHS Budget & Field Operations.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team
LARA completed mapping at the International Academy of Flint and created a materials list.
LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
Translation services for various documents continue to be provided as needed.
Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 0913002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:Ssg Gazzeny, Darryl L. Cell: (517) 582-4816 Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 65 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 65 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. POD 5 has two generator lighting units from MDOT. All PODs now have sufficient lighting.

1. Fuel cans and the utilization of station 5 fuel pump is being requested through city of Flint liaison.

b. 4 Detroit Piston players will be purchasing food and visiting the POD Soldiers in appreciation of their assistance to Flint.

b. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, will be seeking approval from CPT Bowles and Dana and/or Kim at the purchasing office for laminating.

8. PERSONNEL: 65 Soldiers are currently assigned to the POD operations.58 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Water main at Dort highway near I475 has broke causing massive flooding. Water has been shutoff in respected areas therefore increasing water request at POD locations.

10. LOGISTICS: In support of TF Flint

a. The order for a pallet of rock salt from the state purchasing office should arrive at warehouse COB 09Feb2016.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• OUT (last 24 hours)
Bottled water-6422 Water (Gallons)1160 Lead Testing Kits-250
Pitcher (23 cup)-0 Brita Faucet Filter-134 Brita Replacement Cartridge-190
Pur Filter-52 Pur Replacement Filter-255

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

DEQ contacted MSP reference providing telephone numbers for approx. 400 residences in Flint for Sentinel site sampling efforts. DEQ was advised MSP is unable to provide information.
****Valencia Jones - SEOC OPS Public Safety MSP - jonesv4@michigan.gov at 14:58:30 on 2/8/2016****

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

Contacted DTMB Risk Management regarding injuries at warehouses.
Coordinating equipment delivery for Pierson Road warehouse.

Transportation (MDOT)

Providing staff to Pierson Rd. warehouse.

Providing 2 portable light tower generators to Fire Station #5 on Western Rd.

Providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 (3' x 5') standard signs (2 each site)
-100 grabber traffic cones (narrow reflective cones) (50 each site).

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Flint Water Daily Update
Updated Feb. 8

Current Issues Talking Points

State partners with Flint human service groups to assist with water testing

- Water testing teams need extra hands to get the job done in a timely manner.
- The new partnership between the state and Flint area organizations - Orchards Children's Services and Flint YMCA's Safe Places Program – will hire and train 50 Flint residents this month to help conduct water tests for their fellow community member across the city.
    - More residents will be hired as more work is identified.
- The partnership is part of a comprehensive effort to help ensure Flint families benefit from both short-term and long-term opportunities created by relief efforts.
- Comprehensive water testing is a necessary step along Flint's road to recovery.
- The health, safety and well-being of Flint families remains a top priority as we work together to ensure progress in the city.
- Free water testing kits are also still available at Fire Stations 1,3,5,6, and 8. Water samples should be returned to the fire stations for testing.
- Until water is declared safe, people should continue to follow established safety protocols.

Governor invited to testify at Congressional Hearing

- The Governor received an invitation to testify at the Democratic Steering and Policy Committee hearing in Washington D.C. next week.
- The Governor has denied the invitation as he will be giving the formal FY 2017 budget presentation the same day in Lansing.
- As part of the budget proposal, the Governor will outline long-term funding efforts to aide in Flint's recovery.
- To date, the state has allocated $37.3 million in emergency funding for Flint.
    - The Governor also proposed and the Senate has approved an additional $30 million the city could use to help relieve Flint residents of a portion of their water bill.
        - The $30 million recommendation must also be approved by the House before it going into effect.

Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources

Flint, Mich. – The Bureau of Services for Blind Persons (BSBP) is working to ensure Flint's blind community has access to all information and resources related to the Flint water emergency.

"We have made direct contact with all of the bureau's blind clients who live in Flint to ensure they have the resources they need and we will continue to provide assistance to any Flint resident who is blind or visually impaired," said BSBP Director Edward Rodgers.

Bureau staff contacted nearly 40 BSBP clients living in Flint by either home visit or phone to ensure they had access to all health-related water emergency information and to offer assistance in obtaining bottled water, filters, water replacement cartridges and water testing kits.

Information is available in braille by contacting the bureau. Flint residents who are blind or visually impaired and need further assistance or information should contact Sue Luzenski at the BSBP at Luzenskis@michigan.gov or 517-335-4265.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information about water response efforts is available at www.michigan.gov/flintwater, by calling United Way's 211 or visiting www.helpforflint.com.

For more information about the BSBP, visit www.michigan.gov/bsbp or call 1-800-292-4200, TTY 888-864-1212.

American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint

FLINT, Mich. – Since early January, over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency. Volunteers are coordinated through the Volunteer Reception Center, operated jointly by the American Red Cross and United Way of Genesee County. These volunteers have performed numerous tasks throughout the community from delivering water resources door-to-door to assembling water test kits.

"We have had volunteers of all ages from all different backgrounds come forward to help," stated Sarah Lewan, community volunteer manager. "We have processed more than 200 groups of varying sizes, including corporate groups, social groups and concerned citizens."

Volunteers are utilized at a variety of community organizations to provide assistance with water distribution, warehousing, data entry and assembly of water test kits. The volunteers give whatever time they can, whether it is a couple of hours or availability for several days.

There are opportunities for additional groups and individuals to volunteer. To learn more or sign-up to volunteer, visit www.flintvolunteer.com.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations.

Additional information about water response efforts is available at www.michigan.gov/flintwater, by calling United Way's 211 or visiting www.helpforflint.com.

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 10, 2016
Release #: 34

State Launches New Streamlined Services for Residents

New Testing Sites Help Confirm Water Quality

FLINT, Mich. – This week the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (MDHHS) initiated new initiatives to engage residents in a more in-depth level of data collection that will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

Starting today, 10 Sentinel Site teams consisting of representatives from the DEQ, along with licensed plumbers, will begin to visit 402 identified residential sites across the city to teach homeowners how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing.

Geographically dispersed across all nine wards, these sites will be established for ongoing lead and copper monitoring and will be resampled periodically to help determine when the drinking water advisory may be discontinued. This testing regimen calls for resampling every two weeks for an additional four, two-week cycle.

"These Sentinel Sites are an important step in helping us achieve a higher level of data analytics on the quality of the water," said Keith Creagh, Director of the DEQ. "The data collected will help us determine when and where corrosion control treatment has been effective."

Also launching today is a more streamlined system of addressing residences that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

"As soon as we see that a household's water level tests high for lead or copper, this new automatic protocol kicks in, beginning a series of measures to get people the health-related services they need faster," said Dr. Eden Wells, chief medical executive with the MDHHS. "While many of these residents have had outreach from county and state agencies since last fall, this new system creates a timeline and multi-agency organizational structure so that services can be provided in a more cohesive manner."

MORE

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at www.michigan.gov/flintwater
- Test results greater than 150 ppb are emailed to MDHHS
- All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
- **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
  - Health and wellness information
  - Off-site blood test referral
  - Assists with transportation support for appointments, as necessary
  - Provides additional bottled water, filters and water sample kits
- **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
  - Water testing and sampling information
  - Water sample collection
  - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator cleanout, filter check)
  - Provides additional bottled water, filters and water sample kits

Unlike lead, there is a safe level of copper. Everyone comes into contact with it every day and copper is essential for good health, but for homes with elevated copper levels, individuals are being instructed to use bottled water for drinking and cooking.

People's bodies require copper for normal functioning, and at different amounts depending on age, and whether a women is pregnant or breastfeeding. Ingesting high levels of copper can cause nausea, vomiting and diarrhea.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater, by calling United Way 211 or visiting www.helpforflint.com.

To: Lisabeth, Nicole (MSP)
Subject: Monday, Feb. 15 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Help keep your kids safe

The foods we prepare and serve to our families can help limit the effects of our kids' exposure to lead.

You should serve children foods that are rich in calcium, vitamin C, and iron to help keep lead from being stored in a child's body.

For food assistance for low-income Flint residents, contact WIC at 810-237-4537. You can apply for SNAP food assistance at www.michigan.gov/mibridges.

If you think your child is at risk for lead exposure, please contact your primary care doctor or the Genesee County Health Department by dialing 810-257-3612.

Click here for more helpful tips.

Gov. Rick Snyder seeks federal waiver to expand Medicaid services in Flint to people under age 21 and pregnant woman

If this request is approved, it would mean an expansion of Medicaid and Children's Health Insurance Program services to about 15,000 more Flint residents.

Those eligible for coverage include anyone up to the age of 21 and pregnant women and their future children.

Additional information about water response efforts is available at www.michigan.gov/flintwater, by

calling United Way's 2-1-1 or visiting www.helpforflint.com.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 321,117 cases of bottled water
- 105,604 water filters
- 214,300 replacement cartridges
- 35,570 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1

FOR IMMEDIATE RELEASE
Sunday, Feb. 14, 2016

Editor's note: See attached for official letter and waiver request.

Gov. Rick Snyder seeks federal waiver to expand Medicaid services in Flint to people under age 21, pregnant women

Request would ensure access to needed health services

LANSING, Mich. – Gov. Rick Snyder is seeking to expand Medicaid for those up to age 21 and pregnant women who have been served by the city of Flint's water system, and today submitted a request to the Centers for Medicare and Medicaid Services.

"Children, teens and young adults exposed to lead need more coverage to get testing and the treatment they need," Gov. Rick Snyder said. "Expanding these services and lead abatement efforts will mitigate the risks of lead exposure and result in better identifying any long-term health challenges, including behavioral issues."

Approval of the waiver request would mean an expansion of Medicaid and Children's

Health Insurance Program services to about 15,000 more Flint residents.

In his letter, Gov. Snyder said the state of Michigan would dedicate case managers to help individuals with:

- Coordinating primary care physicians and behavioral health providers, Medicaid health plans and others to ensure access to all necessary health services;
- Providing nutrition support;
- Improving access to educational and social supports and services that may be available in the community to assist them with their individual needs.

The program would meet the needs of Flint's children, in addition to many other forms of aid being provided by the state of Michigan, the city of Flint and others. Medicaid and CHIP now are primarily income-based aid programs.

Those eligible for coverage include anyone up to the age of 21 and are being served, or who were served, by Flint's water system between April 2014 and a future date when the water system is deemed safe. Pregnant women and their future children will also be made eligible. Coverage is available to all incomes. Individuals with income over 400 percent of the federal poverty level - which is $47,520 for one person or $97,200 for a family of four - will have the option to buy into the program for full Medicaid benefits.

The state of Michigan continues to coordinate response efforts in partnership with the all federal, state, and local levels of government and community organizations.

Additional information about water response efforts is available at www.michigan.gov/flintwater, by calling United Way's 2-1-1 or visiting www.helpforflint.com.

Subject: *Sunday, Feb. 14 update from the Flint Water Response Team*

This daily update is being issued in order to provide the latest information regarding actions and available resources.

How to recycle your bottled water

Republic Services, the city's designated trash and recycle collector, picks up recyclables on a bi-weekly basis.

Call Republic Services at **800-438-0966** to get a blue curbside recycling bin delivered to your door. Residents with overflow recyclables can also place them in clear plastic bags or a box marked "Recycling.

Click here for more information about recycling in Flint, and please share this graphic on your social media accounts.

Consumer alert for Flint residents

Unfortunately, scam artists see tragedies like the Flint water crisis as opportunities to take advantage of those in need. These scammers also look to exploit the sympathy of donors to steal donations or fraudulently to obtain consumers' sensitive financial information.

To avoid falling victim to con artists, click here to read a helpful list of tips.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

BRIAN CALLEY
LT. GOVERNOR

February 13, 2016

Ms. Victoria Wachino, Director
Center for Medicaid and Chip Services
Centers for Medicare and Medicaid Services
7500 Security Boulevard
Mail Stop: S2-01-16
Baltimore, Maryland 21244-1850

Dear Ms Wachino:

The State of Michigan hereby submits a demonstration application, pursuant to Section 1115 of the Social Security Act, to address issues related to lead exposure in the impacted areas of Flint, Michigan.

The waiver request has three aims: (1) to expand Medicaid and Children's Health Insurance Program eligibility for select individuals (i.e. children up to age 21 and pregnant women) in the impacted area; (2) to coordinate comprehensive benefits and resources through the provision of Targeted Case Management services; and (3) to provide a mechanism for expanded lead abatement activities in the impacted area. Approval of this demonstration will expand access to health care, case management and other supportive services and is necessary to minimize and further prevent any long-term adverse health effects associated with lead exposure.

We appreciate the assistance both you and your colleagues at the Centers for Medicare & Medicaid Services have already provided, and look forward to working together to achieve our mutual goal of improving the health and well-being of Michigan's citizens.

Sincerely,

Rick Snyder
Governor

Enclosure

A Medicaid Waiver Request to Assist in Addressing Health Impacts from Potential Lead Exposure in Flint, Michigan, Pursuant to Section 1115 of the Social Security Act

February 13, 2016

State of Michigan

Rick Snyder, Governor

Nick Lyon, Director
Michigan Department of Health and Human Services
201 Townsend Street
Lansing, MI 48913

I. Overview

The State of Michigan, through its Department of Health and Human Services (MDHHS), hereby submits the following request for a waiver pursuant to Section 1115 of the Social Security Act. The purpose of this waiver request is to address potential lead exposure in the impacted areas of Flint, Michigan as further described herein.

This request has three aims: (1) to expand Medicaid and Children's Health Insurance Program (CHIP) eligibility for select individuals in the impacted area; (2), to coordinate comprehensive benefits and resources for these individuals through the provision of Targeted Case Management services; and (3) to provide a mechanism for expanded lead abatement activities in the impacted area. Although measures have been taken to address the public health issues brought about by this emergency, obtaining proper health care, case management and other assistance is necessary to minimize and further prevent any long-term adverse health effects associated with lead exposure.

II. Section 1115 Waiver Request

A. Expansion of Medicaid and CHIP Eligibility for Impacted Individuals

MDHHS proposes to suspend or alter existing eligibility requirements to provide Medicaid eligibility for select individuals who are served by the Flint water system or were served by the Flint water system. The requirements to be modified and the target population are described below.

1. Eligible Individuals: Eligible individuals include residents of Michigan who meet one of the following criteria:

    - Those individuals up to age 21 who are served by the Flint water system or were served by the Flint water system between April 2014 and the date on which the Flint water system is deemed safe by the appropriate authorities. This would include any children born to the pregnant women described below.
    - Those individuals who are served by the Flint water system and are pregnant between the date of approval of this waiver request and the date on which the Flint water system is deemed safe by the appropriate authorities.

2. Income and Asset Standards: An income standard of 400 percent FPL would be applied, using MAGI-based methodologies. No asset test would be applied. Individuals up to age 21 and pregnant women with household income above 400 percent FPL could buy in to unsubsidized coverage under the program.

3. Annual Renewals: MDHHS will use an electronic passive renewal process to redetermine the eligibility of those found eligible under this waiver. The renewals will occur at least once in each twelve month eligibility period. Income and residency will be verified. Those who are found ineligible through the electronic process will be given an opportunity to provide paper verification. In addition, any individual who has already been determined eligible for a Medicaid category and is served by or has been served by the Flint water system during the above mentioned period will maintain their current eligibility according to the rules described

above. However, these individuals may be reevaluated using the modified standards if they lose their eligibility at any time before the Flint water system is deemed safe by the appropriate authorities.

4. Duration of Eligibility: Those determined eligible based on the above criteria will retain full Medicaid eligibility according the following schedule:

   - Pregnant Women: The duration of the pregnancy and during the two calendar months post-delivery.
   - All others: Until the age of 21.

5. Benefits

   Eligible beneficiaries described above will receive the full array of State Plan benefits. This includes the provision of Early and Periodic Screening, Diagnostic and Treatment Services (EPSDT) for children up to age 21, Non-Emergency Medical Transportation (NEMT) and Maternal Infant Health Program services.

6. Delivery System

   The State will utilize its existing delivery systems to provide Medicaid benefits to eligible individuals. Individuals will be enrolled in the Medicaid Health Plans, consistent with the State's approved §1915(b) waiver. Populations that are considered voluntary or exempt from enrollment into a Medicaid Health Plan (e.g., Native Americans, beneficiaries who have other Health Maintenance Organization or Preferred Provider Organization coverage, etc.), will remain a voluntary or exempt population from managed care under this demonstration.

   Behavioral health services and related specialty supports will also be provided to eligible individuals through the State's existing Prepaid Inpatient Health Plan system in accordance with the Medicaid State Plan and any relevant waiver authorities. The services provided under this demonstration will be coordinated with existing case management services as appropriate.

7. Cost-Sharing

   Michigan does not impose any cost sharing for individuals under 21 or pregnant women under the state plan. Cost-sharing for eligible individuals described above will be consistent with the Medicaid State Plan. Children under age 19 covered under MIChild (the state's title XXI-funded Medicaid expansion program, with income between 160 – 212% of the FPL) are charged a premium under the state plan. However, individuals subject to this waiver will be exempt from all premiums. Children who are currently eligible for the MIChild program and are served by or have been served by the Flint water system as described in Section II A will also be exempt from premiums for the duration of their eligibility.

B. Targeted Case Management

In addition to the benefits described above, the State plans to offer Targeted Case Management (TCM) Services to all children and pregnant women served by the Flint water system who have

been determined eligible for Medicaid. For the purposes of this demonstration, TCM services are defined as services furnished to assist these individuals within the target population in gaining access to needed medical, social, educational, and other services. The State will provide face-to-face TCM services in a manner consistent with 42CFR 441.18 and 42 CFR 440.169 through a Designated Provider Organization (DPO), as defined below.

1. Target Population

   For the purposes of this demonstration, the target group includes all children who are newly eligible pursuant to Section II A, as well as all Medicaid eligible children (up to 21) served by the Flint water system.

2. Delivery System

   As noted above, the State will provide TCM services through DPOs. For the purposes of this demonstration, a DPO is any provider who has been approved by the State (in coordination with community leaders and stakeholders in the impacted area) and meets the following qualifications:

   - Is currently enrolled as a Michigan Medicaid Provider;
   - Can demonstrate the capacity to provide all core elements of TCM, including comprehensive assessment and care plan management, as well as linking, coordination and long-term monitoring of services;
   - Has a sufficient number of staff to meet the service needs of the target population and the administrative capacity to ensure the provision of quality services in accordance with State and Federal requirements;
   - Has experience in the coordination and linkage of community services; and
   - Has the willingness and capabilities to coordinate with the individual's Medicaid Health Plan, as applicable.

3. DPO Staff Qualifications

   The DPO will provide TCM services primarily through the use of a case manager. The case manager must meet one of the following criteria:

   - Licensure as a Registered Nurse by the Michigan Department of Licensing and Regulatory Affairs and at least one year of experience providing community health, pediatric or maternal of infant health nursing services; or
   - Licensure as a Social Worker by the Michigan Department of Licensing and Regulatory Affairs and at least one year of experience providing social work services to families.

   With active participation by the beneficiary, case managers will be required to provide comprehensive TCM services consistent with 42 CFR 440.169, which includes but is not limited to: performance of a comprehensive history, assessment, and reassessment of the individual; the development and ongoing management of an individualized plan of care, including identification of goals and actions; the provision of ongoing communication with

the individual's primary care physician and health plan (as applicable); coordination of health care and related community support services, including physical and behavioral health-related services (i.e. Medicaid health plans and community mental health services programs), nutritional support and age appropriate referrals to Early On, Great Start Readiness Programs and Head Start; and referral to and assistance in obtaining additional social supports, including financial, housing and transportation assistance, and lead assessment and abatement resources.

C. Lead Abatement

The State also seeks enhancement and expansion of its current lead abatement program through the use of a designated state health program model. As part of this expansion, the State would provide abatement services to homes in the impacted area. Abatement services are defined as the removal of lead hazards, including:

- The permanent enclosure or encapsulation of lead based paint,
- The replacement of surfaces or fixtures, the removal or covering of soil lead hazards, and
- All preparation, cleanup, disposal, and post-abatement clearance testing activities associated with such measures.

Individuals performing abatement services must be properly certified by the state. MDHHS also requests funding to train individuals in lead abatement.

III. Goals and Objectives

Through the provision of direct health care services as part of expanded eligibility, and the inclusion of TCM services, along with the provision of lead abatement activities, the State expects to do the following:

- Identify and address any physical or behavioral health issues associated with actual or potential exposure to lead hazards.
- Mitigate lead hazards in the impacted area through the provision of expanded lead abatement activities, which will result in a reduction in the number of individuals experiencing potential lead exposure.

As part of this demonstration, the State will test the following hypotheses:

- Providing expanded eligibility under this waiver will allow for enrollees to have access to services to identify and address physical or behavioral health issues associated with lead exposure.
- Providing Targeted Case Management services will allow for enrollees to receive assistance in gaining access to needed medical, social, educational, and other service.
- Providing enhancement and expansion of the lead hazard removal program will reduce the potential for ongoing or re-exposure to lead hazards.

To test these hypotheses, the State will utilize the following evaluation measures:

- Utilization of services for waiver enrollees including but not limited to access to primary/preventive services, lead screening, well-child visits, behavioral health services.
- Utilization of TCM services including but not limited to the number of waiver enrollees served, types of referrals provided.
- Number of homes in the designated area in which lead hazard removal has occurred.

IV. Enrollment and Financial Information

The State anticipates approximately 15,000 individuals will be eligible for the group described in Section II A. In addition, approximately 30,000 individuals in the impacted area are currently enrolled in Medicaid.

V. Cost-Effectiveness and Budget Neutrality

The Medicaid Eligibility Group (MEG) and associated amounts listed in the table below in conjunction with the amount calculated in paragraph (B) constitute the budget neutrality limit for the target population.

MEG	DY 1 – PMPM	DY 2 – PMPM	DY 3 – PMPM	DY 4 – PMPM	DY 5 – PMPM
Target Population	$446.83	$449.35	$469.07	$484.60	$500.93

A. The PMPM amounts detailed in the table above represent estimated total computable costs for the full array of State Plan benefits and Targeted Case Management Services for the target population. If the state's experience of the take up rate and other factors that affect the costs of this population indicates that the PMPM limit above may underestimate the actual costs of State Plan benefits and Targeted Case Management Services for the target population, the state may submit a PMPM adjustment for CMS review and approval without submitting a formal waiver amendment.

B. In addition to the PMPM amounts above, the budget neutrality amounts will be increased to include the total computable costs of lead abatement services for the target population in the impacted area. These costs will be incurred in a manner which utilizes existing state administrative infrastructure and lead abatement programs. The non-federal share of these costs will be limited to resources appropriated by the state for the express purpose of lead abatement in the impacted area. Amounts associated with this paragraph will be reported to CMS on an annual basis for inclusion in the overall budget neutrality limit for the target population.

C. The State requests Title XXI funding be made available for the population made eligible by this waiver and all lead abatement activities described herein.

VI. Waivers and Expenditure Authorities

MDHHS seeks waiver of the following requirements of the Social Security Act:

- Eligibility §1902(e)(14) -- To the extent necessary to eliminate the income and asset test and modify redetermination requirements for eligible individuals as described herein.
- Comparability §1902(a)(17) or § 1902(a)(10)(B) - To the extent necessary to provide the benefits described in this demonstration request to those individuals who meet the criteria described herein.
- Cost-Sharing §1902(a)(14) insofar as it incorporates Sections 1916 and 1916A, and § 2103(e) - To the extent necessary to waive premiums in the State's MIChild program for those individuals impacted by this demonstration.
- Freedom of Choice §1902(a)(23) - To the extent necessary to allow the State to limit those entities providing Targeted Case Management services under this demonstration.
- Statewideness §1902(a)(1) - To the extent necessary to allow the State to carry out the demonstration as described herein.
- Amount, Duration, and Scope of Services -Section 1902(a)(10)(b) - To the extent necessary to allow the State to provide a benefit package to the demonstration population that differs from the State Plan benefit package.

VII. Public Notice and Tribal Consultation Process

Given that this request is intended to address an emergency, as declared by the President on January 16, 2016, the State seeks an exemption from the public notice process pursuant to 42 CFR 431.416(g). However, the State does intend to seek input from the public as well as various stakeholders as part of the waiver development and implementation process, and has already issued some information through a press release as the State developed this proposal.

Given the expedient nature of this emergency request, the State also requests modification of the tribal consultation process. The State is submitting a letter to the Tribal Chairs and Health Directors in concert with the submission of this request, which will notify them of this proposal. MDHHS expects to schedule a conference call with the Tribal Chairs and Health Directors to discuss the waiver application, seek consultation and answer any questions.

VIII. Implementation Timeline

The State anticipates a phased approach to implementation upon approval of the demonstration.

The State also plans to engage in targeted outreach efforts to reach the individuals described in Section IIA as well as those in the impacted area who are currently eligible. This may include, but is not limited to, increasing the availability of application materials and related support services in the impacted area and providing State eligibility specialists in schools, health care facilities and other community locations to assist with the application process. The State also expects to pursue a streamlined application process for individuals who may be eligible under this demonstration.

IX. Expedited Renewal

Given the possible long-term risks from potential lead exposure, the State requests that upon expiration of the waiver, an expedited renewal process will be granted.

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

Subject: RE: Draft Volunteer plan

Individuals (spontaneous volunteers) will go through the Community VRC at the Red Cross (open 9am – 7pm). They have requested that people attend in person. 211 will continue to sit as a phone entry point for multiple details re: Flint water recovery. They would direct people to go to the Red Cross for spontaneous volunteering, and are the appropriate number to list for this level of volunteerism.

For groups, as of yesterday, Victoria Fryer was to be the PoC for group interest: victoria.fryer@redcross.org. She works at the Mid-MI ARC. We are confirming a phone number they want listed for those inquiries (that 313 number is a Wayne county number, and it appears to be a cell from what I can gather – I'm not sure if that's correct, but it may be her cell).

Hi Ginna,

So I was just asked by OPs copied here on "how to volunteer " information.
My understanding is they are looking for ways individuals can volunteer, and the process for groups to volunteer. They are looking to provide this for a press release, so I'm sending to you to ensure it is accurate. We need ASAP.

Thanks
Richard

Subject: Draft Volunteer plan

This is the draft plan that Chad created.

He is waiting for contact information from United Way.

At this point, Red Cross does not have a phone number for the peple to call in. They have provide an email address.

We are working with them to determine web presence and if there is a phone number for someone to call - maybe an AmeriCorps member could serve in this role. But at this point, they understandably do not want to be flooded with calls.

We will update when we get more information. Please make requests for additional information to be added - and make recommendations for edits.

We want to talk about what number to list when people have questions. We do not want a number publicized for MCSC at this point. I would like to discuss how we can manage phone calls.

Subject: Re: OT

Hi Nicole

Shanon is not eligible for overtime but the exception is running through the process now. Hopefully it will be through for this pay period still. If not we'll have to do an adjustment. I'll have Nancy see if she can help it move.

We'll get coding to Nicole for timekeeping.

Thanks
Penny

Subject: FW: Flint, MI Social Listening Report 1/15/16 1900 EST

FYI

Flint, MI Social Listening Report 1/15/16 1900 EST

This report includes analysis for External Affairs information requirements of social media data including but not limited to FEMA public perception issues, rumor control and public sentiment.

Conversations about FEMA:

- Conversation surrounding FEMA and the federal government's response to the crisis primarily focuses on the request for federal assistance submitted by Governor Snyder to FEMA late last night (Example 1, Example 2). News articles (Example 1, Example 2) cite that FEMA and the White House will review the request "as expeditiously as possible." A small number of users are expressing their displeasure about how much time it has taken for the request to be submitted and decided on. (Example 1, Example 2)

Public Sentiment:

- **Political Tensions:** Social media users continue to express their anger and insist that the Governor be held accountable (Example 1, Example 2) for whatever involvement he may have had in the events leading up to and during the crisis. Michigan's Attorney General has begun an investigation into the handling of the situation—to "determine what, if any, of Michigan's laws were violated in the process that resulted in the contamination crisis." (Source 1, Source 2) Some community organizers continue trying to coordinate protests. With the impending 2016 election and campaigns ramping up, users are taking to blaming party politics on both sides of the aisle (Example 1, Example 2, Example 3, Example 4).

- **Public Mistrust:** A video published to YouTube yesterday from an untrusted source that discusses the Flint office break-in around December 25 is being shared by several users. The video is being shared mostly without commentary. The video states that documents pertaining to the water situation may have been stolen at that time—as they were housed in that office. Local news sources (Source 1, Source 2) have reported that it is unclear whether or not these documents were actually stolen and that the investigation is ongoing.

- **Water Safety and Legionnaires' Disease:** Much of the conversation today has been concerning the potential link between an outbreak of Legionnaires' Disease in the area and the current state of Flint's water. (Example 1, Example 2) The volume of this conversation has increased since yesterday.

- **National Media Attention:** This issue continues to receive widespread national media attention on social media. The Washington Post, on its Wonk Blog, shared graphics demonstrating how dangerous Flint's water's lead levels are, with data coming from the Virginia Tech study. Social media users have been shocked by the findings of the graphics and expressed displeasure (Example 1, Example 2).

Hi Nicole,

Captain Kelenske called this morning and asked that we have news release templates ready to go for when a decision is made about the presidential declaration request.

During the Southeastern Michigan Flooding Disaster, I wrote four news release templates based on the outcome of the decision. It sounds like the outcome will rhyme with that disaster. Please see the attached for reference.

Subject: Re: Media Information

Thank you Michelle for the introduction.

Nicole,
I wanted to alert you to an article that was in the Lansing State Journal. It said that people were heading to flint this weekend to drop off water at the fire stations and other locations.

The Commission is tasked with supporting the volunteer management and donations management for the state. My Director of Communications Jessi Adler is the one who found the article.

I would like to recommend that a heads up be given to the Fire Stations and that they should accept the donations. They can then instruct the people that the community has set up donation sites for water and then ask if they could get the word out as to those locations. I am attaching the donations management plan and you can determine the best way to provide this communication.

In addition, I was wondering if you thought it would be good for one of you to contact the reporter and so he does not continue to provide the wrong locations.

I have copied Jessi Adler, my Communications Director. She is the one who found the article. She can assist you if that would help.

I am the Executive Director of the MCSC and we are the lead agency for volunteerism for the state and in times of disaster are called in to assist with the efforts. We have a Governor appointed Commission and work closely with the MSP to support efforts. I have three staff who are in Flint that are helping with the effort.

I will be sending you the donations management plan and volunteer plan but for this issue the following is the information that we have worked out with the local partners. THere is one change in time that I will send you as soon as I get it. I was alerted that one of the sites is 10 am to 7 pm. But I wanted to get you the information and so you were aware.

Let us know what you think is the best way to handle this and Michelle will get the word out to the fire stations.

Thank you for your assistance.

Ginna

Donations Management Plan - for Materials

II. Material and In-Kind Donations

When donation arrangements have been made, Wendy and Pam will be sent and email alert by Janet.

A. Donation List

- Materials: Water – individual bottles, gallon jugs, and larger.
- In-Kind: Labor to install filters, trucks to deliver materials
  Donors should be directed to Janet Hunter HunterJ8@michigan.gov
  Internal Phone to provide to donors not for publication: cell 989-763-9421

B. Publicize Items to Donate

- The donation list will be sent to partners to post with their networks and post on state, county, and city sites and social media
- Donation items and drop off locations will be listed in a press release.
- Press releases will inform public of donation opportunities
- Government organizations and community partners will be asked to post on their web-sites and social media
- 211 will have all information to share with those who contact them
- Additional information requests for donating can be directed to the Michigan Community Service Commission, Janet Hunter HunterJ8@michigan.gov

B. Warehouse Location – Drop off Location for Large Donations of Water

- A warehouse location to store surplus of donations is located at: 4315 Clio Rd, Flint, MI
  Refer interested donors that have more than one semi truck of water to Janet Hunter HunterJ8@michigan.gov (Internal Phone, not for publication: cell 989-763-9421)

C. Public Drop off locations of Water

- Donations will be tracked at the sites.
- Inventory and burn rates will be tracked to identify need for donations.
- Small Water Donations: – cases and pallets 100 cases or less deliver to:

  Monday - Friday 9:00 am - 4:00 pm Catholic Charities Center for Hope 517 E. Fifth Ave

  Saturday -Sunday 9:00 am – 4:00 pm Red Cross 1401 Grand Traverse

- Large Water Donations – 100 cases or more, one Semi Truck

  Monday - Friday 8:00 am - 4:30 pm Food Bank of Eastern Michigan 2300 Lapeer Rd

  810-239-4441 If Food Bank receives donations offers of more than one semi truck or if they are full, they will refer donor to Janet Hunter to make arrangements to donate to the warehouse.

Hi Jeanette
2 options
I spoke with Marie the manager at the Edgewood store as our rep hasn't returned out call yet. She spoke with the manager at the Flint store.

Option 1: The person can go to the Flint store and have them call Renee Osborne at 517-322-5519 to get permission to use the account. If someone is going to access our account I'm sure Renee would appreciate knowing who is going ahead of time so she can approve it. I appreciate the fact that Gordon's is being a little particular as we do want our account to stay secure. Renee is only working until 5 pm.

Option 2: Have them take this tax exempt form and just use their Visa and they wouldn't need our account at all.

I would think the second option would be the least amount of hassle anytime they want to go.

Thanks
Michelle

Hi Michelle!

Could you order the following from the Flint GFS store?

30 cup coffee maker
1 case of coffee
1 case of 12 oz Styrofoam cups
12 tubes of sugar
2 boxes of coffee stirrers

Please reply to this email if you are able to place the order and when it will be available for pickup. Could you let them know that we will be exchanging a 30 cup coffee maker from our purchase on 1/24/16 that does not work?

Thank you!

Subject: RE: Gordon Order

I have pre-approval for the state employee to come in and show their ID this one time and use our account. If they need to do this again they would need to get prior approval again. If they have any issues they can ask for Justin the store manager. We just need to make sure our account is secure.

Hope this works for you. I know she has the receipt for the coffee maker to exchange it and the manager said that wouldn't be a problem. That receipt does have our account number on it should they ask. Please make sure she keeps that receipt secure and sends me the cash register receipt so I can attach it to the invoice for payment.

If there are any other issues they can call Renee Osborne at 517-322-5519 who is the one on the account or myself at 517-284-3977.

Thank You
Michelle

Can we pay for the order over the phone? The employee in Flint does not have a p-card.

Hi Jeanette
2 options
I spoke with Marie the manager at the Edgewood store as our rep hasn't returned out call yet. She spoke with the manager at the Flint store.

Option 1: The person can go to the Flint store and have them call Renee Osborne at 517-322-5519 to get permission to use the account. If someone is going to access our account I'm sure Renee would appreciate knowing who is going ahead of time so she can approve it. I appreciate the fact that Gordon's is being a little particular as we do want our account to stay secure. Renee is only working until 5 pm.

Option 2: Have them take this tax exempt form and just use their Visa and they wouldn't need our account at all.

I would think the second option would be the least amount of hassle anytime they want to go.

Thanks
Michelle

Hi Michelle!

Could you order the following from the Flint GFS store?

30 cup coffee maker
1 case of coffee
1 case of 12 oz Styrofoam cups
12 tubes of sugar
2 boxes of coffee stirrers

Please reply to this email if you are able to place the order and when it will be available for pickup. Could you let them know that we will be exchanging a 30 cup coffee maker from our purchase on 1/24/16 that does not work?

Thank you!

I agree, Michelle. Option 2 definitely sounds like the best way to do this—particularly since Option 1 would not have anything in writing.

STATE OF MICHIGAN
DEPARTMENT OF TREASURY
LANSING

RICK SNYDER
GOVERNOR

ANDY DILLON
STATE TREASURER

Michigan Sales or Use Tax Single Purchase Certificate of Exemption Sales to the State of Michigan

Issued under authority of Section 4h of the General Sales Tax Act, MCL 205.54h

The State of Michigan is exempt from sales and use taxes imposed on its purchases of tangible personal property, or use tax imposed on its purchases of certain services taxed under the Use Tax Act (MCL 205.93a), being telecommunications, rooms or lodging, laundering or cleaning of textiles, and transmission and distribution of electricity.

NOTE: A vendor or contractor who provides a service of constructing, altering, repairing or improving real estate for the State of Michigan shall pay sales or use tax on the cost of materials affixed to the real estate in performance of those services. Tax is due on the cost of materials affixed to real estate regardless of whether the materials are purchased or owned by others, including the State of Michigan itself. Specific limited exemptions exist for non-profit hospitals, church sanctuaries, non-profit housing qualifying under Section 15a of 1966 PA 346 (MCL 125.1415a), etc.

The purchaser may claim a tax exemption at the time of purchase by providing the seller with this signed statement that the purchaser represents a governmental entity.

Purchaser's Certification

I, the undersigned purchaser, certify that the tangible personal property being purchased is not for resale, is paid for with government funds, and is used in connection with the operation of the governmental entity named below.

We have received your inquiry regarding vendor services for the Flint Water Emergency.

To ensure all inquiries are received, please contact either of the following:

If this inquiry is to inquire about donation, please email Flintdonations@michigan.gov.

If this inquiry is to inquire about providing vendor services, please email DTMBECC@michigan.gov.

Thank you for your support and interest in the Flint Water response.

LANDSTAR

Emergency
Transportation Services

Dear Logistics Chief,

We can help!

T. Renée Osborn of the Emergency Management and Homeland Security Training Center Michigan State Police said to contact you:

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide **Clean Potable Drinking Water** public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply in Flint. We can strategically position Tanks around the city to support both public facilities & the local residential communities.

Tankers

- 6500 Gallon Capacity
  - Potable Water

Please see attached for your Landstar Contact List (24/7/365) John [illegible]

Thank you,

John

LANDSTAR

Emergency
Transportation Services

Dear Logistics Chief,

We can help!

T. Renée Osborn of the Emergency Management and Homeland Security Training Center Michigan State Police said to contact you:

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide **Clean Potable Drinking Water** public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply in Flint. We can strategically position Tanks around the city to support both public facilities & the local residential communities.

Tankers

- 6500 Gallon Capacity
  - Potable Water

Please see attached for your Landstar Contact List (24/7/365) John

To: Gilsdorf, Michelle (MSP)
Subject: FW: GFS invoices/receipts

Hi Michelle,

I spoke again with Dennis, at the Okemos GFS, and he couldn't read the information. All he knew was that it was going to Flint.

Hi Michelle,

I called the Okemos GFS and spoke with Dennis; he will check with the Sunday manager and get back with me tomorrow. Dennis said that this could have accidentally been put on our account, but since he doesn't know, he will definitely look into this further.

Hi Michelle,

I can't read the signature either and it isn't ours. Sounds as though I'll need to do some investigating. I don't understand the "Paid in Full – VISA" either, nor do I understand the MP Location, which indicates Okemos. Hopefully, our GFS rep is available so I can talk with him.

Hi Renee
I don't think the first invoice on here is ours. Can't make out the signature? As far as I know we didn't purchase 6 sugars and creamer etc. If it's not yours I will check with Joyce. I put the bottom one in for payment already. Not sure I understand the first one as it says paid in full visa?

Subject: LANDSTAR EMERGENCY TRANSPORTATION SERVICES - DISASTER RELIEF - FLINT MI WATER SUPPLY
Importance: High

LANDSTAR

Emergency
Transportation Services

Dear Sirs,

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide clean Potable Drinking Water public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply.

Tankers

- 6500 Gallon Capacity
  - Potable Water

Please see attached for your Landstar Contact List (24/7/365) John ___ ___ ____

Thank you,

John

Hi Renee

I authorized DTMB to use the Gordon's account to purchase water for taking to Flint. Same with Jodie. If you can send the invoices to me when you get them I'd appreciate it.

Michelle G. will probably continue to keep the SEOC stocked with supplies as needed.

Thanks
Penny

Joyce—

Attached are two receipts that were signed and faxed here; one signed by Jodie Frese for $488.95 worth of water, and another signed by Sean Dennison (?) for $537.12 worth of water. I looked up Sean Dennison in Outlook and found that he is with DTMB, so my question is did he have permission to use this account also?

In any case, what needs to be done is for Jodie or whomever to obtain one of the other secretaries' stamps and write in their appropriate information:

Vendor ID:

Mail Code: 000

Commodity Code: 375-15

Index: ?

PCA: ?

COBJ: 6245.

Hi Joyce,

What you need to do is get a stamp from one of the other secretaries and write in not only your Index and PCA, but also the following:

Vendor ID:

Mail Code: 000

Commodity Code: 375-15

Your Index

Your PCA

COBJ: 6245.

Hope this helps.

MSP-SEOC_GOVERNOR

From: FEDERALSEOC
Sent: Tuesday, February 16, 2016 4:54 PM
To: MSP-SEOC_GOVERNOR
Cc: MSP-SEOCGIS; plangc
Subject: *Apartment Info*

During what we are calling the "3rd Round" of door to door distribution, we tasked the American Red Cross with visiting every apartment complex in Flint. The data we received back on paper tracking sheets was reported last night as well as the information from MSHDA on filters given to the residents of the complexes they oversee.

Because the paper data was not completed by the volunteers the same way for every unit – we provided what we knew to be true. This does not mean that the apartments were not visited or do not have a filter, as the resident may not have been home, received a filter in one of the other canvassing "rounds" or picked one up at a POD. We only count confirmed "contacts" in our totals, not "visits" as we were more concerned about whether or not our teams were able to provide a resident with a filter. Not all tracking sheets noted if the resident was home or not. *For example: in a 20 unit complex, only 7 people answered the door so the visit count was only 7 if the tracking sheet did not list the unit numbers for those who were not home. The 14 other units should have received a door hanger with contact and resource information related to the Flint Water Emergency.*

GIS was working on pulling any apartment info from the ArcGIS App and relating it to the complex addresses so we can take in to consideration the visits from the first 2 rounds of distributions.

Thank you,
Recovery Branch

Here is the most current log I have. As of yesterday evening, all "Priority 1" homes have had at least one attempted home visit. We have four new homes on our "Priority 1" list that are being visited today.

We will work with you and Linda to update our home visit protocol as discussed during our meeting today.

Please let me know if you have any questions.

Thank you,

Matt

Cc: MSP-EOC-MDCH; MDEQ-ECC-IMT
Subject: 924 Barney - High Lead Response

On Feb 9, 2016 a sample for 924 Barney was received at the state laboratory. The analytical results were provided to the SEOC and others on Feb 11, 2016 at 5:15P. The typical time frame for sample analysis from receipt to result is 48 hours. The SEOC DEQ desk forwarded the result to the local EOC on Feb 11, 2016 at 5:39pm. The High Lead/Copper Team comprised of DEQ/DHHS/Licensed Plumber made contact with the homeowner on Feb 12, 2016 where a plumbing inspection, cleansing of aerators and flushing of lines was provided. The homeowner was provided two additional test kits and a bus pass to assist with travel to a clinic for blood testing. The laboratory has not received additional samples from this address to date. The High Lead/Copper Team is visiting with the resident again today.

A collector App will be developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.

Subject: Home Visit Schedule for 2/17/2016

Good morning,

Below is a list of the homes to be visited on 2/17/2016. These two locations should be supplemented with lead priority 1 homes that were identified this weekend but not visited on 2/16/2016.

Additionally, the following items are attached:

- **Updated log:** This includes data combined from the DEQ, GCHD, and EPA. The "Overview Dashboard" tab provides some summary data about the water testing.
- ***Home visit check-off sheet***
- **Printed info materials provided to the residents including a "sorry we missed you" letter in case someone isn't home**

I am proud to be able to assist the great work the Genesee County Health Department does. Please feel free to contact me with any concerns, questions, or feedback!

Best,

Subject: Home Visit Schedule for 2/18/2016

Good morning,

After speaking to Mary Boulton yesterday, it sounds like the Genesee County Health Department has at least attempted to visit and left a hanger with GCHD contact information at all Lead Priority 1 homes. Great work! Due to the county servers being down, I have not received the updated logs recording these visits so they are not reflected in the attached Water Tests Results Log. Once I have the data, I will revise the log accordingly.

Since there were no new Lead Priority 1 homes identified yesterday, the below list of Lead Priority 2 homes can be addressed. This is a long list of homes so it is likely that not all homes will be visited today.

Additionally, the following items are attached:

- **Updated log:** This includes data combined from the DEQ, GCHD, and EPA. The "Overview Dashboard" tab provides some summary data about the water testing.
- **Home visit check-off sheet**
- **Printed info materials provided to the residents including a "sorry we missed you" letter in case someone isn't home**

I am proud to be able to assist the great work the Genesee County Health Department does. Please feel free to contact me with any concerns, questions, or feedback!

Best,

Rosemary Pearson-Clarke

Hi,

I have received the round one sampling results from a source outside this group, but I have not received anything from DEQ. Would you please send me the sampling results when you receive them?

Thank you.

Nat

Thanks, Julia. Is there a reason why the header information is not included for the one very high lead/copper test?

SEOC Report for: February 16, 2016

Full Days Since Emergency Declaration: 42

Items to Note

- Commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief taking over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- IC coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

RE: Home Water Lead Test Results

Dear Homeowner/Resident:

Sorry that we missed you. We were here to follow-up with you about the results of your home's water lead test. The results are included in this information packet. We hope to talk with you about your water results and be available to answer questions that you may have.

If you have any health concerns, please contact your primary healthcare provider. If you don't have a healthcare provider or have questions about your water quality, please contact us at (810) 257-3603.

Thank you,

Genesee County Health Department

Genesee County Health Department

Frequently Asked Questions About Lead in Flint Water

MDHHS
Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a NSF-approved filter.
  - Find a NSF-approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
  - If you use City of Flint water, you can call 211 to find out where you can pick up a free water filter.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:

Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.

In The Kitchen

Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning

You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

In the Bathroom

Use filtered tap water for:

- Brushing kids' teeth

You can use unfiltered tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets

Use filtered tap water for:

- Pets' water bowls

You can use unfiltered tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home

Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

www.michigan.gov/lead

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Department at:

1-810-787-6537

To find out if you can get a free water filter, please call 211.

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

FLINT WATER RESPONSE TEAM www.michigan.gov/flintwater

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered water to shower or bathe, but don't allow water to get in kids' mouths.
- Studies reviewed by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat food sources of iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

SOURCES OF IRON INCLUDE:

- Lean red meats, fish, chicken
- Cereals with added iron
- Dried beans and lentils

SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Calcium fortified orange juice
- Leafy green vegetables such as kale or turnip greens

SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers
- Potatoes

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In addition to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

Keeping Your Home Lead-Safe

Clean Your Aerators

MDHHS
Michigan Department of Health & Human Services

What can you do to keep your home lead-safe?

- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets. You can have your water tested to see if it has lead in it.
- Replacing old pipes, service lines, and faucets is the best way to limit the lead in your tap water. New pipes, solder, and faucets should meet EPA lead-free standards.
- If you can't replace your pipes and faucets, please use an NSF-approved filter for all water that you drink or cook with. You can get a filter that attaches to your sink faucet or you can use a pitcher with a filter inside it. If you live in Flint, call 211 to find out where you can get a free faucet filter, replacement filter cartridges, or a water filter pitcher.

For bathrooms or other places where you don't have a filter:

When pipes are old, they break apart more easily. Sometimes pipes break completely; sometimes they just get new cracks. This can cause bits of lead pipe to end up in our home's water. There are screens - called aerators - on our faucets that sometimes stop the larger pieces from coming out. Aerators do help us save water - so it's good to have them - but cleaning them once in awhile is a way to limit the lead that could end up in your water.

Follow the steps below to learn how to clean your aerators:

1.

- The little round thing on the bottom of your faucet is the aerator (pronounced: *air-raytor*).
- Unscrew the aerator from the bottom of the faucet.
- You should be able to unscrew it with your fingers, but you might need a wrench if it's really stuck.

2.

- Your aerator might not look exactly the same as this, but it's OK.
- Now that you have it off, let's get started!

3.

- While you really only need to use water to rinse off your aerator parts, if you have these things around, they might make it easier:
  - An old toothbrush
  - A glass of vinegar

4.

- Soaking the aerator in vinegar will help loosen up some of the grime. You can leave it in as long as you want, but even just 5 minutes will help.
- The toothbrush makes it easy to scrub out the inside. Just don't use that toothbrush for brushing your teeth again!

5.

- If your aerator looks like Photo A, it has a flow control piece in it. You'll have to take it apart:
  - Pull out the pieces carefully.
  - Note the order that the pieces come out. Take a picture or write down some notes. You'll have to put them back in at the end in the same way!
- If it looks like Photo B, then you're good to go to Step 6.

6.

- You might not have all of these pieces. They might not be this color. Every aerator is a little different. Just clean what you have.
- Scrub all of the pieces. Make sure you really get down inside the metal piece, removing any bits of grime or metal flakes you can see.

7.

- Rinse everything very well.
- Run the water through the aerator screen - holding it right side up and upside down.

8.

- Once it's clean,
  - If your aerator looks like Photo A up above, put it back together.
  - If it looks like Photo B, you're all set.

9.

- Put your aerator back on your faucet.
- Repeat these steps every couple of weeks. This will make sure pieces of lead and other metal from any pipes aren't getting stuck in your faucet and possibly putting lead into your water.

Questions? For more information call MDHHS at 1-800-648-6942.
To request a free or low-cost water test, please call the Flint Water Plant at: 1-810-787-6537.

Report To: (

System Name/Owner:
Collection Address:
Collected By:
County: Genesee
Sample Point: KITCHEN

Date Collected: 02/15/2016
Date Received: 02/16/2016

TESTING INFORMATION

Metal	Result In Parts Per Billion (ppb)
Copper	640
Lead	243

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

TESTING INFORMATION

Metal	Result In Parts Per Billion (ppb)
Copper	Not detected
Lead	4

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

TESTING INFORMATION

Metal	Result In Parts Per Billion (ppb)
Copper	Not detected
Lead	Not detected

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

TESTING INFORMATION

Metal	Result In Parts Per Billion (ppb)
Copper	650
Lead	Not detected

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

Sample Point: KITCHEN

Date Collected: 02/15/2016
Date Received: 02/16/2016

TESTING INFORMATION	
Metal	**Result In Parts Per Billion (ppb)**
Copper	**Not detected**
Lead	**2**

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

TESTING INFORMATION	
Metal	**Result In Parts Per Billion (ppb)**
Copper	**Not detected**
Lead	**1**

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

TESTING INFORMATION

Metal	Result In Parts Per Billion (ppb)
Copper	Not detected
Lead	2

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

TESTING INFORMATION

Metal	Result In Parts Per Billion (ppb)
Copper	Not detected
Lead	Not detected

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", that means the amount of copper in the water was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

If your Lead result is greater than 150 ppb OR your Copper result is greater than 1,300 ppb:

- Contact the Genesee County Health Department at (810) 257-3603 (if you have not already been contacted)
- Use only bottled water for drinking, cooking and washing fruits and vegetables.

Please note, other faucets in your home may have higher levels of lead, even if this sample was low. Do not drink or cook with water from other faucets unless they have been tested and have a filter.

Everyone can use unfiltered tap water for washing your dishes and clothes, and for cleaning your house. You can also shower and give kids baths in unfiltered tap water, but keep kids from getting the bath water in their mouths. No amount of Lead is safe for kids.

TESTING INFORMATION

Metal	Result In Parts Per Billion (ppb)
Copper	Not detected
Lead	Not detected

What the Results Mean: The result tells you how much lead and copper is in the water

- If the result for Copper is "Not Detected", *that means the amount of copper in the water* was less than 50 ppb.
- If the result for Lead is "Not Detected", that means the amount of lead in the water was less than 1 ppb.

No matter what your lead result is, you should continue to use an NSF certified filter until the Public Health Emergency Declaration has been lifted.

- Filtered or bottled water should be used for all drinking, cooking and washing of fruits and vegetables.
- Filtered or bottled water should also be used for children brushing their teeth and for watering pets.

Important: For children younger than 12 months of age, use *only* bottled water to make formula, for drinking water, and to make any other food product.

Subject: RE: Daily Governor's Report

Can you please send this to Dr. Scott, Linda Scott, Eden Wells, and Kathy Wahl please?

I didn't want to forward it on behalf of the SEOC.

Dr. Lurie has made a request to see health data in a graph format and they would like to see this product.

Thanks

Subject: Apartment Info

During what we are calling the "3rd Round" of door to door distribution, we tasked the American Red Cross with visiting every apartment complex in Flint. The data we received back on paper tracking sheets was reported last night as well as the information from MSHDA on filters given to the residents of the complexes they oversee.

Because the paper data was not completed by the volunteers the same way for every unit – we provided what we knew to be true. This does not mean that the apartments were not visited or do not have a filter, as the resident may not have been home, received a filter in one of the other canvassing "rounds" or picked one up at a POD. We only count confirmed "contacts" in our totals, not "visits" as we were more concerned about whether or not our teams were able to provide a resident with a filter. Not all tracking sheets noted if the resident was home or not. *For example: in a 20 unit complex, only 7 people answered the door so the visit count was only 7 if the tracking sheet did not list the unit numbers for those who were not home. The 14 other units should have received a door hanger with contact and resource information related to the Flint Water Emergency.*

GIS was working on pulling any apartment info from the ArcGIS App and relating it to the complex addresses so we can take in to consideration the visits from the first 2 rounds of distributions.

Thank you,
Recovery Branch

Attached is the apartment tracking information as requested. Also attached is a list we received of MSHDA operated apartments. Please disregard the color coding as this list is not the most recent – I am trying to track down the email which stated they had all been visited and given a filter by MSHDA.

Thank you,

Carly - Recovery Branch

SEOC Report for: February 16, 2016

Full Days Since Emergency Declaration: 42

Items to Note

• Commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.

• Southern Baptist Disaster Relief taking over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.

• IC coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	14
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/19/2016 08:00:00
SEOC Hours of Operation End:	01/19/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 19):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA to order water and filter cartridges.
o Worked with DHHS to order filter pitchers for distribution.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide relief teams for warehouse manager.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.

- JIC
o Shared water activity map with Media last night and this evening.
o Issued news release concerning donations.
o Worked with FEMA external affairs to schedule Legislative and Congressional call for tomorrow.
o Comcast has put filter installation video on the On Demand section.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Wednesday and Thursday.
o Confirmed team typing for Flint Water Resource Teams.
o Sent out 5 type 3 and 10 types 5 teams to canvass today.

o Data is for 1/19/16 as of 5:00 pm:
o Total homes visited.
❑ 22,129 (total).
❑ 2,715 (today).
o Door Hangers.
❑ 9,851 (total).
❑ 1,163 (today).
o Water Cases.
❑ 6,103 (total).
❑ 789 (today).
o Replacement Cartridges.
❑ 3,795 (total).
❑ 322 (today).
o Faucet Filters.
❑ 7,394 (total).
❑ 730 (today).

- Planning Section.
o Published Sit Rep #14.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Updated staff assignments for the Planning group.
o Identified staff to assist with data entry of daily Red Cross field team worksheets.
o Worked with FEMA to clarify data reporting method and schedule.
o Participated in daily SEOC briefings and distribution process conference calls.

- Operations Section
o Facilitated daily SEOC briefing calls.
o Held logistics meeting with FEMA in reference to resources available and need for ordering.
o Held logistics meeting in reference to National Guard deployment.
o 71 American Red Cross Volunteer active across incident today.

o Warehouse Numbers:
ɔ Whole warehouse being inventoried, numbers will be available at 0800 tomorrow morning.
o Point of Distribution (as of 6 pm)
ɔ Contacts.
• 1,822.
ɔ Water (cases)
• 9,559.
ɔ Filters (faucet)
• 1,409.
ɔ Replacement Cartridges
• 534.
ɔ Filters (pitcher)
• 89.
ɔ Test kits
• 1,127.

• Finance Section.
o Continue to revamp spending plan and cost tracking.
o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
o Meet with FEMA IMAT about Public Assistance.

• GIS Branch Updates.
• Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
• Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
• Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
• Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
• Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
• Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
• Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
• Received tasker for updating app for Phase II of team deployments.
• Fixed accounts for iPad's that were failing in the field and brought them back online.
• Coordination continued with U of M Flint.

DTMB:
• Drivers have been extended through Saturday to support the canvassing efforts.
• Working on securing space in the flint office building for FEMA staff.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint.
• Discussed with SAMSA to talk about grants available and the DBH hotline.
• Ordered EPA pamphlets concerning nutrition plan for distribution.

DEQ
• 7,200 sample bottles delivered today and 7,200 more coming in tomorrow.
• 14,000 sample bottles will be delivered tomorrow.

Local EOC Update:
• Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
• Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
• Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
• Developed SitRep #9.
• Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Pushed the 1/18 water activity map on social media.
- Issued news release #09 regarding donations.
- Posted social media content regarding donations.
- Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.

• Updated daily internal talking points and general talking points.
• Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running Monday, Jan. 18., although it may take a couple of days for all cable boxes to receive the updated content.
• Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
o Topics being covered included:
□ Democratic debate mention by Hillary Clinton
□ Flint as Governor Snyder's Hurricane Katrina
□ Class-action lawsuits filed today against the state
□ State of the State speculation – Flint water plan
□ President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) – that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
• Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the

local Emergency Operations Center and provide for water test kits for their use.
• Facilitated logistics for bottle delivery and water test kit assembly.
• Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
• Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
• Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher– Model #ZD-018
Zero 8 cup pitcher– Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
. at Joint Information Center
at PODS
. Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 1o January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had 5 police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have 10 patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.
Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) – that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare

providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
- Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the local Emergency Operations Center and provide for water test kits for their use.
- Facilitated logistics for bottle delivery and water test kit assembly.
- Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
- Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
- Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher-- Model #ZD-018
Zero 8 cup pitcher– Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
, at Joint Information Center
' at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 1[illegible] January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had 5 police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.

Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

SEOC Report for February 14, 2016

Full Days Since Emergency Declaration: 40

Items to Note

• There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.

• National Guard mission has been extended through 3/16/2016.

• SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist.

• Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams. NCCC will complete their volunteer mission on 2/15/2016 and Southern Baptists will begin their mission on 2/16/16. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection.

SEOC Report for: February 18, 2016

Full Days Since Emergency Declaration: 44

Items to Note

- US Department of Health and Human Services will be visiting Fire Station #5 POD today.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams will be visiting the final three mobile home parks today and 34 identified homes.

Attachments: Apartment List_02092016.pdf

Here is the latest data we have on apartments

From: FEDERALSEOC
Sent: Tuesday, February 09, 2016 7:16 PM
To: MSP-SEOC_GOVERNOR
Cc: Kelenske, Chris (MSP); Katarsky, Anthony (MSP)
Subject: City of Flint Apartment List

Sir,

As requested, the list showing all known apartments in Flint is attached. The below is a summary of the data and an explanation of the sources.

The list in the attachment includes all apartment complexes in the City of Flint that the Recovery Branch has been able to identify based upon available information. The list is as complete as possible based upon our knowledge, skills, and the existing data.

- We conclude that there are 5,799 apartment units in Flint.
  - This does not include apartment buildings and complexes that are currently unoccupied, nor does it include houses that may have multiple units, or apartment complexes outside the boundaries of the City of Flint that do not receive Flint water.
- There are an additional 545 units on Flint water that are part of a complex that is a franchise customer.
- We used a variety of sources in compiling this list, including data from the City of Flint, the Flint Housing Commission, the Michigan State Housing Development Authority, the United States Department of Housing and Urban Development, and private sources such as Apartments.com.
  - In addition to data sources, we deployed a team from the Department of Corrections to verify the status of several complexes. The team found several apartment complexes abandoned and made contact with residents of the occupied complexes.

Please let us know if you have any questions or concerns with this list.

Thank you,

SEOC Recovery Branch

Subject: Blood Test Questions

After reviewing the 2/2 situation report, the Governor's Office has the following questions:

- " on closer inspection I see we have tested about half of children ages 1 and higher. Do we have data on non-Medicaid enrolled children?
- In the children that tested> 5 ug/dl- what are their actual blood levels and has anyone tested > 45 ug/dl (treatment level)
- What is plan for follow up testing?
- What is plan for developmental testing and follow up?

Thanks,

Ben Geiger

Subject: Re: Blood Lead Data

Ben,

The most current data was provided to the planning section this evening for the nightly report, to include the tables that we looked at together tonight in the SEOC. In the future, if the Governor would like MDHHS to mirror a different format similar to the table you showed me, I'm sure we can accommodate that request.

The report that Nat sent earlier was developed for MDHHS executive leadership and then posted by the JIC to the website. I believe that report will start being updated weekly as well.

If you would like any additional information or clarification please feel free to contact Dr. Jackie Scott, the Director of the Bureau of EMS, Trauma, and Preparedness, at [redacted].

Thank you,
Jennifer Lixey Terrill

Subject: RE: Today's Lead Results Greater Than 100 ppb

Mitch:

Let's upload today's water test results into a map. We need to include this map in the Governor's briefing.

- City divided into zip codes
- Data points placed on parcels to indicate the following:
  - Results over 15ppb
  - Results over 30ppb
  - Results over 100ppb
  - Results over 150ppb
  - Results over 500ppb

Thanks,
Ben

Subject: Today's Lead Results Greater Than 100 ppb

Per the attached from the DEQ lab, today we had 3 results above 100 parts per billion (ppb):

Lead	1,234 ppb	[illegible] ST	FLINT,48503
Lead	115 ppb		[illegible], 48503
Lead	1,231 ppb		Flint, 48503

These numbers will be included in the spreadsheet that gets posted to the web this evening.

SEOC Report for February 10, 2016

Full Days Since Emergency Declaration: 36

Items to Note

• Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
• MDEQ implemented Sentential Sampling Program today.
• The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
• 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
• In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
• The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
• SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

SEOC Report for February 9, 2016

Full Days Since Emergency Declaration: 35

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Michigan Department of Health & Human Services

RICK SNYDER, GOVERNOR | NICK LYON, DIRECTOR

Michigan Department of Health and Human Services (MDHHS) Blood Lead Level Test Results for Flint Zip Codes 48501-48507, Genesee County, and the State of Michigan Summary as of January 22, 2016

Executive Summary

This report is generated by MDHHS to track Blood Lead Level test results in Flint, Michigan.

- Counts on this report include both capillary and venous blood tests.
- People who have had multiple tests are counted only once per year. People counted in 2015 who were tested again after 1/1/2016 are counted in both years.
- Between 10/1/2015 and 1/22/2016, an additional 3,351 people were tested in Flint.
- Continued testing efforts by Genesee County Health Department, MDHHS and local medical personnel have identified 45 children with blood lead levels greater than or equal to 5 mcg/dl (micrograms lead per deciliter of blood) since 10/1/2015.
- Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, MDHHS recognizes that the full community of Flint must be the focus of the public health response.
- 2.5 percent of Flint children younger than 6 years old tested between 10/1/2015 and 1/22/2016, had blood lead levels greater than or equal to 5 mcg/dl.
- After refining our methods to identify age, some people are now counted in a different age group than on previous reports. The total counts for each year have not changed.

* Data for Quarter 4 of 2015 and Quarter 1 of 2016 are incomplete and subject to change.

	Children younger than 6 Years Old			Children 6 to 17 Years Old		
	Michigan	Genesee County	Flint, 48501-48507	Michigan	Genesee County	Flint, 48501-48507

SEOC Report for: February 18, 2016

Full Days Since Emergency Declaration: 44

Items to Note

- US Department of Health and Human Services will be visiting Fire Station #5 POD today.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams will be visiting the final three mobile home parks today and 34 identified homes.

SEOC Report for February 14, 2016

Full Days Since Emergency Declaration: 40

Items to Note

• *There is a decrease in number of total residential parcels and total residential active water subscribers.* Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.

• National Guard mission has been extended through 3/16/2016.

• SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist.

• Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams. NCCC will complete their volunteer mission on 2/15/2016 and Southern Baptists will begin their mission on 2/16/16. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection.

SEOC Report for February 9, 2016

Full Days Since Emergency Declaration: 35

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Subject: Today's Lead Results Greater Than 100 ppb
Attachments: Residential samples >100 ppb

Per the attached from the DEQ lab, today we had 3 results above 100 parts per billion (ppb):

Lead 1,234 ppb
Lead 115 ppb
Lead 1,231 ppb

These numbers will be included in the spreadsheet that gets posted to the web this evening.

To: Curtis, Christina
Subject: Spillovers from 2-1-1 Calls List Prior to February 15th, 2016

Hi Christina,
Here are the spillovers from the 2-1-1 Calls list prior to February 15th, 2016 that we discussed at the end of the day today. Many of these are leftover due to issues finding the address or contacting the resident in prior attempts. We suggest calling prior to arrival for these to increase chances of contact.
See attached.
Thank you,
Molly Barfuss & Libby Cable

There will be 5 Penske trucks that will each need to be loaded with the items listed on the attached request. The teams will be starting on Tuesday morning. Please load these trucks each night so they are ready to go every morning.

Thank you!

Attachments:	02_15_Informational Card.pdf

We wanted to give an update on our distribution center recycling.

1. As of today all fire stations (F.S 1,3,5,6 and 8) received recycling bags with educational material attached. We delivered 12 boxes of bags (960 bags) to each station. Now we can identify a burn rate, each site was asked to call the EOC when the inventory is down to 2 boxes.
2. Another site has been identified and will be delivered this week; the location is 4119 North Saginaw St. We hope to deliver a trailer for drop off material this week. We also delivered 10 boxes (800 bags) .
3. Red Cross is now handling the preparation of bags, and completed 4000 bags over the weekend. Hopefully Red Cross will add consistency to our bag supply. We currently have 10,000 distribution center bags in inventory and more on the way. EOC just ordered 10,000 bag tags today. Thank you Rachel!
4. EOC has ordered more bag tags, see attached for the updated image.
5. Current status of Schupan trailers
    a. Fire Station 8 was full and was delivered to processing tonight and will be return tomorrow
    b. Fire Station 5 is 1/3 full
    c. Fire Station 1 is full and will be emptied by Wednesday.
6. Educational banners have been installed at Fire Station 5 and Comcast.
7. There are two MSU student athlete events scheduled for February 20th and 27th currently they will both be held at the corner of Clio and Pierson rd. We expect to set up water distribution and recycling site from noon till 4pm.

Thank you

Subject: Rapid Response Team Request: 3709 Twilight Drive

Below is a request from an elderly resident asking for support delivering a pitcher filter with additional filter cartridges. She lives alone and is not able to visit nearby fire stations. She request to have the delivery team be patient as it takes her time to get to the door and answer. She is available today, 2/15 and Tuesday, 2/16 for delivery.

This request came through the CHECC phone bank.

Subject: Volunteer Efforts

To Whom It May Concern-
I have been involved in a volunteer campaign that includes Allstate & Enterprise Rent-A-Car employees throughout Michigan. On Jan. 30th we had a truck from the Michigan Department of Corrections bring an oversupply of water to our event at the Enterprise Rent-A-Car office off of Pierson Rd, which was unscheduled but enormously helpful. Although our efforts have been in coordination with the Red Cross, much of the water being delivered is from grassroots donations being made to both companies stores throughout the State. If it is at all feasible, would our volunteer organization be granted access to more of the water that is stored at the warehouse only a few minutes away from where are efforts take place.

Below is a link regarding our efforts which has been published nationally.

FYI.....

Delivery driver will need a dolly to help get the water out, they only have a few women working there which will help to get the water inside.
They have received a delivery before, so if the last driver could be identified, he will have awareness of the situation.

Attached is a spread sheet of the locations inspected today which had Cu levels above 1300 ppb. We inspected 12 locations today with 5 having nobody home.

We project that an additional 12 inspections for elevated Cu levels will be completed tomorrow along with a new >150 ppb Pb inspection.

Attachments:	DEQ High Cu Site Visits.xlsx

Attached is a spread sheet of the locations inspected today which had Cu levels above 1300 ppb. We inspected 12 locations today with 5 having nobody home.

We project that an additional 12 inspections for elevated Cu levels will be completed tomorrow along with a new >150 ppb Pb inspection.

Sent: Friday, February 05, 2016 8:51 PM
To: Schaefer, Scott (DEQ)
Subject: DEQ Laboratory Results

Scott,

Another priority. I talked with Melanie (contact information below) at Flint Water Plant and learned they have a backlog of 4,000 to 6,000 sample results that have not be sent to residents. The DEQ lab sends pdf copies of the results to the city and George has advised the plan is for the city to send the results to residents in one day. Today, through Jay, I requested 4 data entry technicians to get rid of this backlog as quick as possible and then to maintain one day turn going forward. Please track status of request and make sure the IT support (PCs or whatever else) is provided by Monday and track this with Melanie or Mike Glasgow (probably preferred). The backlog needs to be eliminated next week and all results sent to residents. Also, if this doesn't work, then we need to go to Plan B, which is to send results from here or Lansing. Thanks Scott.

Good Morning!
Could someone tell me how/where the bags that Republic supplied are being distributed?

This was asked of me:
" Under the curbside pickup information it also says the following. I have no idea how residents actually get the clear bags and I'm hoping you can tell me.
~ Republic Services now providing clear bags for residents who do not yet
have bins and to use for extra bottles that will not fit in bins."
(The article on the City of Flints website references the bags provided by "Republic".)

Thank you,
Heather

Subject: Flint Apartments in Need of Filters

Dear Outreach Unit Manager Galbreath:

First and foremost, thank you for speaking with me today when I stopped by your office. I appreciate your quick attention to my inquiry.

Pursuant to our follow up conversation later this afternoon, attached (in excel and or as a pdf) is a listing and status report of the various apartment/housing complexes that utilize Flint municipal water that have a direct connection with the State of Michigan through various financing programs associated with the Michigan State Housing Development Authority (MSHDA).

We have outreached to most of these properties and have identified which ones we believe need additional attention by ways of delivery of filters to affected tenants. As I indicated over the phone, we would like to coordinate a team of dedicated state employees from MSHDA that stand ready to pick up and deliver filters to these properties immediately with your permission.

If at all possible, if you could review this list and let me know if and when our team could pick up the filters and deliver them to these units, it would most helpful. Please know that MSHDA is willing to pay for these filters as well if it means getting access to them quicker. We can pick them up wherever is quickest to acquire them.

Look forward to hearing from you tomorrow. Please contact me directly if you have any questions.

Respectfully,

Brian Mills

Thanks Laura. The testing takes at most 48 hours. The first step of the testing process is a 16 hour settling time. Typically the samples are received one day, go through the 16 hour step overnight and the testing is fully completed the following day. I'm sure the Guardsman said that just as a worst case scenario. We will correct that.

Subject: Turn around time- water testing

Hi team,

Any idea on turn around time for water testing?

Thanks you.....

The National Guard delivered a water test kit. I returned it the next day to the Fire station nearest me. The National Guardsman that recorded the receipt of the sample said it would take 1 month for the results to be returned. MY question is WHY is a 4 week turn around an acceptable standard for an emergency situation like this. Why hasn't' a 1 week turn around been established as the standard? Further why haven't mobile testing systems been sent to the disaster area to allows resident more immediate feedback. I just saw a list of homes in my area that are 1 street away form mine that have very high lead levels. 1 Month is UNACCEPTABLE! I have been an ardent supporter of this administration...However, the appearance is that because nobody is dying that this "isn't a REAL Emergency." I was hospitalized for the first time in my life last year in early May for three days. It cost me $20,000.00. Now I am wondering if this is the root cause. PLEASE DO MORE THAN YOU ARE. A handful of National Guardsman are not enough.

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

MSP/SEOC team,

We have a landlord that needs a referral to someone that can advise him on further lead reducing systems beyond the faucet filters. The family that resides in his unit has small children that have degraded health conditions that may be due to lead exposure. He has had the water tested a few times, but we are not equipped to advise him on test results or further remediation actions.

Can you please let me know who he should contact for guidance with this kind of situation?

Thank you for your help, Kelly

Thank you Wendy. Per Lisa it appears that the "lobby drop offs" you referenced occurred prior to MSHDA's direct involvement in the deliveries/installations, and were coordinated with the building managers. When MSHDA learned that some of the managers were not promptly installing our team took steps to install and deliver ourselves. There were some units that were not responsive which did not receive filters, and those filters were left with the property managers.

If any of the above is inconsistent with your understanding of the situation, please let me know. It is important to me that we verify proper distribution of the filters to MSHDA properties.

Good morning everyone,

Yes, we can help with this. However, there was some confusion with the original filter delivery. We asked that each resident personally be handed or install a filter, but later determined they were dropped off in the lobby and many didn't get theirs and we ended up sending a few hundred more. Can we ensure that this doesn't happen with the replacement cartridges? It is imperative that we reach every resident. Thanks for your help and understanding.

Please let me know when you would like to pick them up or if you need them delivered, to where? Also, please send me the point of contact information.

Thanks so much everyone,
Wendy

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Good morning,

I have included everyone from the original January 13, 2016 dialogue in the hopes that I am reaching out the proper individuals to assist us with our current request. If I am not, please direct me to the proper people and I will reach out to them.

Brian Mills, CEO of MSHDA, was able to secure approximately 3,000 filters from MSP on 1/15/16. Those filters were installed in MSHDA funded rental properties (approximately 1,400 units) and distributed to HUD funded Housing Choice Voucher Program participants and landlords for installation in their rental properties (approximately 600). We appreciate that the Governor's office and MSP logistics aided us in this successful effort by providing the water filters. Now that the filters have been distributed, the next step is proper maintenance of those filters to ensure continued efforts towards health and safety are met.

We are requesting that the Governor's office and MSP logistics provide MSHDA with 1,2000 replacement cartridges (2 per household) for our Housing Choice Voucher program households. Our office began inspecting HCV rental properties yesterday to verify proper installation of the water filters and those inspections will continue throughout the month. If we can obtain these cartridges from you today, we can make sure that 2 filters are provided to each household during these inspections. The households we inspected yesterday and today would be revisited to provide them with this important resource.

Please let me know the steps you require from MSHDA to obtain these 1,200 replacement cartridges from your offices. We would like to begin distributing them to our Flint families as early as tomorrow.

Thank you.

Subject: Flint Water - MSHDA Housing Choice Voucher Program

Good Afternoon Laura,

Thank you for talking with me this morning regarding the water situation in Flint. I work with MSHDA's Housing Choice Voucher Program (formerly called Section 8). MSHDA subsidizes approximately 800 rental units in Flint. Approximately 90 of these households have children under the age of six living in the unit.

MSHDA would like to know how to determine the boundaries of the affected area. If MSHDA sends you a list of the MSHDA assisted units would you be able to provide verification of which units are in the affected area and which units have already been verified as having the water filters in place?

Please clarify the purpose of the water pitchers with filters. Are these intended for all units or just for the units with faucets that are not compatible with the filter? Are there any other requirements for units with faucets that are not compatible with the filter?

To help meet MSHDA's requirement for safe and sanitary housing for all voucher holders, MSHDA would like to obtain the following:

- 800 water pitchers with filters
- 1600 faucet filters (one for the kitchen and one for the bathroom)
- 1600 or more replacement cartridges for the filters

These numbers will be reduced if some of the 800 units are not in the affected area or if they have already received the filters.

MSHDA is currently dialoging about an inspection process for the impacted units. Please send me additional information regarding the water testing process that you mentioned during our conversation. MSHDA will need to know specific details including how the testing is done, which faucets in each unit need to be tested (with our without filter), who makes the determination of the safety of the water, and any steps MSHDA would need to take such as sending the water samples out for further evaluation.

Please let me know if you need any additional information.

Thanks Laura,

Peggy

Subject: RE: Turn around time- water testing

Thanks Laura. The testing takes at most 48 hours. The first step of the testing process is a 16 hour settling time. Typically the samples are received one day, go through the 16 hour step overnight and the testing is fully completed the following day. I'm sure the Guardsman said that just as a worst case scenario. We will correct that.

Subject: Turn around time- water testing

Hi team,

Any idea on turn around time for water testing?

Thanks you.....

The National Guard delivered a water test kit. I returned it the next day to the Fire station nearest me. The National Guardsman that recorded the receipt of the sample said it would take 1 month for the results to be returned. MY question is WHY is a 4 week turn around an acceptable standard for an emergency situation like this. Why hasn't' a 1 week turn around been established as the standard? Further why haven't mobile testing systems been sent to the disaster area to allows resident more immediate feedback. I just saw a list of homes in my area that are 1 street away

form mine that have very high lead levels. 1 Month is UNACCEPTABLE! I have been an ardent supporter of this administration...However, the appearance is that because nobody is dying that this "isn't a REAL Emergency." I was hospitalized for the first time in my life last year in early May for three days. It cost me $20,000.00. Now I am wondering if this is the root cause. PLEASE DO MORE THAN YOU ARE. A handful of National Guardsman are not enough.

Subject: Deaf and Hard of Hearing Community Contact

Ms. McKittrick (CAC) and Mr. Zuelke (FEMA)

I am connecting you two in order to evaluate the request for the CAC (Communication Access Center) to be a distribution site.

I know the State Patrol and National Guard has knocked on each household door at least twice trying to get the supplies to each home. It is possible that the SP/NG has already reached the deaf community.

Ms. McKittrick - if you have any demographic information on the locations of the clients your serve, Mr. Zuelke can have his staff check on whether they have been reached with all the supplies.

If they have not, we can look into your site as a distribution site.

Please work with Mr. Zuelke as we ensure the deaf and hard of hearing community have received all the widely distributed supplies.

Thank you so much for meeting today.

Best,
Jamal

Subject: FW: Flint-Kroger site

Lt. DeCastro, See below. Can you please reach out to them for the keys? Also, we are not interested in the lighted sign at this point. Maybe further down the road if we open it as a POD.

ALL:

I'm working with DOC for work crews until we can get the Adventists confirmed to assist. Bonnie has agreed to assist with managing the warehouse in the short-term with her and the other managers that have been assisting her. Thanks Bonnie ☺

I have requested FEMA to provide technical assistance.

My hopes is to go operational on Saturday if we can get equipment and staffing in place, since weekends seem to be our busiest for loose donations. We have not decided hours yet, so I'd be happy to take suggestions. I'm thinking overlapping with the Food Bank on hours a bit would benefit us both.

Thanks
Wendy

To: Doll, Jeanette (DTMB) <dollj@michigan.gov>
Subject: Flint-Kroger site

Jeanette,

Just spoke with the Landlord, he will make two (2) keys, in the meantime you can go to a place in the plaza named Wigland and speak with a person named Sunshine (not kidding), who has a key to the store and knows where the lights are located and or the electrical boxes to operate the building.

He also asked me to have you call Consumers Energy to change the account (there are 3 meters in the building). Please call Joy Wicklebach or Winklebach at 800-805-0490 and ask her to switch 2629 W. Pierson Road power to the State of Michigan.

Also ask them to activate the lighted sign out front if you want to have a sign put up announcing your location. That is separately metered also and costs $22.00 per month.

I think that's all, I let him know to keep three banks of shelving instead of one.

Maureen

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Thank you Wendy. Per Lisa it appears that the "lobby drop offs" you referenced occurred prior to MSHDA's direct involvement in the deliveries/installations, and were coordinated with the building managers. When MSHDA learned that some of the managers were not promptly installing our team took steps to install and deliver ourselves. There were some units that were not responsive which did not receive filters, and those filters were left with the property managers.

If any of the above is inconsistent with your understanding of the situation, please let me know. It is important to me that we verify proper distribution of the filters to MSHDA properties.

Tori:

I don't mean to question your information. However, I'd be interested to know where this occurred since I personally oversaw the installation and distribution of most of these filters, delivered hundreds and installed nearly 50 myself. If there was a break in our system I'd like to know where it occurred so it can be prevented in the future. Which property or properties are you speaking of?

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Good morning everyone,

Yes, we can help with this. However, there was some confusion with the original filter delivery. We asked that each resident personally be handed or install a filter, but later determined they were dropped off in the lobby and many didn't get theirs and we ended up sending a few hundred more. Can we ensure that this doesn't happen with the replacement cartridges? It is imperative that we reach every resident. Thanks for your help and understanding.

Please let me know when you would like to pick them up or if you need them delivered, to where? Also, please send me the point of contact information.

Thanks so much everyone,
Wendy

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Good morning,

I have included everyone from the original January 13, 2016 dialogue in the hopes that I am reaching out the proper individuals to assist us with our current request. If I am not, please direct me to the proper people and I will reach out to them.

Brian Mills, CEO of MSHDA, was able to secure approximately 3,000 filters from MSP on 1/15/16. Those filters were installed in MSHDA funded rental properties (approximately 1,400 units) and distributed to HUD funded Housing Choice Voucher Program participants and landlords for installation in their rental properties (approximately 600). We appreciate that the Governor's office and MSP logistics aided us in this successful effort by providing the water filters. Now that the filters have been distributed, the next step is proper maintenance of those filters to ensure continued efforts towards health and safety are met.

We are requesting that the Governor's office and MSP logistics provide MSHDA with 1,2000 replacement cartridges (2 per household) for our Housing Choice Voucher program households. Our office began inspecting HCV rental properties yesterday to verify proper installation of the water filters and those inspections will continue throughout the month. If we can obtain these cartridges from you today, we can make sure that 2 filters are provided to each household during these inspections. The households we inspected yesterday and today would be revisited to provide them with this important resource.

Please let me know the steps you require from MSHDA to obtain these 1,200 replacement cartridges from your offices. We would like to begin distributing them to our Flint families as early as tomorrow.

Thank you.

Subject: FW: Flint Water - MSHDA Housing Choice Voucher Program

Logistics - Please see below. This should be a top priority to ensure water filters are available for these housing units. Also, please assist in providing Director Elsenheimer, cc'd here, the information his representative should know in regards to SEOC operations.

Peggy - All city of Flint residents should be using water filters or bottled water for drinking and cooking purposes. There are 5 fire stations that are open from 9am - 9pm distributing water filters, bottled water, refill cartridges for the filters and water testing kits. Their locations along with more information can be found here: http://mi.gov/deq/0,4561,7-135-3313_3675_73946---,00.html

The MSP logistics folks will take the lead from here.

Subject: Flint Water - MSHDA Housing Choice Voucher Program

Good Afternoon Laura,

Thank you for talking with me this morning regarding the water situation in Flint. I work with MSHDA's Housing Choice Voucher Program (formerly called Section 8). MSHDA subsidizes approximately 800 rental units in Flint. Approximately 90 of these households have children under the age of six living in the unit.

MSHDA would like to know how to determine the boundaries of the affected area. If MSHDA sends you a list of the MSHDA assisted units would you be able to provide verification of which units are in the affected area and which units have already been verified as having the water filters in place?

Please clarify the purpose of the water pitchers with filters. Are these intended for all units or just for the units with faucets that are not compatible with the filter? Are there any other requirements for units with faucets that are not compatible with the filter?

To help meet MSHDA's requirement for safe and sanitary housing for all voucher holders, MSHDA would like to obtain the following:

- 800 water pitchers with filters
- 1600 faucet filters (one for the kitchen and one for the bathroom)
- 1600 or more replacement cartridges for the filters

These numbers will be reduced if some of the 800 units are not in the affected area or if they have already received the filters.

MSHDA is currently dialoging about an inspection process for the impacted units. Please send me additional information regarding the water testing process that you mentioned during our conversation. MSHDA will need to know specific details including how the testing is done, which faucets in each unit need to be tested (with our without filter), who makes the determination of the safety of the water, and any steps MSHDA would need to take such as sending the water samples out for further evaluation.

Please let me know if you need any additional information.

Thanks Laura,

Peggy

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Thank you Wendy. Per Lisa it appears that the "lobby drop offs" you referenced occurred prior to MSHDA's direct involvement in the deliveries/installations, and were coordinated with the building managers. When MSHDA learned that some of the managers were not promptly installing our team took steps to install and deliver ourselves. There were some units that were not responsive which did not receive filters, and those filters were left with the property managers.

If any of the above is inconsistent with your understanding of the situation, please let me know. It is important to me that we verify proper distribution of the filters to MSHDA properties.

Tori:

I don't mean to question your information. However, I'd be interested to know where this occurred since I personally oversaw the installation and distribution of most of these filters, delivered hundreds and installed nearly 50 myself. If there was a break in our system I'd like to know where it occurred so it can be prevented in the future. Which property or properties are you speaking of?

Good morning everyone,

Yes, we can help with this. However, there was some confusion with the original filter delivery. We asked that each resident personally be handed or install a filter, but later determined they were dropped off in the lobby and many didn't get theirs and we ended up sending a few hundred more. Can we ensure that this doesn't happen with the replacement cartridges? It is imperative that we reach every resident. Thanks for your help and understanding.

Please let me know when you would like to pick them up or if you need them delivered, to where? Also, please send me the point of contact information.

Thanks so much everyone,
Wendy

Thank you, Wendy.

Based on our conversation it is my understanding the EOC that would have the replacement cartridges is in Flint.

We would like the central location for housing these cartridges to be in our Lansing office as this is where we are deploying our inspectors for these units.

If it is necessary to get this done today, I could try and send someone to Flint to collect these today and we can house them on our loading dock in this office.

I would like to reinforce for you that MSHDA staff will be inspecting HCV units this week and next week and that these replacement cartridges will be personally dropped off in each unit that we inspect.

Thank you again.

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Good morning,

I have included everyone from the original January 13, 2016 dialogue in the hopes that I am reaching out the proper individuals to assist us with our current request. If I am not, please direct me to the proper people and I will reach out to them.

Brian Mills, CEO of MSHDA, was able to secure approximately 3,000 filters from MSP on 1/15/16. Those filters were installed in MSHDA funded rental properties (approximately 1,400 units) and distributed to HUD funded Housing Choice Voucher Program participants and landlords for installation in their rental properties (approximately 600). We appreciate that the Governor's office and MSP logistics aided us in this successful effort by providing the water filters. Now that the filters have been distributed, the next step is proper maintenance of those filters to ensure continued efforts towards health and safety are met.

We are requesting that the Governor's office and MSP logistics provide MSHDA with 1,2000 replacement cartridges (2 per household) for our Housing Choice Voucher program households. Our office began inspecting HCV rental properties yesterday to verify proper installation of the water filters and those inspections will continue throughout the month. If we can obtain these cartridges from you today, we can make sure that 2 filters are provided to each household during these inspections. The households we inspected yesterday and today would be revisited to provide them with this important resource.

Please let me know the steps you require from MSHDA to obtain these 1,200 replacement cartridges from your offices. We would like to begin distributing them to our Flint families as early as tomorrow.

Thank you.

Subject: Flint Water - MSHDA Housing Choice Voucher Program

Good Afternoon Laura,

Thank you for talking with me this morning regarding the water situation in Flint. I work with MSHDA's Housing Choice Voucher Program (formerly called Section 8). MSHDA subsidizes approximately 800 rental units in Flint. Approximately 90 of these households have children under the age of six living in the unit.

MSHDA would like to know how to determine the boundaries of the affected area. If MSHDA sends you a list of the MSHDA assisted units would you be able to provide verification of which units are in the affected area and which units have already been verified as having the water filters in place?

Please clarify the purpose of the water pitchers with filters. Are these intended for all units or just for the units with faucets that are not compatible with the filter? Are there any other requirements for units with faucets that are not compatible with the filter?

To help meet MSHDA's requirement for safe and sanitary housing for all voucher holders, MSHDA would like to obtain the following:

- 800 water pitchers with filters
- 1600 faucet filters (one for the kitchen and one for the bathroom)
- 1600 or more replacement cartridges for the filters

These numbers will be reduced if some of the 800 units are not in the affected area or if they have already received the filters.

MSHDA is currently dialoging about an inspection process for the impacted units. Please send me additional information regarding the water testing process that you mentioned during our conversation. MSHDA will need to know specific details including how the testing is done, which faucets in each unit need to be tested (with our without filter), who makes the determination of the safety of the water, and any steps MSHDA would need to take such as sending the water samples out for further evaluation.

Please let me know if you need any additional information.

Thanks Laura,

Peggy

Good morning everyone,

Yes, we can help with this. However, there was some confusion with the original filter delivery. We asked that each resident personally be handed or install a filter, but later determined they were dropped off in the lobby and many didn't get theirs and we ended up sending a few hundred more. Can we ensure that this doesn't happen with the replacement cartridges? It is imperative that we reach every resident. Thanks for your help and understanding.

Please let me know when you would like to pick them up or if you need them delivered, to where? Also, please send me the point of contact information.

Thanks so much everyone,
Wendy

- 1600 or more replacement cartridges for the filters

These numbers will be reduced if some of the 800 units are not in the affected area or if they have already received the filters.

MSHDA is currently dialoging about an inspection process for the impacted units. Please send me additional information regarding the water testing process that you mentioned during our conversation. MSHDA will need to know specific details including how the testing is done, which faucets in each unit need to be tested (with our without filter), who makes the determination of the safety of the water, and any steps MSHDA would need to take such as sending the water samples out for further evaluation.

Please let me know if you need any additional information.

Thanks Laura,

Peggy

Good morning everyone,

Yes, we can help with this. However, there was some confusion with the original filter delivery. We asked that each resident personally be handed or install a filter, but later determined they were dropped off in the lobby and many didn't get theirs and we ended up sending a few hundred more. Can we ensure that this doesn't happen with the replacement cartridges? It is imperative that we reach every resident. Thanks for your help and understanding.

Please let me know when you would like to pick them up or if you need them delivered, to where? Also, please send me the point of contact information.

Thanks so much everyone,

Wendy

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Good morning,

I have included everyone from the original January 13, 2016 dialogue in the hopes that I am reaching out the proper individuals to assist us with our current request. If I am not, please direct me to the proper people and I will reach out to them.

Brian Mills, CEO of MSHDA, was able to secure approximately 3,000 filters from MSP on 1/15/16. Those filters were installed in MSHDA funded rental properties (approximately 1,400 units) and distributed to HUD funded Housing Choice Voucher Program participants and landlords for installation in their rental properties (approximately 600). We appreciate that the Governor's office and MSP logistics aided us in this successful effort by providing the water filters. Now that the filters have been distributed, the next step is proper maintenance of those filters to ensure continued efforts towards health and safety are met.

We are requesting that the Governor's office and MSP logistics provide MSHDA with 1,2000 replacement cartridges (2 per household) for our Housing Choice Voucher program households. Our office began inspecting HCV rental properties yesterday to verify proper installation of the water filters and those inspections will continue throughout the month. If we can obtain these cartridges from you today, we can make sure that 2 filters are provided to each household during these inspections. The households we inspected yesterday and today would be revisited to provide them with this important resource.

Please let me know the steps you require from MSHDA to obtain these 1,200 replacement cartridges from your offices. We would like to begin distributing them to our Flint families as early as tomorrow.

Thank you.

Subject: FW: Flint Water - MSHDA Housing Choice Voucher Program

Logistics - Please see below. This should be a top priority to ensure water filters are available for these housing units. Also, please assist in providing Director Elsenheimer, cc'd here, the information his representative should know in regards to SEOC operations.

Peggy - All city of Flint residents should be using water filters or bottled water for drinking and cooking purposes. There are 5 fire stations that are open from 9am - 9pm distributing water filters, bottled water, refill cartridges for the filters and water testing kits. Their locations along with more information can be found here: http://mi.gov/deq/0,4561,7-135-3313_3675_73946---,00.html

The MSP logistics folks will take the lead from here.

Subject: Flint Water - MSHDA Housing Choice Voucher Program

Good Afternoon Laura,

Thank you for talking with me this morning regarding the water situation in Flint. I work with MSHDA's Housing Choice Voucher Program (formerly called Section 8). MSHDA subsidizes approximately 800 rental units in Flint. Approximately 90 of these households have children under the age of six living in the unit.

MSHDA would like to know how to determine the boundaries of the affected area. If MSHDA sends you a list of the MSHDA assisted units would you be able to provide verification of which units are in the affected area and which units have already been verified as having the water filters in place?

Please clarify the purpose of the water pitchers with filters. Are these intended for all units or just for the units with faucets that are not compatible with the filter? Are there any other requirements for units with faucets that are not compatible with the filter?

To help meet MSHDA's requirement for safe and sanitary housing for all voucher holders, MSHDA would like to obtain the following:

- 800 water pitchers with filters
- 1600 faucet filters (one for the kitchen and one for the bathroom)
- 1600 or more replacement cartridges for the filters

These numbers will be reduced if some of the 800 units are not in the affected area or if they have already received the filters.

MSHDA is currently dialoging about an inspection process for the impacted units. Please send me additional information regarding the water testing process that you mentioned during our conversation. MSHDA will need to know specific details including how the testing is done, which faucets in each unit need to be tested (with our without filter), who makes the determination of the safety of the water, and any steps MSHDA would need to take such as sending the water samples out for further evaluation.

Please let me know if you need any additional information.

Can we get water (a pallet would be fine if that's doable) delivered to the McCree South location – 630 S. Saginaw St., Flint, MI 48502?. We would like it for distribution in our WIC clinics for the moms coming in. If a contact is needed, you can give them my number - . There are also delivery instructions at the loading/delivery dock for the building.

Thanks.

Subject: RE: church list

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.
It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.
It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.
Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.
Request for Water

At this time the Church HUB point of contact is Lt. Roach [illegible] .. The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Subject: Tracking recycling efforts

All,
It's been brought to my attention that we need to do our best to track the recycling efforts as detailed as possible, specifically an increase in numbers following the press conference and eventual neighborhood outreach we'll be starting in the next few days.

Schupan and Youngs - we'll need numbers from you on how many pounds/tons/trailer loads of bottles you collect.
Republic/KGCB - How many new bins have people requested? How many bags of bottles were left on curbs?
Schupan - how many bags were handed out at resource centers?
And we'll need to get with ARC to find out how many bags/cards are handed out DTD.

Other ways to track that I don't know of?

Subject: RE: church list

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.
It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.
It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.
Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach . The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Michigan State Police Points of Contact

Lt. B.J. Roach , Roachb@michigan.gov
Lt. Mark A. Russo Russom2@michigan.gov

CHURCH DISTRIBUTION HUBS

NORTH

Foss Avenue Baptist Church
1159 East Foss Avenue

Michelle –
Please tell me who I need to email or forward me to the right person – I had a business call me – Hatch Enterprises. Marianne Frost said they had an inspection done last week with the DEQ and Pepsi. They were told they needed to have 4 filters by February 3 or their business would be closed. She was given my name as someone to contact about getting the filters.

I told her she needed to call City of Flint – and she said that is who told her to call me. Not sure what to do about this.

I would suggest we contact these companies individually then report at the meeting. Then we can figure out as a group how they can fit into our efforts. Otherwise, we might be there all day.

I would prefer Wed or Thursday. I cannot be in Flint on Tuesday, and Friday seems too late.
Would any of the below companies have a representative at the meeting, or are you going to work with them first and then report to our group?
If it's donations, we should probably make sure we have a way to collect those donations specifically for recycling, or it's a designated contribution toward purchasing something tangible (ie, bins, carts, bags, etc)

On Mon, Feb 1, 2016 at 12:56 AM, Flechter, Matt (DEQ) <FLECHTERM@michigan.gov> wrote:

Just a quick update on interest in supporting Flint's recycling success.

1) Kent County has offered to Republic recycling processing at no cost.
2) Closed Loop Fund is interested in financially supporting the move to a cart based recycling collection program.
3) Wal-mart is interested in supporting the effort. Likely financial support for education or carts.
4) Rubicon, a major recycler, is interested in finding a way to support the effort.
5) The Recycling Partnership is interested in providing Technical or financial resources.
6) Amcor is interested in finding a way to support recycling collection or education.
7) GM is interested in playing a role.

With all this interest it makes sense to schedule a meeting this week where we can all sit down and put these pieces together. What do you all think of holding a meeting on Friday (or sooner)?

Subject: RE: Questions about updated flyer

I don't think expanding the flyer to 2 pages is a concern. You have to provide the residents with all of the information or they will not know what to do. At a minimum, we need to include all 10 locations for filter recycling and clarify the bag collection curbside.

On a side note, there will need to be some follow up education to the residents that sign up for bins once this emergency is over. In order to sustain the curbside program long-term, continuing ed is needed. I imagine that the only item residents will put in their bin will be the plastic bottles.

Subject: RE: Questions about updated flyer

I agree that some of that information could be clarified, but the more information we include, the harder it is to

keep a simple overview over all the items. Also, it would expand the document to a second page, which would make it harder to read and to print.
So this is a trade-off that has to be considered - should we include more information at the expense of having a document that is harder to read and to produce? Personally, I would leave that decision to the media/communications experts that are involved.

Here some clarification that I can provide on different points:

* KGCB thought that Shupan was providing clear bags that were automatically given to residents when they picked up their water at the 3 Fire Stations.
Schupan is currently providing clear bags at one station, as soon as they get their information cards attached to more bags, they will go out to the other two stations.

* If residents don't have a bin yet, I thought that Republic would not pick up their recycling. Blue Bin at Curb = Registered to Recycle
Republic provided clear/blue plastic bags for distribution with the message that people can put these out on trash day and will run an extra recycling truck to pick them up. The Republic bags can also be dropped of at the Young's and Schupan sites.

* How is Republic providing clear bags for residents to use for over flow material? Where and how can they get these bags? Are they providing them at the other 2 Fire Stations? (Gary is this something you could do?) That would be great as then ALL water distribution sites would be giving out the clear bags and make our job of informing the public much simpler. (We've already had calls this morning)
Plan was to give them to door to door distribution and PODs (please correct me if I'm wrong, Gary). I will go to the warehouse as soon as our printed materials arrive there to instruct the warehouse staff on where the different materials are distributed. I will tell them to load the canvassing trucks with door hangers and the Republic bags, and include Republic bags in their shipments to PODs 3 and 6.

* What about recycling the water cans at the Fire Station sites? (Calls this morning.)
They can be recycled with the bottles at the Schupan and Young's sites, and curbside. However, there are no more cans being distributed through the Fire Stations or official canvassing efforts, so we won't see a lot of these materials anyway.

* You mention all ten water resource and water filter sites but there is no list or link to where that information can be found
These are the 5 Fire Stations, and the sites were filters/test kits can be picked up at City, GCCARD, and Michigan Department of Health and Human Services offices. I agree that ideally we should provide specific addresses for these sites, too - but that would probably cause us to have to expand the flyer to a second page.

Subject: Questions about updated flyer

Jessi
There seems to be some confusing and conflicting information, per calls we are receiving.

* KGCB thought that Shupan was providing clear bags that were automatically given to residents when they picked up their water at the 3 Fire Stations.

* People who want to get a bin to start recycling can also call Keep Genesee County Beautiful at 767-9696. (Calls this morning)

* If residents don't have a bin yet, I thought that Republic would not pick up their recycling. Blue Bin at Curb = Registered to Recycle

* How is Republic providing clear bags for residents to use for over flow material? Where and how can they get these bags? Are they providing them at the other 2 Fire Stations? (Gary is this something you could do?) That would be great as then ALL water distribution sites would be giving out the clear bags and make our job of informing the public much simpler. (We've already had calls this morning)

* What about recycling the water cans at the Fire Station sites? (Calls this morning.)

* You mention all ten water resource and water filter sites but there is no list or link to where that information can be found

Just trying to clarify information.....we are getting 50 - 75 calls a day and want to be able to provide correct information to the callers, on our website and public presentations. I'd appreciate a response from anyone who can answer these questions.
Thanks
Karen

I would prefer Wed or Thursday. I cannot be in Flint on Tuesday, and Friday seems too late.
Would any of the below companies have a representative at the meeting, or are you going to work with them first and then report to our group?
If it's donations, we should probably make sure we have a way to collect those donations specifically for recycling, or it's a designated contribution toward purchasing something tangible (ie, bins, carts, bags, etc)

On Mon, Feb 1, 2016 at 12:56 AM, Flechter, Matt (DEQ) <FLECHTERM@michigan.gov> wrote:
Just a quick update on interest in supporting Flint's recycling success.

1) Kent County has offered to Republic recycling processing at no cost.
2) Closed Loop Fund is interested in financially supporting the move to a cart based recycling collection program.
3) Wal-mart is interested in supporting the effort. Likely financial support for education or carts.
4) Rubicon, a major recycler, is interested in finding a way to support the effort.
5) The Recycling Partnership is interested in providing Technical or financial resources.
6) Amcor is interested in finding a way to support recycling collection or education.
7) GM is interested in playing a role.

With all this interest it makes sense to schedule a meeting this week where we can all sit down and put these pieces together. What do you all think of holding a meeting on Friday (or sooner)?

Subject: RE: Questions about updated flyer

I don't think expanding the flyer to 2 pages is a concern. You have to provide the residents with all of the information or they will not know what to do. At a minimum, we need to include all 10 locations for filter recycling and clarify the bag collection curbside.

On a side note, there will need to be some follow up education to the residents that sign up for bins once this emergency is over. In order to sustain the curbside program long-term, continuing ed is needed. I imagine that

the only item residents will put in their bin will be the plastic bottles.

Subject: RE: Questions about updated flyer

I agree that some of that information could be clarified, but the more information we include, the harder it is to keep a simple overview over all the items. Also, it would expand the document to a second page, which would make it harder to read and to print.
So this is a trade-off that has to be considered - should we include more information at the expense of having a document that is harder to read and to produce? Personally, I would leave that decision to the media/communications experts that are involved.

Here some clarification that I can provide on different points:

* KGCB thought that Shupan was providing clear bags that were automatically given to residents when they picked up their water at the 3 Fire Stations.
Schupan is currently providing clear bags at one station, as soon as they get their information cards attached to more bags, they will go out to the other two stations.

* If residents don't have a bin yet, I thought that Republic would not pick up their recycling. Blue Bin at Curb = Registered to Recycle
Republic provided clear/blue plastic bags for distribution with the message that people can put these out on trash day and will run an extra recycling truck to pick them up. The Republic bags can also be dropped of at the Young's and Schupan sites.

* How is Republic providing clear bags for residents to use for over flow material? Where and how can they get these bags? Are they providing them at the other 2 Fire Stations? (Gary is this something you could do?) That would be great as then ALL water distribution sites would be giving out the clear bags and make our job of informing the public much simpler. (We've already had calls this morning)
Plan was to give them to door to door distribution and PODs (please correct me if I'm wrong, Gary). I will go to the warehouse as soon as our printed materials arrive there to instruct the warehouse staff on where the different materials are distributed. I will tell them to load the canvassing trucks with door hangers and the Republic bags, and include Republic bags in their shipments to PODs 3 and 6.

* What about recycling the water cans at the Fire Station sites? (Calls this morning.)
They can be recycled with the bottles at the Schupan and Young's sites, and curbside. However, there are no more cans being distributed through the Fire Stations or official canvassing efforts, so we won't see a lot of these materials anyway.

* You mention all ten water resource and water filter sites but there is no list or link to where that information can be found

These are the 5 Fire Stations, and the sites were filters/test kits can be picked up at City, GCCARD, and Michigan Department of Health and Human Services offices. I agree that ideally we should provide specific addresses for these sites, too - but that would probably cause us to have to expand the flyer to a second page.

Jessi
There seems to be some confusing and conflicting information, per calls we are receiving.

* KGCB thought that Shupan was providing clear bags that were automatically given to residents when they picked up their water at the 3 Fire Stations.

* People who want to get a bin to start recycling can also call Keep Genesee County Beautiful at 767-9696. (Calls this morning)

* If residents don't have a bin yet, I thought that Republic would not pick up their recycling. Blue Bin at Curb = Registered to Recycle

* How is Republic providing clear bags for residents to use for over flow material? Where and how can they get these bags? Are they providing them at the other 2 Fire Stations? (Gary is this something you could do?) That would be great as then ALL water distribution sites would be giving out the clear bags and make our job of informing the public much simpler. (We've already had calls this morning)

* What about recycling the water cans at the Fire Station sites? (Calls this morning.)

* You mention all ten water resource and water filter sites but there is no list or link to where that information can be found

Just trying to clarify information.....we are getting 50 - 75 calls a day and want to be able to provide correct information to the callers, on our website and public presentations. I'd appreciate a response from anyone who can answer these questions.
Thanks
Karen

There was no attachment. Is there an address and how much water is needed?

Thank you,
Anthony Gwaltney

Subject: Re: Questions about updated flyer

1) Do we need to tighten up this email list so we are not inundating people's inboxes with conversations like this? I can imagine it may be hard to follow for those on this list that are not directly involved in the day-to-day intricacies of the recycling efforts.
2) Shane/Sheila doesn't Genesee county have a mobile trailer that could be used for something like this? I thought I remembered that you have a piece of equipment like this.

Matt

Subject: RE: Questions about updated flyer

I also had concerns with residents not having adequate transportation to get to the recycling stations. I think if we have the resources available to place additional bins on a rotating schedule throughout the City, it's not a bad idea. Hopefully this could phase out fairly quickly as more residents sign up for curbside.

If a trailer was placed in a neighborhood, it would have to have very good signage stating that it is for recyclables only. It would also have to be placed for a couple hours and then pulled to avoid the trash contamination/illegal dumping, and vandalism. Residents would have to be notified ahead of time (example: Every Monday in February a recycling trailer will be placed at Mott Community College near the library from 10am – 4pm. Please place your bags of empty plastic bottles ONLY in this trailer.)

The concerned pastors group may be able to help distribute info if we started up a program like this or allow bins to be placed at neighborhood churches.

Subject: Re: Questions about updated flyer

Just got back to see this email thread.

1) A suggestion someone gave me was to place the big recycling trailers in neighborhoods where residents would have easier access to them, especially if they don't have reliable transportation. I'm sure there's a safety/vandalism concern, but might be worth pursuing, especially if we have other companies willing to bring in their trailers. The more the merrier.

2)Let me take a look at the flier and see if I can design a more detailed Instructional Handout, rather than just a flier.

3) We will have Red Cross/volunteers handing out Republic plastic bags and door hangers door-to-door, hopefully as soon as this weekend. We are waiting for the cards to be printed and delivered to Flint. Per Gary, the instructions are to leave the bags at their curb on trash day (We agreed that the statement should simply be:"Put out the bag on your trash day" That way, Gary only needs to run the truck in the area of the city that should get household trash pickup on that day, which is good for us, because that would ensure that every bag is actually picked up on that day).

4) I like this suggestion: For program efficiency and effectiveness, instead of handing out clear plastic bags at the points of distribution for curbside recycling, it may make more sense to hand out recycling bins in a similar fashion to the water filters where residents who want a filter sign up and pick one up. Residents could fill out the card on the spot and get their bin. Gary - -can we get bins to do this??

Here is a first shot at answering and responding to some of them (below).

I agree with Sheila's note just now about long term education. I think there is real potential to bring in significant $ to support this effort long term.

I also think we could secure funds to support a move from bins to carts and implement other best practices.

I am receiving calls from all over the country from recyclers and end-use manufactures interested in supporting the recycling effort.

We should have a meeting soon to discuss how to direct these offers of assistance into a comprehensive program.

Matt

Subject: Questions about updated flyer

Jessi
There seems to be some confusing and conflicting information, per calls we are receiving.

- KGCB thought that Shupan was providing clear bags that were automatically given to residents when they picked up their water at the 3 Fire Stations.

We are waiting for the cards to arrive to begin handing out bags at the other stations.

- People who want to get a bin to start recycling can also call Keep Genesee County Beautiful at 767-9696. (Calls this morning)

Great! It is my understanding that if a resident calls Republic they will have a bin delivered to their door within 3 days. What is the process that you go through to get a bin to callers?

- If residents don't have a bin yet, I thought that Republic would not pick up their recycling. Blue Bin at Curb = Registered to Recycle

It is my understanding that Republic will pick up recyclables on their recycling pick up day regardless if they are in a blue republic bin or not. I drove the neighborhood that had recycling pickup yesterday. I surveyed about 400 houses and saw 3 houses with recycling set out. One house had a blue republic bin, one had their own homemade recycling tub, and one had two Flint Township green recycling tubs.

- How is Republic providing clear bags for residents to use for over flow material? Where and how can they get these bags? Are they providing them at the other 2 Fire Stations? (Gary is this something you could do?) That would be great as then ALL water distribution sites would be giving out the clear bags and make our job of informing the public much simpler. (We've already had calls this morning)

For program efficiency and effectiveness, instead of handing out clear plastic bags at the points of distribution for curbside recycling, it may make more sense to hand out recycling bins in a similar fashion to the water filters where residents who want a filter sign up and pick one up. Residents could fill out the card on the spot and get their bin.

- What about recycling the water cans at the Fire Station sites? (Calls this morning.)

Cans can be recycled in the Schupan trailers.

- You mention all ten water resource and water filter sites but there is no list or link to where that information can be found

Just trying to clarify information.....we are getting 50 – 75 calls a day and want to be able to provide correct information to the callers, on our website and public presentations. I'd appreciate a response from anyone who can answer these questions.
Thanks
Karen

Subject: RE: Questions about updated flyer

I also had concerns with residents not having adequate transportation to get to the recycling stations. I think if we have the resources available to place additional bins on a rotating schedule throughout the City, it's not a bad idea. Hopefully this could phase out fairly quickly as more residents sign up for curbside.

If a trailer was placed in a neighborhood, it would have to have very good signage stating that it is for recyclables only. It would also have to be placed for a couple hours and then pulled to avoid the trash contamination/illegal dumping, and vandalism. Residents would have to be notified ahead of time (example: Every Monday in February a recycling trailer will be placed at Mott Community College near the library from 10am – 4pm. Please place your bags of empty plastic bottles ONLY in this trailer.)

The concerned pastors group may be able to help distribute info if we started up a program like this or allow bins to be placed at neighborhood churches.

Insp-

Sorry, just had more conversations on this. Here is the scoop from Tonya. The filters and pitchers are not kept at the pod locations for people to pick up. They are too complicated and vary in size for different homes. There is a Rapid

Response Team (RRT) that goes to homes and installs these as needed. When a filter is needed the person should be able to go to a POD and request a filter (and pitcher if it's a first time). Their name and contact info should be collected. Tonya is going to follow up with Col. Randall to make sure that happens.

For this case, Tonya advised that Shasta Heintzelman can schedule the RRT to go to the house

Shasta, is that correct? Can you schedule a visit from the RRT to go to the person/address below?

Thanks

Okay,

We will need to get those from the warehouse to the POD, or maybe a few of the PODs.

Once that is accomplished, or we have it set up for tomorrow, please let me know so I can close the loop on this inquiry.

Thanks

Subject: ZeroWater Cartridge

Hello,

We were given a 23 cup ZeroWater pitcher at Flint Fire Station number five but were told, at that station, by a National Guardsman that they never carried replacement cartridges and never will. He suggested 211 or Home Depot.

211 says the Fire Stations have them, the Fire Station stills says no. Home Depot carries them for $29.97 for two.

We filter our own water and have been paying for those filters and of course we are paying the enormous cost for toxic water.

I appreciate being given a ZeroWater pitcher, I trust the brand but we are tapped out on clean, affordable water.

Respectfully,

To: JICNews <JICNews@michigan.gov>
Subject: MEDIA ADVISORY: Community Coalition kicks off water bottle recycling program

Community Coalition kicks off water bottle recycling program

January 28, 2016

Who:
A coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:

- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What:
Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When:
Thursday, January 28, 2016
11:30 a.m.

Where:
Fire Station #1
310 E. 5th St., Flint

- The press conference will take place behind the fire station near the water distribution station

Details:
Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

From: JICNews
Sent: Thursday, January 28, 2016 8:57 AM
To: JICNews <JICNews@michigan.gov>
Subject: MEDIA ADVISORY: Community Coalition kicks off water bottle recycling program

Community Coalition kicks off water bottle recycling program

January 28, 2016

Who:
A coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:

- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What:
Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When:
Thursday, January 28, 2016
11:30 a.m.

Where:
Fire Station #1
310 E. 5th St., Flint

- The press conference will take place behind the fire station near the water distribution station

Details:

Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

All

Just to confirm. I visited the food bank today. They are not set up to receive empties from the general public due to access issues. Do not consider/advertise this location as drop off.....

Thank you,
Tony Roda

I just talked to Tony from Young's and he's going to work on that. He wasn't aware that was the case when they dropped the trailer off (about it not being public). He's calling the foodbank to

have a discussion and will let us know which way to go with it.

We called the Food Bank this morning to confirm the public recycling and were told that it is only for the Food Bank and not a public site. Do not use their site as a public drop off.

Subject: RE: Water Tests

Good afternoon,

In light of the current water situation, Uptown has been proactive in testing and informing to the best of our ability. We have also directed tenants to the public information line so that they have the means necessary to obtain filters and water if they feel necessary. When the issue with legionella came about, I requested permission to order enough filters for one shower in each residential unit. However, after many calls and quite a bit of research, I found that the only system that can eliminate that particular bacteria is a reverse osmosis system. I felt ordering all of the shower filters may be a waste so I did not proceed. If you would like me to do otherwise please advise. I have been in contact with the public info line, "211" and was informed that we can get filters for all units, but have been unsuccessful so far. I am concerned that if we

are the ones to install filters we would also be the ones liable if a filter fails someone. If you would like me to bypass the filters that are donated and order our own, please let me know, otherwise I will keep directing tenants to the distribution centers.

I have asked Tim Knecht to direct me in verbiage when addressing tenants and answering questions so that people are well informed, but we are also protected. There are a couple of questions I would like to be able to answer for Mr. Knecht so that he can direct me accordingly. 1. Should we organize regular testing, possibly monthly? 2. Is the plumbing in each building new or old predating the ban on lead solder? (1986)?

For your review I have attached a report including each building's testing dates, results, preventative measures and tenant interaction such as notices/memos. Also attached is the memo sent out by the Market staff, an estimate for FFM Filtration and the Chamber FAQ that I have forwarded to several people.

Please let me know if you feel there is anything else that needs to be done. Thank you!!

Kristy,

Out of curiosity will you please create a report that outlines any items that have been completed as it relates to the Flint Water. This should include on a building by building basis any water tests including dates and results, any preventative measures and all notices that have been provided to tenants.

Thanks

If you would like me to bypass the filters that are donated and order our own, please let me know, otherwise I will keep directing tenants to the distribution centers.

I have asked Tim Knecht to direct me in verbiage when addressing tenants and answering questions so that people are well informed, but we are also protected. There are a couple of questions I would like to be able to answer for Mr. Knecht so that he can direct me accordingly. 1. Should we organize regular testing, possibly monthly? 2. Is the plumbing in each building new or old predating the ban on lead solder? (1986)?

For your review I have attached a report including each building's testing dates, results, preventative measures and tenant interaction such as notices/memos. Also attached is the memo sent out by the Market staff, an estimate for FFM Filtration and the Chamber FAQ that I have forwarded to several people.

Please let me know if you feel there is anything else that needs to be done. Thank you!!

Kristy,

Out of curiosity will you please create a report that outlines any items that have been completed as it relates to the Flint Water. This should include on a building by building basis any water tests including dates and results, any preventative measures and all notices that have been provided to tenants.

Thanks

I just talked to Tony from Young's and he's going to work on that. He wasn't aware that was the case when they dropped the trailer off (about it not being public). He's calling the foodbank to have a discussion and will let us know which way to go with it.

Hello!
I have seen examples of greenhouses that are made from the water bottles. They are quite bulky for a homeless person to carry around, and the wind can knock them around.
What about when the greenhouses are no longer usable?
I think recycling would be more beneficial in this case, although I like the "out of the box" thinking!

Thank you,
Heather

Subject: RE: water, filters, and test kits

Wendy,

I have responded from my city email and this is the best email for work related issues. Thank you for the information regarding the emergency efforts for the Flint water customers.

The City of Burton wants to be consistent with the Flint efforts. I am being asked why Flint residents are receiving more water than the various franchise customers.

I do not believe this to be true, but the perception is that all the media focus is on Flint residents and the franchise customers are forgotten.

The news reports that are indicating that the City of Flint residents are receiving all these donations from celebrities. Are any of these resources being directed to Burton, Flint Township, Genesee Township, Mt. Mortis township? The perception is that with all the hype on social media as well as television coverage, that

every City of Flint resident is receiving daily delivery of water directly to their doors every day. I just can't believe that is possible, but I have several inquiries as to why Burton can't deliver 2 cases per day to every one of the affected Burton residents. I could deliver 2 cases per day, but I don't have the supply of water. So far we have received a total of four pallets of water since January 18, 2016. So, I am looking for a little guidance and hoping you can help me answer these questions so I can address these issues with my residents.

How many cases of water are being **delivered** to Flint residents' homes? How often does one residence receive water delivered directly to their home?

1 case per day? 2 cases per week? Is there a limit on how many cases they receive?

How many cases of water are Flint residents **allowed to pick up** at the various distribution points?

1 case per day? 2 cases per week? Is there a limit on how many cases they receive?

How often am I supposed to pick up pallets of water at the Clio Road warehouse for Burton residents?

Where do I obtain the 211 pamphlets that Flint residents are receiving? We would like to give those to our residents as a resource, too.

Is the City of Flint sending any letters to residents to remind them of distribution points, turning in water samples, changing filters, where to receive free lead blood testing, etc?

Is there a point when the direct delivery of water to resident's homes stops and it is up to residents to pick up at a distribution point?

I have, also, been asked about the amount of aluminum being put back in the water by the PUR filters. Evidently, there is a website comparing various filters and PUR is not looking to be a favored choice. http://www.naturalnews.com/046536_water_filters_heavy_metals_lab_results.html

The City of Burton is currently working to change our distribution point from our DPW to our Fire Station #1 this Saturday. Fire Station #1 is located on Bristol Road just east of S. Saginaw. Hopefully, this will help residents who need to pick up water after 5 pm because our DPW closes at 4 pm. The Fire station will be open

for water pick up from noon to 7 pm starting Saturday, January 30, 2016. We will send out a media advisory as soon as the logistics are set.

In addition, this Saturday, the City of Burton Firefighters along with any volunteers we can muster will be delivering water to the affected Burton residents.

Thanks for your help.

Paula

Subject: water, filters, and test kits

Good Morning,

Your water is scheduled for pickup at the warehouse at 10:00 tomorrow. Jamie said that he will have the water picked up. Your filters and cartridges are available whenever you want them. The cartridges last for 100 gallons, so frequency of usage determine how long it will last. The test bottles are always available, so when the results start coming back, that will determine the next step that needs to be taken. If you have any other questions, call me anytime. By the way, did you check your dinner schedule yet???

Yes, the trailers are at Fire stations 1, 5 and 8.
Thank you for getting that in place, Roger!

Also, in the contact list I sent out yesterday, I didn't give the right email address for Gary from UM-Flint. His correct email address is gaashley@umflint.edu. I included an updated contact list with this email.

Went by there this morning. 2 parking spaces in front of building in a strip mall. Don't know where they have room to recycle.

This is what I found on Sacred Element's website, I get what they're doing, but don't think we should include them in our outreach efforts. What do the rest of you think?

Water bottles become Greenhouses to help the homeless *heart emoticon*

Sacred Elements
January 23 at 10:18pm ·

FREE water bottle recycling for EVERYONE!!!

Another side effect to the already tragic Flint Water Crisis...tons of empty water bottles *frown emoticon*

Having to get all of your water from bottles leaves you stuck with lots of empties....and the city of Flint has no city wide recycling program. This leaves us with tons of bottles to dispose of and many concerned about their impact on the environment. We would like to lend solution.....Drop your empties off at Sacred Elements.

We will take them off your hands and keep them from ending up in land fills. We have a great and inexpensive design of greenhouse that is constructed of 1x framing....and water bottle walls *smile emoticon* The finished constructions will be donated to local homeless and women's shelters to get them started growing this spring....each we will start with plenty of herbs...including ones like cilantro to help remove heavy metal toxins from our systems.

So, no worries....just bag them up and drop them off.....we'll take it from there. If we all do a little...it can help a lot *smile emoticon*

Thanks Gary, we'll look at it.
Sorry for the very confusing voicemail I left you earlier. Here the synopsis of what I was trying to say: The state probably will not able to print a sheet with detachable postcard, but can provide a card/door hanger with Republic Logo + a statement a la "If you want to participate in free recycling, call Republic Services at xxx-xxx-xxxx to receive a bin. Until you receive a bin, fill these bags with your empty bottles and place them at the curb on day x."

Carol,

I have a representative from the Chambers of Commerce in the Local EOC, however not today.

The Chamber is extremely in the loop and I'm hoping to have a representative from the Chamber in the JIC as well.

They are working on identifying a location where we can drop off water that restaurants can access.

Please let everyone asking that I am in constant contact with the Chambers, have met with multiple members, and am working with them to get whatever they need.

We are set.

It depends on how their water has been provided to their customers in the past.....

It would be difficult to say that they now have to incur that cost if they previously used the tap.....

Subject: RE: Businesses- chamber?

Shanon and my understanding is that businesses won't be turned away for resources. But you saw the earlier email that we're really encouraging people to take only one case of water per day. So they shouldn't expect that the water resource sites are going to become their source for customer water – but we realize staffers need water.

Does that make sense? Anyone else, please weigh in if you believe we should answer differently.

- Meegan

Subject: Businesses- chamber?
Importance: High

Hi Team,

If someone owns a business in flint- can they go to the fire station and get water/ water filters for their business?

If they own a home and a business- what is the protocol if they want resources for both locations?

Has anyone worked with the Chamber in Genesee County? Just had someone say that 2-1-1 referred them to the Chamber. They happened to be good friends with the President and the President was "out of the loop".

Skimm for January 26th

Skimm'd while catching up on "Shameless"

QUOTE OF THE DAY

"We all need the D" - The slogan for a Canadian public health campaign reminding people to get enough Vitamin D. Seems nobody bothered to Google "the D." Canada's since said 'so schlong' to that idea.

SKIMM THIS

THINGS PEOPLE ARE TALKING ABOUT

PLANNED PARENTHOOD

THE STORY

Yesterday, a Texas grand jury investigating Planned Parenthood made a U-turn and indicted two anti-abortion activists instead.

REMIND ME.

Last year, an anti-abortion group released a series of undercover videos that it said showed Planned Parenthood selling fetal tissue for a profit. It's not illegal to donate fetal tissue for medical research, but it IS illegal to profit from it in any way – which Planned Parenthood says it doesn't. It also says the videos were edited. The accusations prompted lots of investigations into Planned Parenthood, many of which ended after finding no wrongdoing. It also led to calls to pull the plug on Planned Parenthood's federal funding.

SO WHAT'S THE LATEST?

Yesterday, a grand jury decided to indict two people behind the videos - and cleared Planned Parenthood of any wrongdoing. Psst...a grand jury decides whether someone should be charged with a crime, not whether the person is guilty. One of the two was charged with a misdemeanor related to

buying human organs. They both were charged with tampering with a governmental record.

theSKIMM

Planned Parenthood is one of the leading women's healthcare providers in the country. It's always been controversial, but these videos have put it under an especially harsh spotlight...in an election year. Now, it looks like the tables might be turning.

SKIMM THIS

FLINT

THE STORY

Yesterday, Michigan's attorney general tapped a special investigator to look into one city's epic water issues.

REMIND ME.

In 2014, the city of Flint, MI left the Detroit water system to save cash money during tight times. Instead, it started taking water from a local river. This was all well and good until people noticed that their water looked and smelled bad. And children's blood tests started showing higher levels of lead, which can cause serious health and developmental issues for children. Not good.

SO WHAT'S THE LATEST?

Gov. Rick Snyder and his administration have been catching a lot of heat for being too slow to react. This new special investigator is going to look into how the F all this happened, including whether any laws were broken along the way.

theSKIMM

Meanwhile, Flint residents are still stockpiling bottled water and living that water filtered life. And it could be a loooong time until things are back to normal..

SKIMM THIS

REPEAT AFTER ME...

WHAT TO SAY WHEN YOUR BOSS CATCHES YOU FALLING ASLEEP IN A BIG MEETING...

Can I get a second chance? Yesterday, the Supreme Court said more than a thousand inmates across the country might get a second chance at freedom. Back in 2012, the Supremes decided that mandatory life sentences for juveniles were so not constitutional. At the time, the ruling only applied to future cases. Until yesterday, when the Court decided that a 69-year-old man who's been in jail for murder since he was 17 should be able to prove that he's changed his ways . This means that

inmates who were sentenced to life as juveniles have the opportunity to at least ask for a second chance. Now, the Supremes are passing the talking stick to President Obama. Today, he's expected to announce executive actions today that will ban federal prisons from putting juveniles and low-level offenders in solitary confinement. He says the punishment is overused in most cases.

SKIMM THIS

WHAT PEOPLE ARE TALKING ABOUT...

Florida State University. Yesterday, the school reached a settlement with a former student who accused former QB Jameis Winston of rape in 2012. Winston said the sex was consensual. He went on to win the Heisman Trophy, lead FSU to a national championship, and play in the NFL. The former student sued Winston personally and then sued Florida State for not properly investigating the situation. The case against Winston is pending, but yesterday the school agreed to pay her $950,000, basically saying they just don't want to foot the legal bills anymore. The school also agreed to five years of sexual assault awareness programs.

SKIMM THIS

WHAT TO SAY WHEN YOUR GRANDMOTHER FINDS OUT YOU'RE LIVING WITH YOUR BF...

Times, they are a-changin'. Earlier this week, the International Olympic Committee came out with new guidelines that say transgender athletes should be allowed to compete in the Olympics and international events without having sex reassignment surgery first. The committee says men transitioning to women need to prove their testosterone has dropped to a certain level before they can compete. In the past, athletes who were transitioning were required to have surgery and at least two years of hormone therapy before competing. The committee says it changed the policies to adapt to current attitudes on transgender issues. Caitlyn, start training.

Subject: RE: Single Family filter needs

Thank you Mary. I will defer to MSP and I am looping them into this email.

MSP Team: MSHDA contacted 437 single family household in Flint yesterday that have a MSHDA financed mortgages to determine if they needed filters. Below is a list of 24 households that didn't have filters (pay no attention to the color differential) that would like them.

I wanted to share this list with your team before proceeding any further in order to get direction on how to best proceed. Your team was most helpful last Friday in getting the additional filters out to our two larger rental units and if you can do the same here, we would be most appreciative. If not, we are happy to deliver.

Brian.

I agree it has taken a little longer than we had anticipated. However there have been a lot of little logistical issues to work through. We will address everyone's questions and concerns at the meeting tomorrow.

Subject: RE: Water Bottle Recycling Services

Recycling Group
This is taking way too long to get information out.
1.The information at Young's Environmental about recycling hit social media and news outlets today. See below.
2.Below that is an email sent to City of Flint where they state they are going to put boxes for collections at the fire stations.
3.Below that are the 5 sites that were sent to me for recycling bottles and cans and my comments about logistics at each site. The latest information I received said that just 2 sites will be selected.
When can we finalize? It will take days beyond the final approved copy before printing is complete.....
Karen

1. On Facebook this morning:
Young's Environmental at Young's Environmental.
January 23 at 11:51am · Flint, Flint
Wondering what to do with all your plastic bottles Flint, Michigan? Starting Monday at 9am we will have a roll-off box out front of our office located at G-5305 Dort Highway (between Carpenter and Coldwater) where you can drop off and recycling your empty plastic water bottles at no cost.
These bottles take centuries to decompose in landfills – let's work together to keep one crisis from causing another. We are working to get more drop off locations set up through our city and will do our best to keep everyone updated.Dort Highway in #Flint (between Carpenter Road & Coldwater) where you can drop and #recycle your empty plastic water bottles at no cost.
These bottles take centuries to decompose in landfills - let's work together to keep one crisis from causing another. We are working on getting more drop off locations setup throughout our city and will do our best to keep everyone updated! #FlintWaterCrisis

Young's Environmental
Waste Management · Flint, Flint

2. Email to someone at the City of Flint:
On behalf of Young's Environmental I am contacting the City of Flint regarding recycling services, we are very interested in helping OUR community properly dispose of the thousands upon thousands of used empty water bottles due to the current water situation in Flint.

We are willing to donate our resources (trucks, personnel, dumpsters, and disposal) at no cost to the City of Flint in order to help keep our community clean throughout this State of Emergency. We are hoping to be able to drop these boxes at the fire stations which are handing out water which would allow for the citizens of our community to drop their empties as they pick up new, from what we understand many have inquired as to where they can take their bottles.

We've tried calling several outlets all to no avail regarding these services. Please contact myself at 810.577.0710 or Alex Young at 989.413.8852 at any time. We hope to hear from you soon!

Sincerely,
Stephanie Young

3. Five sites for recycling water and cans on educational card. Which is it? 5 sites or 2 and which ones are the final sites?

Brennan Senior Center
1301 Pingree Ave.
Flint MI 48503 (Seventh Ward)
(small parking lot that seniors use on Pingree)

Flint Water Plant
4500 N Dort Hwy
Flint, MI 48506
(What entrance and where located?

Fire Station 1/ City Hall
310 East 5th St.
Flint, MI 48502
(In the morning, the line to get water goes from the Fire Station, back on 5th Ave and south on S. Saginaw St. –How wise is it to have the recycling use this same line? Perhaps a separate line for recycling?)

Haskell Center
2201 Forest Hill
Flint MI 48504
(Locked parking lot gate at Parkhurst St entrance – make sure that it remains open if you use that site/contact someone running the after school programs there)

Hasselbring Senior Center
1002 West Home Ave.
Flint, MI 48505 (First Ward)
Parking lot pretty good sized that seniors use – would recommend either the east or north end of parking lot and loop people in and out)

Subject: Re: Water Bottle Recycling Services

Karen,

We will set up another meeting/conference call shortly, so we can discuss issues like this. For now, I think the focus for republic would be to sign up more people for recycling and provide bins. That would make sense to us for two reasons:
1. People with curbside recycling don't need to visit a station.
2. The stations will be gone at some point, while curbside recycling will still be provided after the response to the emergency has ended. So in the long term, curbside is a much bigger piece to this puzzle than the stations.

Gary and I were going to speak today anyway, and we want to set up a call for this afternoon or tomorrow, so we as a group will be able to coordinate. Republic will be a big part of addressing this, but we should discuss if additional stations are the best use of their capabilities.

I will be contacting the group in a little bit for the next meeting/call.

Thanks,
Henrik

Stephanie,
Thank you for contacting the City of Flint with such a generous offer of services. I will forward this information to the group I am working with to coordinate how we can utilize your donation.
I will get back with you on Monday to confirm some options that may be available.

Thank you,
Heather

Subject: Re: Second Draft of Educational Card for Recycling

Bill Shuette held a press conference this morning and told people emphatically not to bathe in the water. (my husband saw it and called to see if this was a new finding). That totally contradicts what we have been told- that we can take a short shower in lukewarm water. Can anyone verify? Once media picks this up it will go viral, create more hysteria and then a major demand for water.....trying to find his statement in news now .

Subject: RE: First Draft of Educational Card for REcycling

We will send the second draft of the educational card out about 12:30pm – making some more changes that were suggested. Too many partners to include logos. So am listing all in alphabetical order. Please review the list and make corrections/additions.
More Questions

1. Where do people recycle the empty 12 oz. water cans? When we picked up water yesterday we received 2 cases of cans so I'm assuming others have received them too. They have a 10 cent deposit on them but when I tried to put them through the can return at Meijer, they were rejected. You can only take the cans back to stores where you purchased them. So cans will also become an issue. I 'm assuming that the cans came from FEMA.....and won't be accepted anywhere.
2. Does anyone have the list of churches who will accept the empty water bottles ?(and cans too?) Shane has confirmed that all sites currently listed on the back of the card will accept used water filters.

Subject: RE: First Draft of Educational Card for REcycling

Will someone (Karen?) please forward the draft of the information card as is stands right now?

Also, what would be the process to include recycling information on the existing door hanger that is being distributed with the water and filter crews?

Hi all,

Thanks for the quick preparation of this draft. Please make sure to also include Matt Flechter in your communication as his name was inadvertently left off the original communication. Once all comments have been considered and a final draft is prepared, we will run it through the Joint Information Center.

Subject: RE: First Draft of Educational Card for REcycling

Hello Everyone,

I wanted to offer some suggestions/comments.

First, the City of Flint has given permission to provide recycling of the water filters at each of the Fire stations. Additionally I have confirmed with the Health and Human services office on Clio Road that we can collect the filters there as well. I am still working on confirming the rest.

In regards to the flyer, I think it may be necessary to list the partners rather than use logos. It may save both space and time. I am in contact with Genesee Packaging of which may be donating boxes to assist in shipping the water filters for recycling; therefore they should be added to the list as well. Others that should be included are:

Michigan State Police
Petoskey Plastics
Genesee County Metropolitan Planning Commission
TerraCycle
Any other organizations assisting/donating

I also think the flyer should direct people to websites that contain the accurate and up to date information that we all discussed.

Lastly, the flyer should clearly identify which locations recycle the filters and bottles – it is my understanding that water bottles will not be recycled at each fire station but water filters will be. That should be clear for residents.

All the best,

Shane L. Kelley, Planner I

Karen,
Will this flyer be on a half sheet or 1/3 sheet? My first concern is will the wording be legible on partial sheets?

Thank you,
Heather

I will discuss with Mark if we might be able to get these printed through the State or the JIC.
We probably would be able to have a faster turnaround for the printer. The JIC would also be able to use the same "branding"/layout as other information materials (while still including all of our partners on the cards) - if that is something that our group can agree with.

City of Flint and Republic Services might be best suited to provide input on the content?

Thanks,

Henrik

As we discussed in the meeting, space is very limited at the water distribution centers. So they will have to recycle at another location. We are currently working on those locations. Also, would the printer be able to turn these around quicker if we don't do the glossy print?

Subject: First Draft of Educational Card for REcycling

Water Crisis Recycling Team
Attached is the first draft of the educational card for dissemination at all distribution sites in the City of Flint.
Action Requested:

- Review content first. Easy to read, 4th-6th grade level, instructions understandable

- Review format. Thought this was a catchy format that reflects the issue. We would print on a glossy card. This is not a final draft of the format – just a concept for review and approval.

- Forward information about places of worship who are assisting us and any other spelling, grammar, information errors or changes.

- At this time, printers are telling us 5 business days from submission of file, so time is of the essence

Thanks for you input.
Karen

If there is any possibility of getting the additional sites, I could bring another draft of the educational card to the meeting. I'd need this information.

Also just saw on Young's Environmental Face Book page that you can recycle water bottles at Bill Carr Signs on 719 W. 12th from 7 -4, M-F, and at Young's M-F from 8 - 6.

Subject: Re: Water Bottle Recycling Services

Everybody,

Would 1pm work for a meeting tomorrow/on Tuesday?

We are working to provide a call-in opportunity for anyone that might not be able to attend in person.

Subject: RE: Water Bottle Recycling Services

If there is any possibility of getting the additional sites, I could bring another draft of the educational card to the meeting. I'd need this information.

Also just saw on Young's Environmental Face Book page that you can recycle water bottles at Bill Carr Signs on 719 W. 12th from 7 -4, M-F, and at Young's M-F from 8 - 6.

Karen

Everybody,

Would 1pm work for a meeting tomorrow/on Tuesday?
We are working to provide a call-in opportunity for anyone that might not be able to attend in person.

Subject: Re: Second Draft of Educational Card for Recycling

Have conflicting information . Have 5 recycling sites per our meeting last Tuesday. Then additional emails that it will be reduced to two sites. Can someone verify the final selection? Then I can send out another draft.

Attached is the second draft of the Recycling Education Card. Empty water cans were added to recycling per Roger's email below. Please review/respond/revise as needed. Still waiting for bottle and can recycling sites.

Subject: RE: First Draft of Educational Card for REcycling

We will send the second draft of the educational card out about 12:30pm – making some more changes that were suggested. Too many partners to include logos. So am listing all in alphabetical order. Please review the list and make corrections/additions.
More Questions

1. Where do people recycle the empty 12 oz. water cans? When we picked up water yesterday we received 2 cases of cans so I'm assuming others have received them too. They have a 10 cent deposit on them but when I tried to put them through the can return at Meijer, they were rejected. You can only take the cans back to stores where you purchased them. So cans will also become an issue. I 'm assuming that the cans came from FEMA.....and won't be accepted anywhere.
2. Does anyone have the list of churches who will accept the empty water bottles ?(and cans too?) Shane has confirmed that all sites currently listed on the back of the card will accept used water filters.

Subject: RE: First Draft of Educational Card for REcycling

Will someone (Karen?) please forward the draft of the information card as is stands right now?

Also, what would be the process to include recycling information on the existing door hanger that is being distributed with the water and filter crews?

Hi all,

Thanks for the quick preparation of this draft. Please make sure to also include Matt Flechter in your communication as his name was inadvertently left off the original communication. Once all comments have been considered and a final draft is prepared, we will run it through the Joint Information Center.

Subject: RE: First Draft of Educational Card for REcycling

Hello Everyone,

I wanted to offer some suggestions/comments.

First, the City of Flint has given permission to provide recycling of the water filters at each of the Fire stations. Additionally I have confirmed with the Health and Human services office on Clio Road that we can collect the filters there as well. I am still working on confirming the rest.

In regards to the flyer, I think it may be necessary to list the partners rather than use logos. It may save both space and time. I am in contact with Genesee Packaging of which may be donating boxes to assist in shipping the water filters for recycling; therefore they should be added to the list as well. Others that should be included are:

Michigan State Police
Petoskey Plastics
Genesee County Metropolitan Planning Commission
TerraCycle
Any other organizations assisting/donating

I also think the flyer should direct people to websites that contain the accurate and up to date information that we all discussed.

Lastly, the flyer should clearly identify which locations recycle the filters and bottles – it is my understanding that water bottles will not be recycled at each fire station but water filters will be. That should be clear for residents.

All the best,

Karen,
Will this flyer be on a half sheet or 1/3 sheet? My first concern is will the wording be legible on partial sheets?

Thank you,
Heather

On Wed, Jan 20, 2016 at 1:46 PM, Hollaender, Henrik (MSP) <HollaenderH@michigan.gov> wrote:

I will discuss with Mark if we might be able to get these printed through the State or the JIC. We probably would be able to have a faster turnaround for the printer. The JIC would also be able to use the same "branding"/layout as other information materials (while still including all of our partners on the cards) - if that is something that our group can agree with.

City of Flint and Republic Services might be best suited to provide input on the content?

Thanks,

Henrik

As we discussed in the meeting, space is very limited at the water distribution centers. So they will have to recycle at another location. We are currently working on those locations. Also, would the printer be able to turn these around quicker if we don't do the glossy print?

Subject: First Draft of Educational Card for REcycling

Water Crisis Recycling Team
Attached is the first draft of the educational card for dissemination at all distribution sites in the City of Flint.
Action Requested:

- Review content first. Easy to read, 4th-6th grade level, instructions understandable

- Review format. Thought this was a catchy format that reflects the issue. We would print on a glossy card. This is not a final draft of the format – just a concept for review and approval.

- Forward information about places of worship who are assisting us and any other spelling, grammar, information errors or changes.

- At this time, printers are telling us 5 business days from submission of file, so time is of the essence

Thanks for you input.
Karen

Have conflicting information . Have 5 recycling sites per our meeting last Tuesday. Then additional emails that it will be reduced to two sites. Can someone verify the final selection? Then I can send out another draft.

We will send the second draft of the educational card out about 12:30pm – making some more changes that were suggested. Too many partners to include logos. So am listing all in alphabetical order. Please review the list and make corrections/additions.
More Questions

1. Where do people recycle the empty 12 oz. water cans? When we picked up water yesterday we received 2 cases of cans so I'm assuming others have received them too. They have a 10 cent deposit on them but when I tried to put them through the can return at Meijer, they were rejected. You can only take the cans back to stores where you purchased them. So cans will also become an issue. I 'm assuming that the cans came from FEMA.....and won't be accepted anywhere.
2. Does anyone have the list of churches who will accept the empty water bottles ?(and cans too?) Shane has confirmed that all sites currently listed on the back of the card will accept used water filters.
